## **Matter Of Principle Humanitarian Arguments For War In Iraq:**

*A Matter of Principle* Thomas Cushman, 2005-07-11 Offering alternative viewpoints to the prevailing pro anti war debate this volume considers the argument that intervention in Iraq was justified on the grounds that protection of human rights freedom from tyranny are global concerns      **Human Rights in the 'War on Terror'** Richard Wilson, 2005-10-03 This book reviews the war on terror since 9 11 from a human rights perspective      **Debating Humanitarian Intervention** Fernando R. Tesón, Bas Van der Vossen, 2017 The book offers contrasting views of humanitarian intervention a war aimed at ending tyranny Fernando Tes n      **The Gamble of War** A. Colonomos, 2013-02-05 This book analyzes the justification of preventive war in contemporary asymmetrical international relations It focuses on the most crucial aspect of prevention uncertainty It builds a new framework where the role of luck whether military political moral or normative is a corrective to the traditional approaches of the just war tradition      **The Iraq War** B. Romaya, 2012-06-04 This book features a critique of key philosophical doctrines that dominate the Iraq war debate just war theory humanitarian intervention democratic realism and preventive war doctrine The author evaluates each and develops a philosophical approach that offers a model for thinking through the philosophical dilemmas introduced by new wars      **Iraq at a Distance** Antonius C. G. M. Robben, 2010 Iraq at a Distance describes the plight of the Iraqi people caught since 2003 in the carnage between U S troops and Iraqi insurgents This provocative book is a bold attempt by five distinguished anthropologists to study an inaccessible war zone through ground breaking comparisons with armed conflicts around the world      In Defence of War Nigel Biggar, 2013-09-12 Against the domination of moral deliberation by rights talk In Defence of War asserts that belligerency can be morally justified even while it is tragic and morally flawed Recovering the early Christian tradition of just war thinking Nigel Biggar argues in favour of aggressive war in punishment of grave injustice      **Humanitarian Imperialism** Jean Bricmont, 2006-11-01 Since the end of the Cold War the idea of human rights has been made into a justification for intervention by the world s leading economic and military powers above all the United States in countries that are vulnerable to their attacks The criteria for such intervention have become more arbitrary and self serving and their form more destructive from Yugoslavia to Afghanistan to Iraq Until the U S invasion of Iraq the large parts of the left was often complicit in this ideology of intervention discovering new Hitlers as the need arose and denouncing antiwar arguments as appeasement on the model of Munich in 1938 Jean Bricmont s Humanitarian Imperialism is both a historical account of this development and a powerful political and moral critique It seeks to restore the critique of imperialism to its rightful place in the defense of human rights It describes the leading role of the United States in initiating military and other interventions but also on the obvious support given to it by European powers and NATO It outlines an alternative approach to the question of human rights based on the genuine recognition of the equal rights of people in poor and wealthy countries Timely topical and rigorously argued Jean Bricmont s book establishes a firm basis for resistance to global war with no end in sight      **Wilsonian Approaches to**

**The Ideology of Tyranny** G. Preparata, 2007-09-14 The book ascribes the late state of paralysis affecting dissent in America to the adoption of a peculiar gospel of divisiveness which was promoted in the Eighties by importing from France the theories of philosopher Michel Foucault

Confronting Global Terrorism and American Neo-Conservatism Tom Farer, 2008-02-07 This book brings together and subjects to critical scrutiny the core controversies connected to the so called War on Terror When is it legitimate and prudent to use force Is torture ever justified Do we need to suspend human rights in order to fight terrorism Is multi culturalism the answer to communal conflict Is Israel s treatment of the Palestinians illegal and immoral an accelerator of terrorism or legitimately defensive and largely irrelevant to the terrorism problem Are terrorists responding to concrete U S policies or do they simply hate and wish to destroy Western societies Liberal intellectuals and political leaders have been slow to articulate a grand strategy informed by liberal values for confronting these issues surrounding global terrorism The book outlines the framework of a liberal strategy and exposes the costs of the neo conservative alternative that has driven US foreign policy since 9 11

**The Realities of Reality - Part IV: The Reality Behind Achieving World Peace** Fritz Dufour, MBA, DÉSS, 2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to

the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then as the only world's superpower after World War II Finally chapter seven takes a proactive approach by peering into the future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe

**The Globalization of World Politics** John Baylis, Steve Smith, Patricia Owens, 2011 Now in its fifth edition this title has been fully revised and updated in the light of recent developments in world politics with new chapters on the changing nature of war human security and international ethics

**Journalists Under Fire** Howard Tumber, Frank Webster, 2006-04-18 it will appeal not only to students of journalism and media but also to anyone interested in the world around them Marie Kinsey Times Higher Education Supplement Professor Tumber weaves together traditional and topical themes to produce a comprehensive overview of the media's role at times of conflict Stewart Purvis City University London Presents a vivid picture of what it's like to be working as a journalist on the front line during a modern war Through the eyes of leading correspondents in the field the authors examine their experience and its impact on the audience their profession and their own lives The Information Centre about Asylum and Refugees in the UK ICAR

Journalists Under Fire is the first book to combine a conceptually audacious analysis of the changing nature of war with an empirically rich critical analysis of journalists who cover conflict In Journalists Under Fire authors Howard Tumber and Frank Webster explore questions about the information war and journalistic practices Frontline correspondents play a key role in information war but their position is considerably more ambiguous and ambivalent than in the epoch of industrial war They play a central role in the presentation of what is often spectacle to audiences around the world whose actual experience of war is far removed from combat In the era of multi national journalism of the internet and satellite videophone the book highlights central features of media reporting in contemporary conflict Drawing on over fifty lengthy interviews with frontline correspondents the authors shed light on the motivations fears and practices of those who work under conditions of journalism under fire Journalists Under Fire is designed for undergraduate and postgraduate students and for scholars academics and researchers in the fields of journalism media and communication Media Studies sociology international relations and war studies

**A Pact with the Devil** Tony Smith, 2012-09-10 Despite the overwhelming opposition on the left to the war in Iraq many prominent liberals supported the war on humanitarian grounds They argued that the war would rid the world of a brutal dictator and liberate the Iraqi people from totalitarian oppression paving the way for a democratic transformation of the country In A Pact with the Devil Tony Smith deftly traces this undeniable drift in mainstream liberal thinking toward a more militant posture in world affairs with respect to human rights and democracy promotion Beginning with the Wilsonian quest to make the world safe for democracy right up to the present day liberal support for regime change

Smith isolates leading strands of liberal internationalist thinking in order to see how the liberal hawks constructed them into a case for American and liberal imperialism in the Middle East The result is a reflection on an important aspect of the intellectual history of American foreign policy establishing how a sophisticated group of thinkers came to fashion their recommendations to Washington and working to see what role liberalism may still play in deliberations in the country on its role in world events now that the failure of these ambitions in Iraq seems clear

### **Deconstruction After 9/11**

Martin McQuillan, 2008-10-07 In this book Martin McQuillan brings Derrida s writing into the immediate vicinity of geo politics today from the Kosovan conflict to the war in Iraq The chapters in this book follow both Derrida s writing since Specters of Marx and the present political scene through the former Yugoslavia and Afghanistan to Palestine and Baghdad His textual activism is as impatient with the universal gestures of philosophy as it is with the complacency and reductionism of policy makers and activists alike This work records a response to the war on thinking that has marked western discourse since 9 11

**Counterterrorism Strategies** Yonah Alexander, 2006 In Counterterrorism Strategies seven experts examine how the United States France Germany Italy Egypt and Sri Lanka have combated terrorist groups from the 1970s to the present and draw lessons that are applicable to today s threats Counterterrorism Strategies shows that there are no simple or complete solutions to the dangers posed by determined and elusive terrorists but several of the countries detailed here have had significant successes The contributors analyses of the effectiveness or ineffectiveness of strategies used by these six countries offer a counterterrorism road map for the twenty first century This book is essential reading for policymakers for counterterrorism scholars and professionals and for members of the general public who are concerned about the general direction of the international campaign against terrorism Jacket
