*Matter and Spirit* James Bissett Pratt, 1922      *Matter and Spirit* James Bissett Pratt, 2015-06-14 Excerpt from *Matter and Spirit A Study of Mind and Body in Their Relation to the Spiritual Life* The principal excuse for a new book on the eternal problem of matter and mind is just the fact that the problem is eternal And not only is it eternal it is so complex that there is no end of illuminating ways in which it may be presented A further excuse if it be needed is to be found in the many new attitudes toward the question which contemporary thought has suggested A fairly rapid survey of the various answers old and new which have been given to our question a bird s eye view so to speak of this ancient problem in its modern setting seems to be called for by the times in which we live The need for such a review becomes more patent the moment one stops to consider the absolutely central place of the mind body problem in metaphysical speculation and the fundamental nature of metaphysics in knowledge and in life About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **Matter and Spirit** James Bissett Pratt, 1926

**Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments** Mark A. Schroll, 2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re experience memories that are woven into the morphogenetic fields of that place an idea that originates with Paul Devereux s empirical enquiry into dreams at sacred sites in Wales and England This books examines how this investigation provides us with a new way of understanding consciousness and a new direction toward a reconciliation of the divorce between matter and spirit We

explore the work of David Lukoff and Stanislav and Christina Grof the connections between the varieties of transformative experience in dream studies ecopsychology transpersonal psychology and the anthropology of consciousness as well as the overlap between David Bohm's interpretation of quantum theory and Rupert Sheldrake's hypothesis of formative causation

**The New-Church Review**, 1924      **The fabric(ation) of consciousness** Pieter F. Craffert, 2024-05-28 Consciousness is central to the quest for being human and for what the world is made of While there is widespread agreement on the significance of consciousness for clarifying the human condition there is no agreement on the phenomenon in search of theorising Although there is no shortage of theories and concepts of consciousness in current consciousness research the dominant critical analysis of consciousness research in this study although based on existing analyses is as far as I can see new and unique in arguing for a crisis in consciousness research This book touches on most aspects of consciousness research the hard problem of consciousness neural correlates of consciousness brain models and consciousness consciousness and dualistic thinking etc but is a critical analysis of consciousness research It is not an insider but a third person perspective on current consciousness research In this regard it differs from most introductions and overviews where these topics are presented from a first person perspective the insiders claim about their research Representing the broad spectrum of consciousness research in terms of the theoretical framework of a neuro ecological perspective is a new and innovative move      *The Methodist Quarterly Review*, 1923      Spirit & Matter Before the Bar of Modern Science Isaac Winter Heysinger, 1910      **The New Science Review** J. M. Stoddart, 1895      **Philosophy and Vision** Dane R. Gordon, 1998 Philosophy and Vision argues that clear thinking and imaginative understanding are necessary qualities as we try to deal with the problems that confront us in our daily life The book discusses history the environment religion personal and corporate morality freedom the concept of person poetry and post modernism attempts to show that as a philosophic vision is brought to bear on all of these we will grasp them more completely and more constructively The issues which challenge most of us seldom have straightforward answers but they require some answers some response other than failing out of our emotions Attempting to see these philosophically to adopt a philosophic vision is no panacea but it may make the difference between being overwhelmed and being able to cope The book has a crisp enjoyable style and while it is a philosophical work it draws upon movies fiction poetry and life's experiences in developing its arguments      **The Christian Science Journal**, 1920      Christian Science and the Catholic Faith Augustin M. BELLWALD, 1922      *Christian Science and the Catholic Faith* Augustine Matthias Bellwald, 1922      **Science** John Michels (Journalist), 1884 Vols for 1911 13 contain the Proceedings of the Helminthological Society of Washington ISSN 0018 0120 1st 15th meeting      *Physics, Metaphysics, and God - Third Edition* Jack W. Geis, 2010-07-15 At long last a promising dialogue between science and medicine has begun A focal point of this discussion is healing and how it happens Jack W Geis shows how modern physics and spirituality are centrally involved in this debate No one who is interested in the current interface between science spirituality and medicine

can afford to neglect his ideas Larry Dossey MD Author Healing Beyond the Body and Healing Words The Power of Prayer and the Practice of Medicine This book introduces some of the most perplexing and exciting aspects of the revolution going on in physics today as it continues toward an increasingly metaphysical basis for defining reality This exciting scientific revolution should be shared by everyone and the issues taken up in this book form a basis for that participation That the math is not in the chalk is becoming increasingly evident as well as the question as to which is more substantial Dr Laurance R Doyle Astrophysics and Planetary Science Center for the Study of Life in the Universe SETI Institute

**First Philosophy III: God, Mind, and Freedom - Second Edition** Andrew Bailey, 2011-07-08 First Philosophy God Mind and Freedom brings together classic and ground breaking readings on metaphysics the philosophy of mind and the philosophy of religion Andrew Bailey's highly regarded introductory anthology has been revised and updated in this new edition The comprehensive introductory material for each chapter and selection remains and new sections on philosophical puzzles and paradoxes and philosophical terminology have been added New to this edition are readings from Alvin Plantinga Frank Jackson David Chalmers A J Ayer Bernard Williams and Thomas Nagel

The Elements of Social Science George R. Drysdale, 1898

**The Integral Philosophy of Aurobindo** Brainerd Prince, 2017-01-20 Sri Aurobindo was an Indian nationalist philosopher yogi guru and poet This book is an enquiry into the integral philosophy of Aurobindo and its contemporary relevance It offers a reading of Aurobindo's key texts by bringing them into conversation with religious studies and the hermeneutical traditions The central argument is that Aurobindo's integral philosophy is best understood as a hermeneutical philosophy of religion Such an understanding of Aurobindo's philosophy offering both substantive and methodological insights for the academic study of religion subdivides into three interrelated aims The first is to demonstrate that the power of the Aurobindonian vision lies in its self conception as a traditionary hermeneutical enquiry into religion the second to draw substantive insights from Aurobindo's enquiry to envision a way beyond the impasse within the current religious secular debate in the academic study of religion Working out of the condition of secularism the dominant secularists demand the abandonment of the category religion and the dismantling of the academic discipline of religious studies Aurobindo's integral work on religion arising out of the Vedānta tradition critiques the condition of secularity that undergirds the religious secular debate Finally informed by the hermeneutical tradition and building on the methodological insights from Aurobindo's integral method the book explores a hermeneutical approach for the study of religion which is dialogical in nature This book will be of interest to academics studying Religious Studies Philosophy of Religion Continental Hermeneutics Modern India Modern Hinduism as well as South Asian Studies
