Matter And Spirit:

From Matter to Spirit Sophia Elizabeth De Morgan, 2011-05-19 A decade long study of the spiritualist world this volume provides a glimpse into the Victorian fascination with the occult Matter and Spirit James B. Pratt, 1970 Matter and Spirit in the Universe Helge Kragh, 2004 Cosmology is an unusual science with an unusual history This book examines the formative years of modern cosmology from the perspective of its interaction with religious thought As the first study of its kind it reveals how closely associated the development of cosmology has been with considerations of a philosophical and religious nature From nineteenth century thermodynamics to the pioneering cosmological works of Georges Lemaître and Arthur E Milne religion has shaped parts of modern cosmological theory By taking the religious component seriously a new and richer history of cosmology emerges

Aumiller, 2025-11-15 Excavating the comedic crack in historical repetitions What happens when those who have been denied political subjectivity fully play out their negative role in a historical drama that damned them from the beginning Hegel Marx and the Laughing Matter of Spirit locates the eruption of revolutionary laughter in historical cracks across nineteenth and twentieth century Europe where exiled philosophers partisan fighters and artists framed their political resistance as a historical comedy Hegelian comedy fuels the Young Hegelian critique of Prussian censorship Walter Benjamin's staging of the anti fascist resistance and the Yugoslavian partisan attempt to begin again in fascism's aftermath Revolution erupts from a historical stage that can no longer look on its own contradictions with a straight face Drawing on the defiant spirit of comedy this Hegelian feminist manifesto defies political despair overturning the perception that history tragically repeats itself Invoking the phrase Nothing changes as a mantra R A Aumiller turns a concession of defeat into a battle cry for political resistance

The world of matter and the spirit of man Theodore Parker, 1907 **Matter and Spirit** James Bissett Pratt, 1926 Making Spirit Matter Larry Sommer McGrath, 2020-11-13 The connection between mind and brain has been one of the most persistent problems in modern Western thought even recent advances in neuroscience haven't been able to explain it satisfactorily Historian Larry Sommer McGrath's *Making Spirit Matter* studies how a particularly productive and influential group of nineteenth and early twentieth century French thinkers attempted to solve this puzzle by showing the mutual dependence of spirit and matter The scientific revolution taking place at this point in history across disciplines from biology to psychology and neurology located our mental powers in the brain and offered a radical reformulation of the meaning of society spirit and the self Tracing connections among thinkers such as Henri Bergson Alfred Fouille Jean Marie Guyau and others McGrath plots alternative intellectual movements that revived themes of creativity time and experience by applying the very sciences that seemed to undermine metaphysics and religion Making
