Rollo warns against this goal becoming obscured as Western nations and investors run into the problems inherent in transition, especially if progress toward multi-party democracies and market economies is slow. What he chooses to ignore, however, are the national economic aspirations of the Eastern European countries, themselves, and the impact of those aspirations on international economic relationships as governments and policies change. Nadia Diuk and Adrian Karatnycky, *New Nations Rising: The Fall of the Soviets and the Challenge of Independence*. (New York: Wiley, 1993). vii, 242 pp., \$14.95 p/b.

Here the authors set out to chronicle the road to independence for each of the Soviet successor states. Combining interview material from leaders of the emerging national movements with general impressions of the authors' extensive travels, *New Nations Rising* looks to provide the reader with a sense of the final days of the Soviet Union from outside Moscow.

New Nations Rising is at its best when it covers the early breaking tension between the national movements and the old Communist *apparatus*. In many cases, snippets of the authors' interviews with leaders of the nascent opposition forces paint a striking picture of the political struggles for sovereignty and, eventually, independence throughout the former Soviet Union. Indeed, a reader interested in what it was actually like to be in the Soviet republics as the Union unravelled will likely come away from *New Nations Rising* satisfied, for Diuk and Karatnycky have a knack of providing particularly vivid descriptions of their points of destination. But the authors promise
