

New Religious Movements In The West Constructions And Controversies

Lynne Hume

New Religious Movements In The West Constructions And Controversies:

Researching New Religious Movements Elisabeth Arweck, 2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious groups and the majority interests which oppose them It asks how modern societies can best respond to new religious movements The Oxford Handbook of New Religious Movements James R. Lewis, Inga Bårdsen Tøllefsen, 2016 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs

Understanding New Religious Movements John A Saliba, 2004-09-08 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals Understanding New Religious Movements offers the most objective introduction possible

The Centrality of Religion in Social Life Eileen Barker, 2021-11-18 James A Beckford's work is internationally acclaimed not only in the sociology of religion but also in other fields of the social sciences Beckford has long been arguing that the barriers that have grown up between the different sub disciplines should be broken down with those specialising in religion becoming more cognisant of new theoretical developments and sociologists in general becoming more aware of the significance of developments in the religious scene This book is a collection of essays written in Beckford's honour drawing on a number of religious themes that have been central to Beckford's interests whilst also offering a significant contribution to our understanding of the wider society A central theme is modernity and its relation to the post modern and how religion affects and is affected by the dynamics of contemporary society with the primary focus of many of the chapters being a concern with how society copes with the minority religions that have become visible with the globalising tendencies of contemporary society The contributors who come from America Asia and various parts of Europe are all internationally renowned scholars Beckford's most important publications are listed in an Appendix and the volume opens with a short account of his contribution to sociology by Eileen Barker the editor and James T Richardson

Religious Identities and the Global South Felix Wilfred, 2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the

Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications *The Church in the Modern Age* Jeremy

Morris,2007-03-28 Given the diversity and complexity of developments in the twentieth century a history of the Christian Church in the modern period is in some ways the most challenging volume of all to write But Jeremy Morris succeeds in presenting a coherent account of the Church He emphasises the changing relationship of Western churches to the many forms of Christianity in other parts of the world while also departing from the Eurocentric worldview of previous histories His volume offers three major perspectives The first is political in which the history of the modern Church is assessed through a prism of international conflicts and international relations The second perspective is regional in which coverage is given not only to Europe and the Americas but to Christianity in Africa the Middle East Asia the Pacific Rim and Australasia The author s third major perspective is institutional in which he discusses particular Christian traditions and their relationships with each other with other faiths and with wider cultures An epilogue evaluates the future and prospects for Christianity in the new millennium *Popular Spiritualities* Lynne Hume,2018-05-08 In our contemporary post modern world popular forms of

spirituality are increasingly engaging with notions of re enchantment of self and community Not only are narratives of re enchantment appearing in popular culture at the personal and spiritual level but also they are often accompanied by a pragmatic approach that calls for political activism and the desire to change the world to incorporate these new ideas Drawing on case studies of particular groups including pagans witches radical faeries post modern tourists and queer and goddess groups contributors from Australia the UK and North America discuss various forms of spirituality and how they contribute to self knowledge identity and community life The book documents an emerging engagement between new quasi religious groups and political action eco paganism post colonial youth culture and alternative health movements to explore how social change emerges *Challenging Religion* James A. Beckford,James T. Richardson,2003-09-02 Leading scholars examine the growth of new religious movements or cults in the US and Europe over the last 50 years and state attempts to monitor and control them debating the political practical and ethical issues which arise **Agents of Discord** Susan E.

Darnell,2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In *Agents of Discord* Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there

have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto

Social Theory and Religion James A. Beckford, 2003-08-21 Many aspects of religion are puzzling these days This 2003 book looks at ways of improving our understanding of religious change by strengthening the links between social theory and the social scientific study of religion It clarifies the social processes involved in constructing religion and non religion in public and private life Taking illustrations of the importance of these boundaries from studies of secularisation religious diversity globalisation religious movements and self identity Beckford reviews social scientific knowledge about religion and assesses the strengths and weaknesses of a wide range of theoretical attempts to account for religious change and continuity The discussion goes in two directions The first is towards identifying ways in which studies of religion would benefit from taking better account of themes in recent social theory The second is towards identifying reasons for social theorists to pay more attention to the findings of empirical investigations of religion

Studying Religion and Society

Titus Hjelm, Phil Zuckerman, 2013 How do you study religion and society In this fascinating book some of the most famous names in the field explain how they go about their everyday work of studying religions in the field They explain how the ideas for their projects and books have come together how their understanding of religion has changed over the years and how their own beliefs have affected their work They also comment on the changing nature of the field the ideas which they regard as most important and those which have not stood the test of time Lastly they offer advice to young scholars and suggest what needs to be done to enable the field to grow and develop further

The Cambridge Companion to New Religious Movements Olav Hammer, Mikael Rothstein, 2012-08-30 New religions emerge as distinct entities in the religious landscape when innovations are introduced by a charismatic leader or a schismatic group leaves its parent organization New religious movements NRMs often present novel doctrines and advocate unfamiliar modes of behavior and have therefore often been

perceived as controversial NRMs have however in recent years come to be treated in the same way as established religions that is as complex cultural phenomena involving myths rituals and canonical texts This Companion discusses key features of NRMs from a systematic comparative perspective summarizing results of forty years of research The volume addresses NRMs that have caught media attention including movements such as Scientology New Age the Neopagans the Sai Baba movement and Jihadist movements active in a post 9 11 context An essential resource for students of religious studies the history of religion sociology anthropology and the psychology of religion *New Religious Movements: A Guide for the Perplexed* Paul Oliver, 2012-02-02 Exploration of new religious movements which have originated since 1950 setting them within their social and cultural context *New Religious Movements: The Basics* Joseph Laycock, 2022-06-24 New Religious Movements The Basics is a concise and engaging introduction to the field of New Religious Movements NRMs Western culture is currently going through a wave of fascination with cults with numerous documentaries and television series dedicated to describing these groups Meanwhile scholars have been wrestling with the intricacies of this loaded category for decades Introducing the reader to some of the key issues and debates in the field of NRM studies this book includes discussions on how to define the term new religious movement critically unpacking the term cult how to study NRMs brainwashing and deprogramming prophecy and failed prophecy charisma and authority NRMs and violence gender and sexuality This book is essential reading for students and scholars of religion who are approaching the study of NRMs for the first time as well as those interested in deepening their understanding of NRMs **Routledge Library Editions: Sociology of Religion** Various, 2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class Teaching New Religious Movements David G. Bromley, 2007-05-25 Since its inception around 1970 the study of New Religious Movements NRMs has evolved into an established multidisciplinary field At the same time both the movements and the scholars who study them have been the subjects of intense controversy In this volume a group of senior NRM scholars who have been instrumental in the development of the field will offer pivotal essays that present the basics of NRM scholarship along with guidance for teachers on classroom use The book is organized topically around subjects that are both central to the study of NRMs and likely to be useful to non specialists Part I contains examinations of the definitional boundaries of the area of study varying disciplinary perspectives on NRMs unique methodological ethical problems encountered in the study of NRMs and the controversies that have confronted scholars studying NRMs and the movements themselves Part II examines a series of topics central to teaching about NRMs the larger sociocultural significance of the movements their distinctive symbolic and organizational features the interrelated processes of joining and leaving NRMs the organization of gender roles in NRMs media and popular culture portrayals of the movements the occurrence of corruption and abuse within movements and violence by and against NRMs

Part III provides informational resources for teaching about NRMs which are particularly important in a field where knowing the biases of sources is crucial. With its interdisciplinary approach the volume provides comprehensive accessible information and perspectives on NRMs. It is an invaluable guide for instructors navigating this scholarly minefield. *Controversial New Religions* James R. Lewis, Jesper Aa. Petersen, 2014-07-16. In terms of public opinion new religious movements are considered controversial for a variety of reasons. Their social organization often runs counter to popular expectations by experimenting with communal living, alternative leadership roles, unusual economic dispositions and new political and ethical values. As a result the general public views new religions with a mixture of curiosity, amusement and anxiety, sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience. This updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at those groups that have generated the most attention, including some very well known classical groups like The Family Unification Church, Scientology and Jim Jones's People's Temple, some relative newcomers such as the Kabbalah Centre, the Order of the Solar Temple, Branch Davidians, Heaven's Gate and the Falun Gong, and some interesting cases like contemporary Satanism, the Raelians, Black nationalism and various Pagan groups. Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis. By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field, this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories.

Writing History, Constructing Religion James G. Crossley, Christian Karner, 2018-01-18. *Writing History: Constructing Religion* presents a much needed interdisciplinary exploration of the significance of debates among historians, scholars of religion and cultural theorists over the nature of history to the study of religion. The distinguished authors discuss issues related to definitions of history, postmodernism, critical theory and the impact on the study and analysis of religious traditions, exploring the application of writing history from below, discussions of truth and objectivity as opposed to power and ideology, crises of representation and the place of theory in the historicized study of religion. Addressing conceptual debates in a wide range of historical and empirical contexts, the authors critically engage with issues including religious nationalism, Nazism, Islam and the West, secularism, religion in post-Communist Russia, ethnicity and post-modernity. This book constitutes a significant step towards the self-reflexive and interdisciplinary study of religions in history.

Violence and New Religious Movements James R. Lewis, 2011-04-06. The relationship between new religious movements (NRMs) and violence has long been a topic of intense public interest, an interest heavily fueled by multiple incidents of mass violence involving certain groups. Some of these incidents have made international headlines. When New Religious Movements make the news it's usually because of some violent episode. Some of the most famous NRMs are known much more for the violent way they came to an end than for anything else. *Violence and New Religious Movements* offers a comprehensive examination of violence by and against new

religious movements The book begins with theoretical essays on the relationship between violence and NRMs and then moves on to examine particular groups There are essays on the Big Five the most well known cases of violent incidents involving NRMs Jonestown Waco Solar Temple the Aum Shunrikyo subway attack and the Heaven s Gate suicides But the book also provides a richer survey by examining a host of lesser known groups This volume is the culmination of decades of research by scholars of New Religious Movements

Cults, New Religions and Religious Creativity (Routledge Revivals) Geoffrey Nelson, 2011-03-31 The twentieth century has been marked by an unprecedented outburst of religious activity on a world wide scale and in particular by a mushrooming of numerous religious movements This work first published in 1987 takes a fresh approach to the understanding of this phenomenon an approach which takes into account new concepts of human nature and of religion

Unveiling the Magic of Words: A Report on "**New Religious Movements In The West Constructions And Controversies**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring.
