Ingres Susan L. Siegfried,2009 Jean Auguste Dominique Ingres 1780 1867 produced a body of work that strongly appealed to his contemporaries while disconcerting them Even today the odd qualities of his work continue to fascinate scholars critics and artists In this handsomely illustrated and elegantly written book Susan L Siegfried argues that the strangeness associated with Ingres s paintings needs to be located in the complex and richly invested nature of the work itself as well as in the artist s very powerful if often perverse sense of artistic project She shows that his major re thinking of pictorial narrative in his classical literary historical and religious subjects was as central to his achievement as his distinctive rendering of the female figure in classical nudes and portraits He was engaged in a complex process of giving visual form to narrative which he did in new and unusual ways that involved him in a close reading of the texts on which he drew including authors such as Homer Virgil Ariosto and Dante as well as religious narratives and stories about medieval and early modern French history
