

J. F. KENNEDY (b.1917, d.1963)

President 1961-1963

John F. Kennedy

Kennedy was the first president to be elected at the age of 43. He was a member of the Catholic Church, the first Catholic president. He was also the first president to be elected to the office of the President of the United States after having served as a member of the United States House of Representatives and as a member of the United States Senate. He was also the first president to be elected to the office of the President of the United States after having served as a member of the United States House of Representatives and as a member of the United States Senate.

His administration was marked by the Cuban Missile Crisis, the Bay of Pigs invasion, and the assassination of Martin Luther King Jr. He was also the first president to be elected to the office of the President of the United States after having served as a member of the United States House of Representatives and as a member of the United States Senate.

Following his inauguration in January 1961, when he challenged Americans to "ask not what your country can do for you—ask what you can do for your country," he faced his first crisis in April 1961, with the disastrous Bay of Pigs invasion (planned during the Eisenhower era), in which U.S.A.-sponsored Cuban rebels failed to overthrow Castro. Kennedy met Khrushchev in Vienna two months later to discuss the Berlin issue, but did not impress the Soviet premier, who was determined to challenge the might of the United States. In 1962 the Soviets accordingly began to install missiles on Cuba within range of the United States. During the resulting Cuban Missile Crisis Kennedy blocked the shipment of weapons for Cuba and demanded the missiles' removal. He was finally able to convince the Soviets that the United States would respond in kind, thereby averting the nuclear war to which the world had come perilously close. Indeed, in 1963 the Soviet-U.S. Nuclear Test Ban Treaty furthermore agreed the ending of the atmospheric testing of nuclear weapons.

Kennedy was now perceived as the leader of the "New World," but still faced dissent at home. His planned "New Frontier" of progressive legislation included several hastening civil-rights proposals, and by 1963 Kennedy was waging a continuing battle with Congress over the enactment of many measures. Less controversially 1961 marked the founding of both the Alliance for Progress, which provided economic support to Latin America, and the Peace Corps.

On November 22, 1963, Kennedy was shot and killed in Dallas, Texas, by the Soviet sympathizer Lee Harvey Oswald (although a conspiracy was widely suspected). Kennedy's early death has since made him a figure of legend.

John F. Kennedy at a press conference in Washington D.C., September 1961

Pictorial Historic Of The U S Presidents
