Politics Of Genocide The Holocaust In Hungary:

The Politics of Genocide Randolph L. Braham, 2000-04-01 Scholars of Holocaust Slavic and East Central European studies will find this volume indispensable [The Politics of Genocide](#) Randolph L. Braham, 1981 [The Politics of Genocide](#) Randolph L. Braham, 1981 [Budapest Building Managers and the Holocaust in Hungary](#) Istvan Pal Adam, 2016-09-30 This book traces the role of Budapest building managers or concierges during the Holocaust It analyzes the actions of a group of ordinary citizens in a much longer timeframe than Holocaust scholars usually do Thus it situates the building managers activity during the war against the background of the origins and development of the profession as a by product of the development of residential buildings since the forming of Budapest Instead of presenting a snapshot from 1944 it shows that the building managers wartime acts were influenced and shaped by their long term social aspiration for greater recognition and their economic expectations Rather than focusing solely on pre war antisemitism this book takes into consideration other factors from the interwar period such as the culture of tipping In Budapest during June 1944 the Jewish residents were separated not into a single closed ghetto area but by the authorities designating dispersed apartment buildings as ghetto houses The almost 2 000 buildings were spread throughout the entire city and the non Jewish concierges serving in these houses represented the link between the outside and the inside world The empowerment of these building managers happened as a side effect of the anti Jewish legislation and these concierges found themselves in an intermediary position between the authorities and the citizens *The Holocaust in Hungary* Randolph L. Braham, 2001 A multilingual bibliography with 1 500 items classified under 43 sections divided by genre e g diaries interviews fictional accounts and by subject e g antisemitism the Christian Churches and leaders intellectuals and cultural life anti Jewish legislation concentration and detention camps rescue **In Defense of Christian Hungary** Paul Hanebrink, 2018-09-05 In this important historical account of the role that religion played in defining the political life of a modern national society Paul A Hanebrink shows how Hungarian nationalists redefined Hungary a liberal society in the nineteenth century as a narrowly Christian nation in the aftermath of World War I Drawing on impressive archival research Hanebrink uncovers how political and religious leaders demanded that Christian values influence public life while insisting that religion should never be reduced to the status of a simple nationalist symbol In Defense of Christian Hungary also explores the emergence of the idea that a destructive Jewish spirit was the national enemy In combining the historical study of antisemitism with more recent considerations of religion and nationalism Hanebrink addresses an important question in Central European historiography how nations that had been inclusive of Jews before World War I became rabidly antisemitic during the interwar period As he traces the crucial and complex legacy of religion s role in shaping exclusionary antisemitic politics in Hungary Hanebrink follows the process from its origins in the 1890s to the Holocaust and beyond More broadly In Defense of Christian Hungary squarely addresses the relationship between antisemitic words and antisemitic violence and between religion and racial

politics deeply contested issues in the history of twentieth century Europe The Hungarian example is a chilling demonstration of how religious nationalism can find a home even within a pluralist and tolerant civil society **Jews, Nazis and the**

Cinema of Hungary David Frey,2017-02-28 Between 1929 and 1942 Hungary's motion picture industry experienced meteoric growth It leapt into Europe's top echelon trailing only Nazi Germany and Italy in feature output Yet by 1944 Hungary's cinema was in shambles internal and external forces having destroyed its unification experiments and productive capacity This original cultural and political history examines the birth unexpected ascendance and wartime collapse of Hungary's early sound cinema by placing it within a complex international nexus Detailing the interplay of Hungarian cultural and political elites Jewish film professionals and financiers Nazi officials and global film moguls David Frey demonstrates how the transnational process of forging an industry designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism **Holocaust City** Tim

Cole,2013-10-18 Drawing from the ideas of critical geography and based on extensive archival research Cole brilliantly reconstructs the formation of the Jewish ghetto during the Holocaust focusing primarily on the ghetto in Budapest Hungary one of the largest created during the war but rarely examined Cole maps the city illustrating how spaces cafes theaters bars bathhouses became divided in two Throughout the book Cole discusses how the creation of this Jewish ghetto just like the others being built across occupied Europe tells us a great deal about the nature of Nazism what life was like under Nazi occupation and the role the ghetto actually played in the Final Solution **The Jewish Leaderships in Slovakia and**

Hungary During the Holocaust Era Ruth Landau,2023-04-26 This book challenges the established narratives surrounding the Holocaust The focus of this book is the comparative study of the history of two Jewish communities in Central Europe Slovakia and Hungary during the Holocaust The study reveals that although the Jews of Slovakia and Hungary expected to receive reliable information from their leaders regarding how to behave in view of the Nazis decrees they were deported to the extermination camps without knowing where the journey would take them In the spring of 1944 the Jewish leaders in both countries were fully informed about Auschwitz Birkenau Yet they kept silent in order not to create panic and did not warn the Jewish people of the impending disaster Estimates suggest that 83% of Slovakia's Jews and 65% of Hungary's Jews perished in the Holocaust Almost all the Jewish leaders in these two countries survived the Holocaust The study further shows that although one of the leaders Dr Rudolf Kasztner saved 1 684 Jews on the Kasztner Train not only did he not share the information in his possession regarding the final destination of the deportees to Auschwitz but he also disseminated false information in Cluj the town where he was born His desire to help German Nazi war criminals by giving them favorable character evidence at the Nuremberg trials remains a mystery to this day **Genocidal Conscription** Christopher

Harrison,2023-07-03 Genocidal Conscription examines how some states have employed mandatory military service as a tool to capture and kill the victims of genocide by recruiting the perpetrators from other minorities and shifting blame away from

the state The book highlights several unique intersections that connect military history Holocaust studies and genocide The study details an original framework that encompasses intentions and outcomes of wartime casualties Clausewitzian wastage and genocidal massacres Christopher Harrison traces and compares how two genocidal regimes at war the Ottoman Empire during World War One and Axis era Hungary in World War Two implemented certain policies of military service to capture and destroy their targets amidst the carnage of modern warfare Following this historical comparative study the author then summarizes relevant implications and ongoing concerns The conclusion includes insights into conscription by contemporary authoritarian regimes By examining these histories and crises the book suggests that several states are at risk of carrying out genocidal conscription today While difficult and unlikely due to political disincentives the implication of this analysis considers reforms which may prevent states from repeating similar policies and actions again 1999 Susan Sarah Cohen,2013-02-18 No detailed description available for 1999

The Politics of Retribution in Europe István Deák,Jan T. Gross,Tony Judt,2009-11-06 The presentation of Europe s immediate historical past has quite dramatically changed Conventional depictions of occupation and collaboration in World War II of wartime resistance and post war renewal provided the familiar backdrop against which the chronicle of post war Europe has mostly been told Within these often ritualistic presentations it was possible to conceal the fact that not only were the majority of people in Hitler s Europe not resistance fighters but millions actively co operated with and many millions more rather easily accommodated to Nazi rule Moreover after the war those who judged former collaborators were sometimes themselves former collaborators Many people became innocent victims of retribution while others among them notorious war criminals escaped punishment Nonetheless the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent In inspiring essays a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war s aftermath how to punish the guilty how to decide who was guilty of what how to convert often unspeakable and conflicted war experiences and memories into serviceable even uplifting accounts of national history In short these scholars explore how the drama of the immediate past was and was not successfully overcome Through their comparative and transnational emphasis they also illuminate the division between eastern and western Europe locating its origins both in the war and in post war domestic and international affairs Here as in their discussion of collaborators trials the authors lay bare the roots of the many unresolved and painful memories clouding present day Europe Contributors are Brad Abrams Martin Conway Sarah Farmer Luc Huyse Lszl Karsai Mark Mazower and Peter Romijn as well as the editors Taken separately their essays are significant contributions to the contemporary history of several European countries Taken together they represent an original and pathbreaking

account of a formative moment in the shaping of Europe at the dawn of a new millennium **Austria - Hungary - Poland - Russia** Herbert A. Strauss, 2011-09-06 No detailed description available for Austria Hungary Poland Russia **The Bombing of Auschwitz** Michael J. Neufeld, Michael Berenbaum, 2003 Could the Allies have prevented the deaths of tens of thousands of Holocaust victims Inspired by a conference held to mark the opening of the US Holocaust Memorial Museum this book brings together the key contributions to this debate **Hungary's Crisis of Democracy** Peter Wilkin, 2016-08-26 This book examines the crisis of democracy that has arisen in Hungary since the election of the Fidesz government in 2010 After moving swiftly to transform the Hungarian constitution Fidesz created a new political system which has led its critics to argue that the era of democracy in Hungary is over US Senator John McCain has gone so far as to describe Hungary as an illiberal democracy on a path toward fascism The author argues that Fidesz has sought to challenge the capitalist and democratic transformation that shaped Hungary for 20 years after the fall of communism by increasing the power of the state over crucial aspects of the economy society and the political system In so doing Fidesz actions resemble those undertaken by many authoritarian states that have emerged since the end of the Second World War all aiming to build up a national capitalism and protect their economies whilst undertaking nation building To make sense of this the author draws upon two traditions of thought world systems analysis which situates Hungary in the context of its incorporation in the modern capitalist world system after the fall of communism and anarchist social thought which provides a unique way of seeing the actions of states and political elites In so doing the book argues that the events unfolding in Hungary cannot be explained on the basis of Hungarian exceptionalism but must be situated in the broader political and economic context that has shaped the development of Hungary since 1990 The form of capitalism introduced in Hungary and across the region of East and Central Europe has systematically undermined the strong state and social security that had existed under communism and when added to the failure of the left and liberals in the region it has paved the way for far right and neo fascist political movements to emerge claiming the mantle of defenders of society from the market This represents a fundamental threat to the enlightenment traditions that have shaped dominant modern political ideologies and raises profound problems for both the EU and NATO **FDR and the Jews** Richard Breitman, Allan J. Lichtman, 2013-03-19 A contentious debate lingers over whether Franklin Delano Roosevelt turned his back on the Jews of Hitler's Europe FDR and the Jews reveals a concerned leader whose efforts on behalf of Jews were far greater than those of any other world figure but whose moral leadership was tempered by the political realities of depression and war **No Jews Live Here** John Lorinc, 2024-11-12 A stolen sign No Jews Live Here kept John Lorinc's Hungarian Jewish family alive during the Holocaust From pre war Budapest to post war Toronto journalist John Lorinc unspools four generations of his Hungarian Jewish family's journey through the Holocaust the 1956 Revolution and finally exodus from a country that can't rid itself of its antisemitic demons This braided saga centers on the writer's eccentric and defiant grandmother a consummate survivor who with her love of flashy jewelry and her vicious

tongue was best appreciated from afar Lorinc also traces the stories of both his grandfathers and his father all of whom fell victim in different ways to the Nazis genocidal campaign to rid Europe of Jews This is a deeply reported but profoundly human telling of a vile part of history told through Lorinc s distinctively astute and compassionate consideration of how cities and cultures work Set against the complicated and poorly understood background of Hungary s Jewish community No Jews Live Here is about family stories and how the narratives of our lives are shaped by our times and historical forces over which we have no control John Lorinc weaves Hungarian history with the equally fascinating history of his own family to tell a deeply researched story with universal resonance how events enormous and seemingly tiny a genocidal war foggy skies conspire to create outcomes with life and death implications through generations Marsha Lederman author of Kiss the Red Stairs The Holocaust Once Removed Hitler's Bureaucrats Yaacov Lozowick,2010-07-15 For many the name of Adolf Eichmann is synonymous with the Nazi murder of six million Jews As a perpetrator of the Final Solution he stands alongside Adolf Hitler and Heinrich Himmler as one of history s most notorious murderers yet ever since Hannah Arendt s seminal book Eichmann in Jerusalem A Report on the Banality of Evil there has been disagreement about the essence of Eichmann and by extension about the definition of evil action Was he a human monster or a petty bureaucrat To what degree did the totalitarian organization to which he belonged absolve him and his staff from individual choice and responsibility for atrocities This title looks at the words and actions of Eichmann and the bureaucrats he worked with in Berlin and throughout the more significant Gestapo offices in Western Europe It claims that Hannah Arendt s thesis about the banality of evil was wrong In chilling detail it presents a group of people completely aware of what they were doing people with high ideological motivation people of initiative and dexterity who contributed far beyond what was necessary While most of these bureaucrats sat behind desks rather than behind machine guns there was nothing banal about the role they played in the destruction of European Jewry **Right-Wing Politics and the Rise of Antisemitism in Europe 1935-1941** Frank Bajohr,Dieter Pohl,2019-01-02 A New Forum for International Holocaust Research European Holocaust Studies EHS publishes key international research results on the murder of the European Jews and its wider contexts This new English language yearbook primarily aims to bring together and provide higher visibility to research contributions produced across different countries and institutions It also strives to promote international exchange especially among scholars from North America Europe and Israel The EHS issues are thematic Each issue features a selection of peer reviewed research articles which offer novel perspectives on the main theme Further sections include a discussion of key documents and a selection of research project descriptions related to the overall topic as well as a literature review or essay dealing with historiographical debates on the subject Antisemitism Richard S. Levy,Dean Phillip Bell,William Collins Donahue,Kevin Madigan,Jonathan Morse,Amy Hill Shevitz,Norman A. Stillman,2005-05-24 Written by top scholars in an accessible manner this unique encyclopedia offers worldwide coverage of the origins forms practitioners and effects of antisemitism leading to the

Holocaust and surviving to the present day The word antisemite was first used to describe a politically motivated enemy of the Jews in 1879 The subject of antisemitism has often been focused on the Holocaust however current events and history have much to add to this discussion For example in 1995 a Japanese pseudo Buddhist religious cult imagining itself to be under attack by Jews released sarin gas on the Tokyo subway killing 12 From 1881 to 1900 there were 128 public accusations of Jewish ritual murder allegedly involving the killing of Christian children to use their blood for religious purposes Entries in this encyclopedia span the period from ancient Egypt to the modern era Key theoreticians of Jew hatred and their written works its permeation of Christianity and modern Islam and its political artistic and economic manifestations are covered This is the first comprehensive work that deals with the entire history of ideas and practices that engendered the Holocaust
