Reading Sappho Ellen Greene, 2023-07-28 Reading Sappho considers Sappho's poetry as a powerful influential voice in the Western cultural tradition. Essays are divided into four sections: Language and Literary Context, Homer and Oral Tradition, Ritual and Social Context, and Women's Erotics. Contributors focus on literary history, mythic traditions, cultural studies, performance studies, recent work in feminist theory, and more. A legendary literary figure, Sappho has attracted readers, critics, and biographers ever since she composed poems on the island of Lesbos at the close of the seventh century B.C. Bringing together some of the best recent criticism on the subject, this volume together with *Re-Reading Sappho* represents the first anthology of Sappho scholarship drawing attention to Sappho's importance as a poet and reflecting the diversity of critical approaches in classical and literary scholarship during the last several decades. Reading Sappho considers Sappho's poetry as a powerful influential voice in the Western cultural tradition. Essays are divided into four sections: Language and Literary Context, Homer and Oral Tradition, Ritual and Social Context, and Women. [The Cambridge Companion to Sappho](#) P. J. Finglass, Adrian Kelly, 2021-04-29 A detailed up-to-date survey of the most important woman writer from Greco-Roman antiquity. Examines the nature and context of her poetic achievement, the transmission, loss, and rediscovery of her poetry, and the reception of that poetry in cultures far removed from ancient Greece, including Latin America, India, China, and Japan.

The Routledge Handbook of Classics and Cognitive Theory Peter Meineck, William Michael Short, Jennifer Devereaux, 2018-11-21 The Routledge Handbook of Classics and Cognitive Theory is an interdisciplinary volume that examines the application of cognitive theory to the study of the classical world across several interrelated areas, including linguistics, literary theory, social practices, performance, artificial intelligence, and archaeology. With contributions from a diverse group of international scholars working in this exciting new area, the volume explores the processes of the mind, drawing from research in psychology, philosophy, neuroscience, and anthropology, and interrogates the implications of these new approaches for the study of the ancient world. Topics covered in this wide-ranging collection include cognitive linguistics applied to Homeric and early Greek texts, Roman cultural semantics, linguistic embodiment in Latin literature, group identities in Greek lyric, cognitive dissonance in historiography, kinesthetic empathy in Sappho, artificial intelligence in Hesiod and Greek drama, the enactivism of Roman statues and memory, and art in the Roman Empire. This ground-breaking work is the first to organize the field, allowing both scholars and students access to the methodologies, bibliographies, and techniques of the cognitive sciences and how they have been applied to classics. [Developments in the Histories of Sexualities](#) Chris Mounsey, 2013-04-11 *Developments in the Histories of Sexualities* In Search of the Normal 1600-1800 explores the oppositions created by the official exclusion of banned sexual practices and the resistance to that exclusion through widespread acceptance of those outlawed practices at an interpersonal level. At different times and in different places, state legislation sets up or tries to set up a normal by rejecting a particular practice or group of practices. Yet this normal is derogated by popular

practice since the banned acts themselves are thought at the grassroots level to be normal Among the events discussed in these essays are the Woods Pirie trial the Ladies of Llangollen the popular acceptance of fops and mollies and the press reaction to the discovery that James Allen was a woman who had lived successfully as a man and Lavinia Edwards was a man who had made her living as a female prostitute Developments in the History of Sexualities analyzes both the state language of bans and fiat about sexuality and the grassroots language which marks the acceptance of multiplicity in sexual practice Contributors benefit from the accumulation of new evidence of attitudes towards sexual practice and they engage with a wide range of texts including Ned Ward's History of the Clubs Tobias Smollett's Roderick Random Shakespeare's Taming of the Shrew and The Tempest Dryden's All for Love Anne Batten Cristall's Poetical Sketches Isaac de Benserade's Iphis et Iante and Alessandro Verri's Le Avventure di Saffo

Woman's Songs in Ancient Greece Anne Lingard Klinck, 2008 The author shows that understanding of femininity in ancient Greece can be expanded by going beyond poetry composed by women poets like Sappho to explore girls and women's choral songs from the archaic period songs for female choruses and characters in tragedy and lyrical representations of women's rituals and cults The book discusses poetry as performance relevant kinds and genres of poetry the definition and scope of woman's song as a mode

partheneia maidens songs and the girls chorus lyric in the drama echoes and imitations of archaic woman s song in Hellenistic poetry and inferences about the differences between male and female authors It demonstrates that woman s song is ultimately best understood as the product of a male dominated culture but that feminine stereotypes while refined by male poets are interrogated and shifted by female poets The book traces the evolution of female voice lyric from 600 to 100 BCE and includes Alcman Sappho Corinna Pindar other lyric poets lyric in the drama and the Hellenistic poets Nossis Theocritus and Bion

Pandora's Senses Vered Lev Kenaan, 2008-02-05 The notorious image of Pandora haunts mythology a woman created as punishment for the crimes of man she is the bearer of hope yet also responsible for the earth s desolation She binds together perpetuating dichotomies that underlie the most fundamental aspects of the Western canon beauty and evil body and soul depth and superficiality truth and lie Speaking in multiplicity Pandora emerges as the first sign of female complexity In this compelling study Vered Lev Kenaan offers a radical revision of the Greek myth of the first woman She argues that Pandora leaves a decisive mark on ancient poetics and shows that we can unravel the profound impact of Pandora s image once we recognize that Pandora embodies the very idea of the ancient literary text Locating the myth of the first woman right at the heart of feminist interrogation of gender and textuality Pandora s Senses moves beyond a feminist critique of masculine hegemony and shows the centrality of this iconic figure among the poetics of such central genres as the cosmological and didactic epic the Platonic dialogue the love elegy and the ancient novel Pandora s Senses innovates our understanding of gender as a critical lens through which to view ancient literature

Historical and Religious Memory in the Ancient World Beate Dignas, R. R. Smith, 2012-03-15 Historical and Religious Memory in the Ancient World examines how religious and historical memory was fashioned distorted preserved or erased in ancient societies and what wide ranging effects these actions had on the historical process The volume is interested in how memory intersects with and shapes religious traditions and cultural identities Its twelve case studies explore different aspects of the memory layers that make up ancient history social religious cultural and looks at how these layers are represented and refracted in different contexts of the written and material remains of antiquity The process has its beginnings in the dim pasts of ancient communities and continues in the later Greek and Roman periods where our most articulate ancient evidence lies It is a process that continues in a different way in contemporary scholarship which draws on selected evidence and a variety of contrasting representations The three parts of the book vary the lens through which the impact of religious and cultural memory can be grasped Part I looks at the commemoration of religious tradition in the context of cultural interaction Greek Roman Jewish and Christian Part II focuses on how religious identities are defined and how homogenous looking cultures engage in elaborate selective dialogue with their own past In Part III contested versions of the past are interpreted in studies of Roman historiography and of religiously motivated behaviour in late antique Asia Minor This interdisciplinary book highlights and celebrates the work of Simon Price an important thinker and pioneer in this kind of wider historical research

Duban, 2019-04-12 Sappho in the words of poet Algernon Charles Swinburne 1837 1909

was simply nothing less as she is certainly nothing more than the greatest poet who ever was at all Born over 2 600 years ago on the Greek island of Lesbos Sappho the namesake lesbian wrote amorously of men and women alike exhibiting both masculine and feminine tendencies in her poetry and life What s left of her writing and what we know of her is fragmentary and thus ever subject to speculation and study The Shipwreck Sea highlights the love poetry of the soulful Sappho the impassioned Ibycus and the playful Anacreon among other Greek lyric poets of the age 7th to 5th centuries BC with verse translations into English by author Jeffrey Duban The book also features selected Latin poets who wrote on erotic themes Catullus Lucretius Horace and Petronius and poems by Charles Baudelaire with his milestone rejoinder to lesbian love Lesbos and in the same stanzaic meter a turn to the consoling power of memory in love s more frequently tormented recall Le Balcon Duban also translates selected Carmina Burana of Carl Orff the poems frequently Anacreontic in spirit The book s essays include a comprehensive analysis with a new translation of Horace s famed Odes 1 5 To Pyrrha in which the theme of love s shipwreck predominates and an opening treatise length argument exploring painting sculpture literature and other Western art forms on the irrelevance of gender to artistic creation No Homer was not a woman and it would make no difference if she were Twenty full color artwork reproductions masterpieces in their own right illustrate and bring Duban s argument to life Finally Duban presents a selection of his own love poems imitations and pastiches written over a lifetime these composed in the classical mode which is the leitmotif of this volume The Shipwreck Sea is a delightful and continually thought provoking companion to The Lesbian Lyre both books vividly demonstrating that classicism yet thrives in our time despite the modernism marshaled against it

Motherless Daughters and Female Monsters Jessica Elbert Decker,2024-12-28 This book is a feminist analysis of Greek myth and tragedy that reimagines the structures of Freudian theory The objective of this analysis is political by revealing the structures that undergird patriarchal oppression feminist thinkers can work to transform these symbolic constellations through the work of sabotage parody and imagination Jessica Elbert Decker attempts here to read Freudian theory through a wider lens of Ancient Greek culture since our contemporary philosophical and social culture has inherited many of its symbolic structures e g patriarchy binary thinking The major argument of the book is that our Western philosophical social and symbolic systems are as they were in the Ancient Greek world suffused with a set of values that reflect one version of masculinity and androcentrism and that those values are destructive to human beings as well as the non human world including other beings

Shakeshaft,2025-03-25 How ideas and experiences of beauty informed human relationships with the divine in ancient Greece Beginning with the earliest Greek literature the epics of Homer and Hesiod beauty was seen as having a special connection with the divine The gods of ancient Greece were defined by their exceptional beauty even today to look like a Greek god is proverbial for human beauty In *Beauty and the Gods* Hugo Shakeshaft explores the relationship between the beautiful and divine in ancient Greece principally in the Archaic period ca 750 480 BCE Analysing evidence that ranges from poetry art and philosophical texts to architecture and the natural landscape Shakeshaft shows how ideas and experiences of beauty shaped Greek relations with the divine With a powerful call for the place of beauty and aesthetics in the writing of history Shakeshaft uncovers the cultural dialogue between beauty and the gods in a variety of contexts in the Archaic Greek world in forms of divine worship in poetry music and dance in attitudes to the natural environment and in architecture and art This early chapter of Greek history he argues holds an unrecognised key to understanding some long running threads in the histories of religion art and aesthetics from Plato s aesthetic theories to beauty s status in contemporary discourse Beauty s deep past and divine connection in ancient Greece can help us see beauty now in sharper focus
