Resignation Or Revolt Sociopolitical Development And The Challenges Of Peace In Palestine:

Violence, Nonviolence, and the Palestinian National Movement Wendy Pearlman, 2011-10-24 Why do some national movements use violent protest and others nonviolent protest Wendy Pearlman shows that much of the answer lies inside movements themselves Nonviolent protest requires coordination and restraint which only a cohesive movement can provide When by contrast a movement is fragmented factional competition generates new incentives for violence and authority structures are too weak to constrain escalation Pearlman reveals these patterns across one hundred years in the Palestinian national movement with comparisons to South Africa and Northern Ireland To those who ask why there is no Palestinian Gandhi Pearlman demonstrates that nonviolence is not simply a matter of leadership Nor is violence attributable only to religion emotions or stark instrumentality Instead a movement's organizational structure mediates the strategies that it employs By taking readers on a journey from civil disobedience to suicide bombings this book offers fresh insight into the dynamics of conflict and mobilization

International Assistance to the Palestinians after Oslo Anne Le More, 2008-03-31 Why has the West disbursed vertiginous sums of money to the Palestinians after Oslo What have been donors motivations and above all the political consequences of the funds spent Based on original academic research and first hand evidence this book examines the interface between diplomacy and international assistance during the Oslo years and the intifada By exploring

the politics of international aid to the Palestinians between the creation of the Palestinian Authority and the death of President Arafat 1994 2004 Anne Le More reveals the reasons why foreign aid was not more beneficial uncovering a context where funds from the international community was poured into the occupied Palestinian territory as a substitute for its lack of real diplomatic engagement This book also highlights the perverse effects such huge amounts of money has had on the Palestinian population and territory on Israeli policies in the occupied Palestinian territory and not least on the conflict itself particularly the prospect of its resolution along a two state paradigm International Assistance to the Palestinians after Oslo gives a unique narrative chronology that makes this complex story easy to understand These features make this book a classic read for both scholars and practitioners with lessons to be learned beyond the Israeli Palestinian conflict

Water, Power and Politics in the Middle East Jan Selby, 2003-10-24 This original analysis of the

Middle East water problems highlights questions and issues which have so far only received minimal attention The author develops a multi layered account of the nature and causes of the conflict and the Palestinian water crisis Each chapter addresses a particular aspect of the Israeli Palestine water conflict and the author uses these to illustrate both the broader nature of Israeli Palestinian relations and factors that the existing water literature underplays or simply gets wrong The book should interest students scholars and practitioners in a wide range of disciplines including Middle East studies politics and international relations water policy geography environmental studies and environmental management The Peace Business Markus Bouillon,2004-02-26 Markus Bouillon s book makes an important and original contribution to the literature on the Middle East peace process It is based on extensive and imaginative research and it is packed with new and fascinating material Bouillon places the behaviour of the elites under an uncompromising lens His work serves as a useful corrective to the conventional wisdom by highlighting the negative effects of the peace process for all but the elites in Israel Jordan and the Palestinian territories Avi Shlaim Oxford University The first full length authoritative account of the various dimensions of business in the context of Arab Israeli peace an empirically dense and nuanced analysis James Piscatori Oxford University

The Path to Mass Rebellion Ruth Margolies Beitler,2004-01-01 The Path to Mass Rebellion An Analysis of Two Intifadas should be read by policy makers international relations and conflict resolution scholars Middle East Studies scholars political scientists and anyone else interested in better understanding the current violence surrounding the creation of a Palestinian state and security issues this creates for Israel **Impossible Peace** Mark Levine,2013-04-04 In 1993 luminaries from around the world signed the Oslo Accords a pledge to achieve lasting peace in the Holy Land on the lawn of the White House Yet things didn t turn out quite as planned With over 1 000 Israelis and close to four times that number of Palestinians killed since 2000 the Oslo process is now considered history Impossible Peace provides one of the first comprehensive analyses of that history Mark LeVine argues that Oslo was never going to bring peace or justice to Palestinians or Israelis He claims that the accords collapsed not because of a failure to live up to the agreements but precisely because of the terms of and ideologies underlying the agreements Today more than ever before it s crucial to understand why these failures happened and how they will impact on future negotiations towards the final status agreement This fresh and honest account of the peace process in the Middle East shows how by learning from history it may be possible to avoid the errors that have long doomed peace in the region Palestinian Women's Activism Islah Jad,2018-12-26 Jad traces the transformation of the

Palestinian women s movement from the 1930s to the post Oslo period and through the Second Intifada to examine the often fraught relationship between women and nationalism in Palestine Offering one of the first intensive studies of Islamist women s activism Jad also explores the impact of emerging feminist NGOs in depoliticizing the secular Palestinian women s movement Studying these two developments together illuminates the nature of women s engagement in the Palestinian space challenging myths of gender roles immutability under Islam and the supposed modernizing benefits of Western style activism

Late Modern Palestine Laura Junka-Aikio, 2015-10-14 Late Modern Palestine looks at the ways in which the relationship between the subject and representation and the political problematic of postcolonial late modernity is articulated in the context of the Palestinians struggle for liberation Junko Aikio provides a rich theoretically and empirically and in part also visually grounded study of the complex ways in which ordinary Palestinians face negotiate and resist multiple regimes of power and desire in the context of everyday life in the West Bank and Gaza The volume examines the early years of the second Palestinian uprising an intifada whose political status remains highly disputed The book examines the ways in which Palestinian politics during the second intifada has been entangled with the broader social and political changes that are associated with postcolonial late modernity It is argued that the dislocation between modern colonial and late modern postcolonial regimes of power and subjectivity greatly complicates the map of power and resistance in contemporary Palestine and also renders articulation of national unity and hegemonic political strategy increasingly unlikely This work will be of great interest to students and scholars of Middle East Studies Postcolonial Studies International Relations Political Sociology Critical Security Studies and Political Theory Mapping Israel, Mapping Palestine Jess Bier, 2017-06-30 Digital practices in social and political landscapes Why two researchers can look at the same feature and see different things Maps are widely believed to be objective and data rich computer made maps are iconic examples of digital knowledge It is often claimed that digital maps and rational boundaries can solve political conflict But in Mapping Israel Mapping Palestine Jess Bier challenges the view that digital maps are universal and value free She examines the ways that maps are made in Palestine and Israel to show how social and political landscapes shape the practice of science and technology How can two scientific cartographers look at the same geographic feature and see fundamentally different things In part Bier argues because knowledge about the Israeli military occupation is shaped by the occupation itself Ongoing injustices including checkpoints roadblocks and summary arrests mean that Palestinian and Israeli cartographers have different experiences of the landscape Palestinian forms of empirical knowledge including maps continue to be discounted Bier examines three representative cases of population governance and urban maps She analyzes Israeli population maps from 1967 to 1995 when Palestinian areas were left blank Palestinian state maps of the late 1990s and early 2000s which were influenced by Israeli raids on Palestinian offices and the legacy of British colonial maps and urban maps after the Second Intifada which show how segregated observers produce dramatically different maps of the same area The geographic production of knowledge including what and who are considered scientifically legitimate can change across space and time Bier argues that greater attention to these changes and to related issues of power will open up more heterogeneous ways of engaging with the world **Global Babel** Samir Dayal, Margueritte Murphy, 2021-02-10 Globalization as we know it today would be unimaginable without the revolution in information and communication technologies of the last thirty years Yet have we achieved one world as the promotional hype for cellular and digital networks would have it This collection of essays Global

Babel Questions of Discourse and Communication in a Time of Globalization explores the current state of communication and discourse in a globalized environment The essays are united by an awareness that whether understood technologically economically epistemologically or culturally globalization is a discursive field with discrepant assumptions categories and conclusions As such globalization is double edged and complex It can certainly enable the exploitation of the powerless by the powerful in different contexts or at different moments it can also facilitate individual and collective agency It is this doubleness this complexity that this collection seeks to bring into focus This volume offers an interdisciplinary forum where technological aesthetic and ethical issues relating to globalization inhabit the same conceptual frame Together the essays address the central issue of how the new knowledges of globalization are being articulated and explore the cultural consequences and success of such communication and knowledge exchange *Citizenship and the State in the Middle East* Nils A. Butenschon,Uri Davis,Manuel Hassassian,2000-05-01 As a response to processes of globalization regional integration and ethnic conflicts the study of citizenship has regained new interest among social scientists and legal experts This approach focuses on the relationship between the state and the people as individuals and collectivities citizens and non citizens both those living within or outside its borders Citizenship defines the terms of rights and obligations in a society regulates political participation and access to public goods and properties Together with its companion volume Gender and Citizenship in the Middle East this book represents the first systematic critical attempt to interpret the complex nature of Middle East politics from a citizenship perspective In addition the book provides both theoretical contributions and case studies and includes a significant section on Israel and Palestine **Occupied by Memory** John Collins,2004-12 Occupied by Memory explores the memories of the first Palestinian intifada Based on extensive interviews with members of the intifada generation those who were between 10 and 18 years old when the intifada began in 1987 the book provides a detailed look at the intifada memories of ordinary Palestinians These personal stories are presented as part of a complex and politically charged discursive field through which young Palestinians are invested with meaning by scholars politicians journalists and other observers What emerges from their memories is a sense of a generation caught between a past that is simultaneously traumatic empowering and exciting and a future that is perpetually uncertain In this sense Collins argues that understanding the stories and the struggles of the intifada generation is a key to understanding the ongoing state of emergency for the Palestinian people The book will be of interest not only to scholars of the Middle East but also to those interested in nationalism discourse analysis social movements and oral history *Security and Environment in the Mediterranean* Hans Günter Brauch,Peter H. Liotta,Antonio Marquina,Paul F. Rogers,Mohammad El-Sayed Selim,2012-12-06 In this volume security specialists peace researchers environmental scholars demographers as well as climate desertification water food and urbanisation specialists from the Middle East and North Africa Europe and North America review security and conflict prevention in the Mediterranean They also analyse NATO s Mediterranean security dialogue and offer conceptualisations on

security and perceptions of security challenges as seen in North and South The latter half of the book analyses environmental security and conflicts in the Mediterranean and environmental consequences of World War II the Gulf War the Balkan wars and the Middle East conflict It also examines factors of global environmental change population growth climate change desertification water scarcity food and urbanisation issues as well as natural disasters Furthermore it draws conceptual conclusions for a fourth phase of research on human and environmental security and peace as well as policy conclusions for cooperation and partnership in the Mediterranean in the 21st century

De Facto States Tozun Bahcheli, Barry Bartmann, Henry Srebrnik, 2004-09-09 In this new century the relentless appeal of national self determination has moved beyond decolonisation A large group of de facto states would be sovereignties now seek international recognition In some cases these nations in waiting have already established the exclusivity of their writ on the ground and wait only for the outside world to come to terms with the realities of their existence In others there are powerful external players who could undermine their claims on one hand or ensure their success on the other The cases described in this book are to be found throughout the world Abkhazia and Chechnya in the Caucasus Kosovo Montenegro Republika Srpska and Transnistria in eastern Europe Palestine and the Turkish Republic of Northern Cyprus in the Middle East Somaliland in Africa and Bougainville in the Pacific Are these isolated voices or a harbinger of things to come Their demands for separate statehood have breached the orthodoxies of territorial integrity and eroded the taboos of secession Other large states such as Indonesia Nigeria and the Sudan also teeter on the brink of disintegration

Tapestry of Terror Richard J. Chasdi, 2002-01-01 The recent terrorist outrages perpetrated against the United States demonstrate the need for a new and rigorous study of modern terrorism In *Tapestry of Terror* Richard J Chasdi offers fresh insight into the complexities of state sponsored and nonstate terrorism Building on the research methods and findings discussed in his previous work *Serenade of Suffering* which covers Middle East terrorism in the period 1968 to 1993 Chasdi presents a detailed statistical and quantitative analysis of four Middle East terrorist systems in Algeria Turkey Egypt and Israel He pinpoints the socioeconomic conditions that breed and sustain terrorism the political factors that ignite terrorist attacks and those individuals or groups most frequently targeted by terrorists *Tapestry of Terror* charts the increasing frequency and intensity of intrastate terrorism in the 1990s the growing threat posed to Western nations by international terrorism and the counter terrorist stratagems and policy decisions needed now more than ever to defend against highly coordinated immensely destructive assaults
