**Resisting Injustice and the Feminist Ethics of Care in the Age of Obama** David A.J. Richards, 2014-02-05 David A J Richards's *Resisting Injustice and The Feminist Ethics of Care in The Age of Obama* Suddenly All The Truth Was Coming Out builds on his and Carol Gilligan's *The Deepening Darkness* to examine the roots of the resistance movements of the 1960s the political psychology behind contemporary conservatism and President Obama's present day appeal as well as the reasons for the reactionary politics against him Richards begins by laying out the basics of the ethics of care and proposing an alternative basis for ethics relationality which is based in convergent findings in infant research neuroscience and evolutionary psychology He critically analyzes patriarchal politics and states that they are rooted in a reactionary psychology that attacks human relationality and ethics From there the book examines the 1960s resistance movements and argues that they were fundamentally oriented around challenging patriarchy Richards asserts that the reactionary politics in America from the 1960s to the present are in service of an American patriarchy threatened by the resistance movements ranging from the 1960s civil rights movements to the present gay rights movement Reactionary politics intend to marginalize and even reverse the ethical achievements accomplished by resistance movements creating in effect a system of patriarchy hiding in democracy Richards consequently argues that Obama's appeal is connected to his challenge to this system of patriarchy and will examine both Obama's appeal and the reactions against him in light of the 2012 presidential election This book positions recent American political development in a broad analysis of the role of patriarchy in human oppression throughout history and argues that a feminist based ethics of care is necessary to form a more humane and inclusive democratic politics

issues      **An Ethics of Resistance** Daniel Christopher Williamson,1996      **The Right to Resist** Mario Wenning,Thomas Byrne,2023-01-12 While the idea of total revolution seems anachronistic today there is increasing consensus about the importance of new forms of political ethical and aesthetic resistance In the past resistance was often motivated as a form of protest against specific institutions Increasingly dissent has become integrated into the fabric of modern life This volume addresses new forms of resistance at a level that combines a rootedness in the philosophical tradition and a sensitivity to rethinking the possibility of emancipation in today s age The work focuses on contemporary social and political philosophy from a perspective informed by critical theory The text specifically addresses three challenges 1 Critical theorists need to investigate in which ways resistance conformism and oppression oppose and constitute each other 2 The relationship between the theory and the practice of resistance needs to be posed anew given recent protest movements and media of protest 3 It needs to be shown in which ways different areas of society such as the arts religion and social media establish divergent practices of resistance The chapters are written by scholars from Asia Europe and North America These experts in resistance discourse focus on practices of dissent ranging from traditional forms of civil disobedience to more recent practices such as guerrilla protest art and resistance in digital networks including social media What unites them is a shared concern for the dimensions of political acts of resistance in an age that is characterized by a tendency to integrate and thereby neutralize those very acts      **Resisting Under Occupation. theme of the standpoint of world history and Japan may now be judged to form the key source text of responsible Pacific War revisionism Published in the pages of Chuo Koron the influential magazine of enlightened elite Japanese opinion during the twelve months after Pearl Harbor these subversive discussions involved four of the finest minds of the second generation of the Kyoto School of philosophy Tainted by controversy and shrouded in conspiratorial mystery these transcripts were never republished in Japan after the war and they have never been translated into English except in selective and often highly biased form David Williams has now produced the first objective balanced and close interpretative reading of these three discussions in their entirety since 1943 This version of the wartime Kyoto School transcripts is neither a translation nor a paraphrase but a fuller rendering in reader friendly English that is convincingly faithful to the spirit of the original texts The result is a masterpiece of interpretation and inter cultural understanding between the Confucian East and the liberal West Seventy years after Tojo came to power these documents of the Japanese resistance to his wartime government and policies exercise a unique claim on students of Japanese history and thought today because of their unrivalled revelatory potential within the vast literature on the Pacific War The Philosophy of Japanese Wartime Resistance may therefore stand as the most trenchant analysis of the political philosophic and legal foundations of the place of the Pacific War in modern Japanese history yet to appear in any language
