Resolving Childhood Trauma Catherine Cameron,2000-02-17 Based on a 12 year study with 60 survivors of child sexual abuse Catherine Cameron sets out to understand their early trauma and its impact over subsequent years and to monitor their progress toward recovery The difficult but rewarding process of their recovery unfolded over time along with increasing societal awareness of the problem In 1998 a final survey provided the epilogue for their story Cameron grounds their personal stories by citing parallels to the larger field of national and international trauma The result is a compelling and deeply human story of trauma and triumph

Childhood Sexual Experiences Sally Hunter,Paul Woodmansey,2018-04-19 The issue of Childhood Sexual Experiences CSEs is highly controversial and has generated considerable disagreement and conflict Such experiences are often framed as child sexual abuse CSA within a discourse of child maltreatment Sexual activity between adults and young children is indeed abuse and fully merits the moral stance taken by therapists health professionals and society However Childhood Sexual Experiences presents evidence that viewing all CSEs through the same prism of abuse victimhood and commonly held perceptions of gender socialisation may not always allow those affected to tell the whole story Not all those who experienced sexual activity as children view themselves as victims believe that their experiences had a profoundly or irrevocably negative impact on their lives or view their experiences as abusive Others do not want their identities to be linked to specific events in childhood Applying a positive psychology approach Childhood Sexual Experiences recounts and explores the stories of those who have shown an ability to come to terms with or overcome the difficulties that they have faced exploring the insights these narratives of resilience present to therapists and health and social care professionals I would encourage you to read this book with an open mind and to look for the strength and determination to be found in these narratives remembering that those who are resilient may teach us how better to help those who are less fortunate Sally V

ways of talking about God's grace by unearthing liberating resources buried in the Christian tradition. Christian ideas about salvation have historically contributed to sexual violence in our communities by reinforcing the idea that suffering is salvific. But a God worth worshipping does not want human beings to suffer. Drawing on the sixteenth-century Spanish mystic Teresa of Avila as well as contemporary political and feminist theologians, philosophers, and legal scholars, author and Associate Professor of theology Julia Feder offers an account of Christian salvation as mystical political. Feder begins by describing the breadth of traumatic wounding and the shape of traumatic recovery as articulated by psychologists. Since the fullness of post-traumatic healing requires reserves deeper than those which can be articulated by the secular field of psychology alone, the book then introduces the Spanish Carmelite Saint Teresa of Avila and her theological insights which are most helpful for constructing a post-traumatic theology of healing. Arguing that God stands against violence and suffering, the book also examines the notion of senseless suffering, a technical term that comes from Edward Schillebeeckx, a Catholic twentieth-century Flemish priest and theologian. The suffering of sexual violence serves no higher purpose or greater human value and pushes against all ways of making sense of the world as good and orderly. In the following chapters, Feder turns to two Christian virtues that animate post-traumatic recovery: courage and hope, and explores how Christian hope can provide a language to empower courageous activity undertaken toward healing. Incarnating Grace opens a new dialogue about salvation and violence that does not allow evil to have the last word.

Mending the Soul, Second Edition Steven R. Tracy, Celestia G. Tracy, 2023-04-04. A well-researched biblical and scientific overview of abuse, its various types and effects, and how to heal from it. Abuse can be sexual, physical, neglect, spiritual, and verbal. The chief arguments pursued throughout the book are: Abuse is far more rampant than most Christians realize, but due to human depravity and satanic influence, widespread abuse is predicable. All types of abuse create profound, long-term soul damage due to the way abuse perverts various aspects of the image of God. God is the healing redeemer. Human salvation came through horrible physical abuse. Healing must take place in the context of relationships. Humans are deeply impacted by others due to being made in the image of God. Just as surely as abusive relationships have tremendous power to wound the soul, so healthy relationships have tremendous power to nurture and heal the soul. Questions answered in the book include: How can a genuine believer abuse a child? Why would someone abuse a child? How can parents and children's workers identify abusers? How can abuse victims heal? What does genuine healing look like? Is anger appropriate or hurtful for abuse victims? Where does forgiveness fit in? This second edition has been updated to reflect research conducted and published in the past 15 years on abuse and trauma. It accounts for the significant social changes and increased mental health struggles in our culture, including dramatic escalation in rates of depression, anxiety, suicide, and isolation, which exacerbate the effects of abuse and complicate the healing process. Based on their now extensive trauma care experience, this new edition helps readers how to minister to new domestic and global victims such as sex trafficking survivors, foster children, refugees, and survivors of genocide. Examples and illustrations

are updated with more recent ones from high profile abuse cases and the aftermath of the MeToo movement The appendixes include lists of helpful resources for child protection policies worker parent child abuse education warning signs of potential abusers and general abuse resources books internet sites and organizations to equip ministry leaders are provided in appendixes Illustrations case studies and art therapy drawings

God and the Victim Jennifer Erin Beste, 2007-09-28 Christian tradition holds that an individual's ability to respond to God's gracious love both God and neighbor is not wholly vulnerable to earthly contingencies such as victimization Today however trauma theory insists that situations of overwhelming violence can permanently damage a person's capacity for responsive agency For Christians this theory raises the very troubling possibility that humans can inflict ultimate harm on each other such that some individuals' eternal destiny can be determined not by themselves but by those who do great harm Offering crucial insights that lead to a more adequate understanding of the relation between God's grace and human freedom Beste's important theory reconfigures our visions of God and humanity and alters our perceptions of what it means to truly love one's neighbor
