Panzer,1989 **Metaphors, Trauma and Symptoms** Amy Qiu,2024-07-22 This book investigates how victims of a large scale traumatic event converge and diverge in metaphor use in describing their traumatic experiences By combining qualitative and quantitative methods the book identifies patterns that are shared by this group of trauma victims By juxtaposing linguistic data with psychometric data it also explores how metaphor use can vary with the speakers psychopathological symptoms While metaphorical language has been a rare focus in clinical contexts this book establishes metaphor use as a previously overlooked yet rewarding avenue for studying mental health communication *Handbook of Arab American Psychology* Mona Amer,Germine Awad,2015-11-19 The Handbook of Arab American Psychology is the first major publication to comprehensively discuss the Arab American ethnic group from a lens that is primarily psychological This edited book contains a comprehensive review of the cutting edge research related to Arab Americans and offers a critical analysis regarding the methodologies and applications of the scholarly literature It is a landmark text for both multicultural psychology as well as for Arab American scholarship Considering the post 9 11 socio political context in which Arab Americans are under ongoing scrutiny and attention as well as numerous misunderstandings and biases against this group this text is timely and essential Chapters in the Handbook of Arab American Psychology highlight the most substantial areas of psychological research with this population relevant to diverse sub disciplines including cultural social developmental counseling clinical health and community psychologies Chapters also include content that intersect with related fields such as sociology American studies cultural ethnic studies social work and public health The chapters are written by distinguished scholars who merge their expertise with a review of the empirical data in order to provide the most updated presentation of scholarship about this population The Handbook of Arab American Psychology offers a noteworthy contribution to the field of multicultural psychology and joins references on other racial ethnic minority groups including Handbook of African American Psychology Handbook of Asian American Psychology Handbook of U S Latino Psychology and The Handbook of Chicana o Psychology and Mental Health Clean Coaching Angela Dunbar,2016-10-14 Most coaches today see their role as mainly non directive helping to uncover their coachee s own wisdom However coaches may unwittingly and unconsciously constrain what their coachees talk and think about getting in the way of unique self generated solutions Clean Coaching provides a different simple yet highly effective approach to one to one facilitation It is a style strategy and set of techniques that help coachees gain insight and make changes through discovering more about their own insider perspective of themselves and the world around them Through the use of specifically phrased structured coaching questions the coach s own biased perspectives are stripped from their language ensuring the coachee s unique personal experience is honoured In Clean Coaching Angela Dunbar explains how this approach works in practical terms with descriptions of how to structure a Clean

Coaching session and the steps to take within such a session The book gives detailed descriptions of the kinds of questions to ask and provides a wealth of analogues examples and case studies to bring the descriptions alive offering a clear blueprint for action In addition the book explains where Clean Coaching has come from describing the development of Clean Language and other Clean approaches by the psychologist and psychotherapist David Grove It also tracks how Clean approaches have been adopted and adapted by other practitioners Dunbar draws on current research in the fields of developmental neurological cognitive and social psychology to demonstrate why Clean Coaching works so successfully Exploring Clean Coaching in detail and informed by both research and practice this book will be a valuable resource for coaches at all levels including executive coaches and those in training as well as managers and executives acting in a coaching capacity

Scientific

Gestalt Ray Edwards, 2012-08-15 Goldstein Koffka Khler Lewin and Wertheimer were scientists who at the turn of the 20th century founded the gestalt approach in psychology Fritz Perls 1944 recognized the potential of the gestalt approach in psychotherapy and founded what is now the widespread system of gestalt therapy Perls understanding of gestalt theory was broadened by Zinker with recognition of stages of development of each gestalt so that what is now termed the Cleveland cycle of experience was recognized Ray Edwards has proposed two innovations First it is shown that completion and grounding of the gestalt cycle of events facilitates re energization of depressed people Second attention to Gendlins felt senses aided by use of David Groves clean subset of language facilitates freeing post trauma patients from the effect of recurrent nightmares and or flash backs The relevant felt senses are termed proto figures and are usually phenomena like butterflies in the stomach lumps in the stomach or throat and or clouds are hanging over me This present book sets these innovations in full historical context and reveals the gestalt system to be scientific in character Malcolm Parlett Ph D First Editor of the British Gestalt Journal commented on an earlier version of this book This is a thought provoking read a quirky and vividly argued alternative version of gestalt therapy that challenges most of the assumptions of contemporary Gestalt psychotherapy and will send many a reader flying to a computer to type a rebuttal But Ray Edwards book is definitely worth a look at not least for its acerbic criticisms and references to our past traditions I recommend the self published manuscript by an impressive maverick octagenarian gestalt thinker with strong opinions complete with its copious spelling errors and other forgiveable self indulgences
