Resolving Drug Issues:

Advanced Issue Resolution in Safety Pharmacology Mary Jeanne Kallman, Michael Pugsley, 2018-09-05 Advanced Issue Resolution in Safety Pharmacology not only discusses unique issues that may emerge during the development of new medicines but also provides detailed insights on how to resolve them. The book employs a valuable strategy that integrates preclinical findings with the clinical resolution of those findings. In addition, it introduces key interdisciplinary topics in an accessible and systematic format. Edited and written by leaders in the field of safety pharmacology, this book considerably advances the discussion on issue resolution topics, thus raising them to the next level of importance by providing scientists with an indispensable resource on solving safety issues. Focuses on pharmacology issues that result during drug development and provides de-risking techniques and practical advice. Covers a broad selection of topics including specialized animal models, PBPK modeling, the use of high frequency EEG in problem solving, drug-induced self-injury, abuse potential, liability, biomarkers, imaging, and much more. Focuses on the resolution of these issues in order to better address regulatory expectancies and develop safer, more effective drugs.

Towards Drug Policy Justice Damon Barrett, Rick Lines, 2023-12-19 Taking the shifting global drug policy terrain as a starting point, this collection moves beyond debates about whether to reform drug policies to a focus on delivering drug policy justice, repairing the damage caused by the war on drugs as a component of reform efforts and safeguarding against future harms in legal markets. This book brings together some of the leading international thinkers and advocates on harm reduction and drug policy to introduce key questions in contemporary drug policy. Across five themes and with contributions from different regions and disciplines, it explores ethical, legal, empirical, and historical perspectives on delivering drug policy justice from supply through to use. Essays cover a wide range of issues from the effects of COVID on drug policy to securing economic and environmental justice and from human rights in Asian drug policy to questions of race and equity in cannabis reforms, providing diverse insights on both prominent and overlooked drug policy challenges. *Towards Drug Policy Justice* is a benchmark text for scholars, students, advocates, and policymakers as the book explores new models of global drug policy reform.

Treating Drug Problems Arthur W. Blume, 2005-03-25 Part of the new Treating Addictions series, *Treating Drug Problems* is full of practical information on assessing, diagnosing, and treating drug problems and represents an invaluable tool for anyone who works with clients experiencing drug dependence or addiction. The popular series format includes assessment scales, tables, checklists, and diagrams, features such as Dos and Don'ts and Important Things to Remember, problem-solving scenarios, Self-Improvement Techniques, and suggested resources, including an annotated bibliography and lists of contacts such as self-help groups, residential and outpatient treatment programs, support groups, and websites.
