Resource Management And Development Addressing Conflict And Uncertainty:

Resource Management and Development Bruce Mitchell, 1991 *Spatial Diversity and Dynamics in Resources and Urban Development* Ashok K. Dutt, Allen G. Noble, Frank J. Costa, Sudhir K. Thakur, Rajiv Thakur, Hari S. Sharma, 2015-10-15

This double volume work focuses on socio demographics and the use of such data to support strategic resource management and planning initiatives. Papers go beyond explanations of methods technique and traditional applications to explore new intersections in the dynamic relationship between the utilization and management of resources and urban development. International authors explore numerous experiences characteristics of development and decision making influences from across Asia and Southeast Asia as well as recounting examples from America and Africa. Papers propound techniques and methods used in geographical research such as support vector machines socio economic correlates and travel behaviour analysis. In this volume the contributions examine issues such as natural resource and environmental management livelihoods issues in the context of climate change land markets and land trusts adaptive management of wildlife sanctuaries ground water scarcity flood hazards and flood plain management non conventional energy resources community forestry and management and land use and land cover change. The significance of these topics lie in the pace and volume of change as is reflected through continued development within established fields of inquiry and the introduction of significantly new approaches during the last decade. Readers are invited to consider the dynamics of spatial expansion of urban areas and economic development and to explore conceptual discussion of the innovations in and challenges on urbanization processes urban spaces themselves and both resource management and environmental management. Together the two volumes contribute to the interdisciplinary literature on regional resources and urban development by collating recent research with geography at its core. Scholars of urban geography human geography urbanism and sustainable development will be particularly interested in this book.

A Stake in the Future Mary Louise McAllister, Cynthia Alexander, 2011-11-01

A Stake in the Future is a comprehensive study of the Whitehorse Mining Initiative which was first conceived by the leaders in the Canadian mining industry. The goal was to revitalize the mining industry attract new investment and forge an alliance with major stakeholders such as government environmental groups First Nations the mining industry and labour. The book examines the political cultural and policy issues involved in developing a new consensus based approach to resolving land and resource use disputes with particular focus on a national multi stakeholder initiative in the mineral sector. The authors discuss the changing public policy environment the growing use of alternative dispute resolution the challenges posed by consensus based processes in developing a common vision and the implications of such processes for representative democracy.

instruments *Canadian Natural Resource and Environmental Policy, 2nd ed.* Melody Hessing, Michael Howlett, Tracy Summerville, 2011-11-01 In this new and updated edition the authors once again examine policy making in one of the most significant areas of activity in the Canadian economy natural resources and the environment and discuss the evolution of resource policies from the early era of exploitation to the present era of resource and environmental management Using an integrated political economy and policy perspective the book provides an analytic framework from which the foundation of ideological perspectives administrative structures and substantive issues are explored Departing from traditional approaches that emphasize a single discipline or perspective it offers an interdisciplinary framework with which to think through ecological political economic and social issues It also provides a multi stage analysis of policy making from agenda setting through the evaluation process The integration of social science perspectives and the combination of theoretical and empirical work make this innovative book one of the most comprehensive analyses of Canadian natural resource and environmental policy to date Its illumination of the key elements of government policy making in this critical sector and its new outline of the evolution of the Kyoto Protocol makes it a useful textbook and resource for students of environmental and public policy policy makers and environmental organizations **Resource & Environmental Management** Bruce Mitchell, 2013-12-16 This book does an exceptional job in giving an understanding of change complexity uncertainty and conflict as well as their linkages including awareness of strategies methods and techniques to handle them relative to resource and environmental management The text enhances the reader's capacity to conduct practice and conduct research in resource and environmental management **Canadian Natural Resource and Environmental Policy, 2nd edition**, 2005 This expanded and updated edition of *Canadian Natural Resource and Environmental Policy* examines policy making in one of the most significant areas of activity in the Canadian economy natural resources and the environment It discusses the evolution of resource policies from the early era of exploitation to the present era of resource and environmental management including the Kyoto Protocol Using an integrated political economy and policy perspective the book provides an analytic framework through which ideological perspectives administrative structures and substantive issues are explored

sum de l'auteur **Taking Stands** Maureen Gail Reed, 2003 Environmental activism in rural places frequently pits residents whose livelihood depends on resource extraction against those who seek to protect natural spaces and species While many studies have focused on women who seek to protect the natural environment few have explored the perspectives of women who seek to maintain resource use This book goes beyond the dichotomies of pro and anti environmentalism to tell the stories of these women Maureen Reed uses participatory action research to explain the experiences of women who seek to protect forestry as an industry a livelihood a community and a culture She links their experiences to policy making by considering the effects of environmental policy changes on the social dynamics of workplaces households and communities in forestry towns of British Columbia's temperate rainforest The result is a critical commentary about the social dimensions of

sustainability in rural communities A powerful and challenging book Taking Stands provides a crucial understanding of community change in resource dependent regions and helps us to better tackle the complexities of gender and activism as they relate to rural sustainability Social and environmental geographers feminist scholars and those engaged in rural studies environmental sustainability and community planning will find it invaluable

Climate Change, Human Security and Violent Conflict Jürgen Scheffran, Michael Brzoska, Hans Günter Brauch, Peter Michael Link, Janpeter Schilling, 2012-05-26 Severe droughts damaging floods and mass migration Climate change is becoming a focal point for security and conflict research and a challenge for the world's governance structures But how severe are the security risks and conflict potentials of climate change Could global warming trigger a sequence of events leading to economic decline social unrest and political instability What are the causal relationships between resource scarcity and violent conflict This book brings together international experts to explore these questions using in depth case studies from around the world Furthermore the authors discuss strategies institutions and cooperative approaches to stabilize the climate society interaction

Resource and Environmental Management Bruce Mitchell, 2019 In order to optimally manage the environment and natural resources it is vitally important to recognize that there is much more to consider than just the environment itself and the natural resources it provides A key consideration is also the interrelationship between natural ecosystems and human involvement and behavior This interaction is where the field of environmental resource management comes into play the complex ecological and sociological systems of the natural world intertwined The purpose of this book is to consider such matters and to help readers develop their own capacities as environmental managers and stewards Bruce Mitchell's textbook Resource and Environmental Management served as the gold standard for many environmental science courses when the first edition published in 1997 Now twenty years later an updated third edition allows for the inclusion of recent developments The book covers the basic theories and concepts of environmental resource management and guides students to be able to apply those concepts to practical situations By covering basic theories and concepts and by using case studies to show how these have been applied Bruce Mitchell's new edition seeks to ensure that students have competence in both aspects The text enhances the reader's capacity to conduct practice and research in resource and environmental management

Ecosystem Management William Burch, 1998-12-01 This text looks at the management of critical resources and the fact that the definition of what is and is not seen as a critical resource for survival varies by time and culture
