Potter, David Barker, Thomas Klak, Denis Conway, 2015-07-17 This text focuses on the contemporary economic social geographical environmental and political realities of the Caribbean region Historical aspects of the Caribbean such as slavery the plantation system and plantocracy are explored in order to explain the contemporary nature of and challenges faced by the Caribbean The book is divided into three parts dealing respectively with the foundations of the Caribbean rural and urban bases of the contemporary Caribbean and global restructuring and the Caribbean industry tourism and politics **Land and Territoriality** Michael Saltman, 2020-05-26 In the past territorial conflict usually involved major powers seeking hegemony over strategic spaces and resources More recently however the decline of opposing global power blocs has elevated ethnicity to a prime cause of conflict over land This book considers the multiple roles ethnicity plays in fostering territorial conflicts both violent and non violent across the globe While land disputes relating to nationalism have resulted in the loss of human life in some regions in others ties between ethnicity and land are asserted more peacefully Nationalism and challenges to the validity of the links between people and places have caused widespread bloodshed in the disputed territory of Palestine involving competing claims of Arabs and Jews

have led to war In North America however indigenous Indians claims to land are settled in the courts rather than through violence This book shows how human behaviour is affected by the multiple ways in which people identify with land topography and natural resources In doing so it highlights the growing trend towards defining physical space in specific ethnic contexts associated with a contemporary world that facilitates global movement *The Caribbean City* Rivke Jaffe, 2008 Caribbean cities are a unique yet underexposed phenomenon Their distinctiveness results from a combination of interrelated factors including a history of slavery development under the hemispheric hegemony of the United States and spatial limitations imposed by the settings of most Caribbean urban areas This innovative volume presents a detailed introduction to the spatial socio cultural and economic characteristics of the Caribbean city followed by case studies of selected cities in the Dutch Hispanophone Francophone and Anglophone Caribbean It discusses a broad range of disciplinary approaches in examining the urban Caribbean incorporating perspectives from anthropology sociology history political science geography and literary and cultural criticism BOOK JACKET *Communicating Globally* Wallace V. Contested Forms of Governance in Marine Protected Areas Natalie Bown, Tim Gray, Selina M. Stead, 2013 In this book the authors examine the governance of marine protected areas MPA and in particular they compare two different forms of governance co management CM and adaptive co management ACM CM is characterized by the decentralization of the decision making process incorporating the governed as well as the government ACM is characterized by the dynamic process whereby co management decision making is made continuously responsive to the changing ecological and socio economic circumstances of the MPA The authors carry out a comprehensive critical analysis of CM and ACM before applying these concepts to the case study of the Cayos Cochinos Marine Protected Area off Honduras to assess two successive management cycles 2004 9 and 2008 13 The area was designated as an MPA in 1993 a governmental decision which was met with resentment by local communities CM was introduced in 2004 to involve these local stakeholders in the decision making process but achieved limited success In an attempt to deal with these deficiencies ACM was adopted in the second management plan in 2008 but whereas the position of the local communities improved it tipped the scales too far away from conservation A third management plan is currently being prepared that promises to strike a better balance between ecological and socio economic objectives A central theme of the book is to examine how far the CCMPA adhered to the principles of CM and ACM respectively in its first two management plans
