THEORY OF CHANGE

STRATEGIES

How do we make change?

OUR DEFINITION

Community development is a process where people come together to take action on what's important to them. Community Development helps communities to organize, and to identify the issues they want to address, or the opportunities they want to explore.

CELEBRATING & REFLECTING

We celebrate diverse cultures, histories and expressions through events, projects and campaigns. We reflect, evaluate and learn from our work in order to continue to inform our understanding of community.

MOBILIZING & ADVOCATING

Responding to community issues with innovation systems thinking, and strategies to address the root causes of inequities. Mobilizing community members to engage politically and socially towards systemic change that supports an equitable and just society.

IMPACTS

What are we working toward?

BELONGING

A neighbourhood where everyone belongs, fully participates and shares their unique gifts. A neighbourhood where no one feels isolated and our communities have the resources to experience wellbeing, joy, and celebration.

COMMUNITY LEADERSHIP

A neighbourhood where community members care for one another and support each other. Community Members, groups, and organisations collaborate by working together to build capacity and are empowered to create changes.

EQUITY & JUSTICE

A neighbourhood that is committed to ongoing processes of anti-racism, identifying and redistributing power, decolonizing, and advocating for systemic change towards an equitable and just society.

COMMUNITY HEALTH & RESILIENCY

A neighbourhood where community members care for one another and support each other. Community Members, groups, and organisations collaborate by working together to build capacity and are empowered to create changes.

RESOURCING

We provide information and education to community members. Individuals and groups are supported in their learning journey. Sharing of power? Access? using the power and resources we have to support community needs.

CONNECTING

We provide low-barrier and accessible opportunities for people to connect with each other, the community, and the land. We foster relationship-building between people and groups who may not usually connect, including intergenerational and intercultural connections. We build and support networks of residents and community partners that work toward positive change in the community.

Translation Studies beyond the Postcolony Ilse Feinauer, Kobus Marais, 2017-01-06 This edited volume explores the role of postcolonial translation studies in addressing issues of the postcolony. It investigates the retention of the notion of postcolonial translation studies and whether one could reconsider or adapt the assumptions and methodologies of postcolonial translation studies to a new understanding of the postcolony to question the impact of postcolonial translation studies in Africa to address pertinent issues. The book also places the postcolony in historical perspective and takes a critical look at the failures of postcolonial approaches to translation studies. The book brings together 12 chapters which are divided into three sections: namely Africa, the Global South, and the Global North. As such, the volume is able to consider the postcolony and even conceptualisations beyond the postcolony in a variety of settings worldwide.

APAIS 1992: Australian public affairs information service, **International Responses to Issues of Credit and Over-indebtedness in the Wake of Crisis** Therese Wilson, 2016-04-22 This book explores the political, economic and regulatory context in which credit regulation is taking place following the global financial crisis. It suggests that current neoliberal economic policies favour multi-national corporations rather than consumers and examines regulatory responses to the internationalization of consumer finance protection. Detailing how EU consumers have been affected by national economic conditions, the book also analyses the lending regimes of Europe, Australia, the US and South Africa and offers suggestions for responsible lending to avoid over-indebtedness and corrupt mortgage lending. Finally, new approaches and directions for consumer credit regulations are outlined, such as protection for small businesses, protection against risky credit products, reorganization of mortgage securitization and the possibility of a partnership model to address financial exclusion. The book includes contributions from leading names in the field of consumer law and will be invaluable to those interested in banking, business and commercial law.

Theorising the Practice of Community Development Peter Westoby, 2016-02-17 Based on 25 years of community development practice six of which have been lived in South Africa Peter Westoby's ground breaking monograph moves away from dominant normative accounts of community development to provide an appreciative and critical analysis of concrete examples of community development theory and practice By examining community development stories as experienced on the ground Westoby is able to show how the poor are organising themselves using various forms of community development as well as demonstrating how the state and non state actors are attempting to organise engage or accompany the poor through community development The book also breaks new ground in theorising the practice of community development drawing inductively from the stories analysed The diversity of South African contexts and the proliferation of different kinds of community practice make this a hugely difficult task Despite this Westoby argues it is one worth undertaking given the seriousness of the challenges facing the poor and progressive social change agents within South Africa In this undertaking Westoby draws upon a unique analytical framework to help illuminate current community development policy and programme challenges along with practice dilemmas and wisdom
