Responsibility Trap A Blueprint For Treating The Alcoholic Family:

The Responsibility Trap Claudia Bepko, 2002-01-15 Bepko and Krestan integrate theory and practice in describing the treatment of families with alcohol problems This book is the outgrowth of seven years of work in which we have made an attempt to integrate our own understanding of alcoholic dynamics within the framework of systemic family therapy Since we share both a commitment to the principles of Alcoholics Anonymous as well as a commitment to approaching problems from a systemic viewpoint it has always been a source of concern for us that the fields of alcoholism treatment and family therapy seem so polarized in their respective views on the nature of alcoholism as a symptomatic process Our hope is that this book can provide a bridge between those two viewpoints as well as some new ways of looking at alcoholism that can be clinically useful and relevant to other practitioners from *The Responsibility Trap* Working with Children of Alcoholics Bryan E. Robinson, J. Lyn Rhoden, 1998 This expanded edition of *Working With Children of Alcoholics* will be important for social workers psychologists school administrators teachers drug and alcohol counselors and pastoral counselors It is also an excellent supplemental text for practitioners in training and in graduate courses in family and community adjustment problems of youth substance abuse and human services Practical Approaches in Treating Adolescent Chemical Dependency Paul B Henry, Bruce Carruth, 2019-07-23 Here at last is a comprehensive volume on the often ignored but vitally important subject of care for the chemically dependent adolescent The most current treatment approaches are included all focused on the unique needs of this population For the first time a book on adolescent chemical dependence illustrates in a practical way the major issues of on going care from intervention and assessment through aftercare and relapse Written by professionals who have worked extensively with chemically dependent youth *Practical Approaches in Treating Adolescent Chemical Dependency* will be appreciated by all in the field of chemical dependency administrators treatment directors and certified addictions counselors as well as by social workers family therapists school guidance counselors and student assistance personnel BACKCOVER COPY The treatment of alcoholism and drug use is a relatively young field that has developed only in the past 25 years And as most of the expertise efforts and money have been targeted toward the chemically dependent adult population the use and abuse of substances among young people has skyrocketed Here at last is a comprehensive book on the often ignored but vitally important subject of care for the chemically dependent adolescent The most current treatment approaches are included all focused on the unique needs of this population For the first time a book on adolescent chemical dependence illustrates in a practical way the major issues of on going care from intervention and assessment through aftercare and relapse Written by professionals who have worked extensively with chemically dependent youth *Practical Approaches in Treating Adolescent Chemical Dependency* features a comprehensive overview of the dynamics of adolescence and the destructive impact that chemicals have upon kids a description of adolescents who are at risk for chemical dependency guidelines for making accurate assessments of chemically dependent adolescents successful programs

Gender and Addictions Shulamith Lala Ashenberg Straussner, Elizabeth Zelvin, 1997 Recognizing that men and women have different patterns and different needs the book emphasizes the relational model of female psychological development formulated by such theorists as Miller Chodorow and Gilligan which illuminates women s functional focus on connection and relationship as opposed to men s on separation and individuation

Feminism and Addiction Claudia Bepko, 2014-02-25 Feminism is a beneficial force in addictions therapy as they have the same goals mending imbalances of power A variety of important topics related to addictions treatment are addressed in this timely volume accompanied by concrete clinical solutions for therapists and counselors to use in their own practice Feminism and Addiction demonstrates the positive impact feminism can have on addictions treatment Addictions treatment methods that have been developed primarily based on research with men are examined and questioned to determine what changes need to be made to meet the needs of women The applicability of twelve step treatment programs for example is investigated as to whether its required adoption of belief in powerlessness is

concurrent with feminism's battle with female subjugation. This thought-provoking volume contains the most current theoretical, social, and clinical issues enmeshed in the debates between men's experiences and women's experiences of addiction. Critical issues addressed include advice for how to deal with issues of codependency, how to treat clients faced with physical or sexual abuse in addition to addiction, how to integrate cultural differences into treatment, and how to face the particular difficulties of gay and lesbian clients in addiction's treatment. This valuable book will help you apply constructivist approaches to build therapy methods which are collaborative, internal, and organic, thus more appropriate to treating women's experience with addiction. **Feminism and Addiction** helps family therapists who work with women and their families strike a unique balance between the principles of feminism and family therapy's goal of repairing and healing relationships between men and women. Social Work Treatment Francis J. Turner, 2011-03-15. First published in 1974, *Social Work Treatment* remains the most popular and trusted compendium of theories available to social work students and practitioners. It explores the full range of theoretical approaches that drive social work treatment and knowledge development from psychoanalysis to crisis intervention. This treasure trove of practice knowledge equips professionals with a broad array of theoretical approaches, each of which shines a spotlight on a different aspect of the human condition. Emphasizing the importance of a broad-based theoretical approach to practice, it helps the reader avoid the pitfalls of becoming overly identified with a narrow focus that limits their understanding of clients and their contexts. This sweeping overview of the field untangles the increasingly complex problems, ideologies, and value sets that define contemporary social work practice. The result is an essential A to Z reference that charts the full range of theoretical approaches available to social workers regardless of their setting or specialty.

Essence of Healing Dr. Arthur Mones, 2021-11-30. Dr. Arthur Mones reflects on a 45-year career in psychotherapy and points out what has worked and what mistakes he's made to provide guidance for new and seasoned practitioners. Dr. Mones traces his own career development in parallel with the historical changes in psychotherapy. The reader is introduced to the Internal Family Systems (IFS) orientation that guides Dr. Mones' practice and learns how this system can be applied to conceptualize client symptomology from an adaptive, strength-based framework to help clients experience improved mental health. Case examples illustrate the use of IFS as a practical treatment for a variety of psychiatric disorders. Callout text, illustrated notation, guided exercises, and questions, and defined terms make the text interactive and engaging, making the book suitable for use as a teaching aid in a class for practitioners to learn a new approach to family therapy, for those interested in learning more about their own mental health, and useful strategies to improve functioning, or for clinicians to find companionship in the wisdom, wit, and insightful reflections of Dr. Mones on his academic, clinical, and personal growth in the field of psychotherapy. The book traces the history of family therapy. It starts with its multidisciplinary origins in systems theory as a non-pathologizing treatment meant to effect lasting change by addressing the immediate causes of individual dysfunction, the family, and surrounding systems. The colorful and dedicated

early pioneers in the field and their specific contributions to the field are reviewed Dr Mones weaves in his own personal experiences working with these individuals and what he has taken as valuable therapeutic knowledge to form his own integrated practice Dr Mones describes his career long quest to find the essence of healing what are the essential elements that makes psychotherapy effective and brings relief to individuals suffering a wide range of disorder from trauma and dysfunctional systems Readers will benefit from Dr Mones decades long experience as a supervisor and teacher through his writing and learn how they too can find the meaningful parts of therapy that work to inform their own practice to create lasting change in their clients

Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots and sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories

about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
