**Earshot** Bruce Johnson, 2023-04-14 *Earshot Perspectives on Sound* awakens an understanding of the decisive role that sound has played in history and culture. Although beginning with reference to antiquity, the primary focus is the changing status of sound and hearing in Western culture over the last six hundred years, covering the transition from the medieval period to the contemporary world. Since mythic times, sound has been an essential element in the formation of belief systems, personal and community identities, and the negotiations between them. The varied case studies included in the book cover major reference points in the changing politics of sound, particularly in relation to the status of the other major conduit of social transactions, vision. *Earshot* is not a work of cultural theory but is anchored in social practices and material culture and is therefore a valuable resource for conveying sound to both undergraduate students as well as the general reader. *Shakespearean Reading of Pirandello's Henry IV* Manuel Macías Borrego, 2025-03-27 This book offers an innovative comparative analysis of Shakespeare's *Hamlet* and Pirandello's *Henry IV*, structured in four chapters that explore the intertextual relationship between these two masterpieces. Beginning with an introduction that lays the groundwork, the text moves to a section titled *Preliminary Considerations*, which defines the study's focus and establishes the critical methodology. The core of the book, the central chapter entitled *Comparative Study*, delves deeply into the shared and contrasting elements between the two tragedies, presenting an original and cumulative interpretation that connects key concepts like original sin, farce, simulacrum, and simulation. The theoretical approach, carefully developed and organized into thematic blocks, unfolds with analytical rigor to offer a Shakespearean reading of *Henry IV*. This study is an essential reference for those seeking to understand the complex interrelations between these two great texts and their relevance in contemporary literature and criticism.

*Modernism and the Language of Philosophy* Anat Matar, 2006-04-18 Modernism can be characterised by the acute attention it gives to language, to its potential and its limitations. Philosophers, artists, and literary critics working in the first third of the twentieth century emphasized language's creative potential but also stressed its inability to express meaning completely and accurately. In particular, modernists shared the belief that the kind of truth, *sub specie aeterni*, that was sought by philosophers was either meaningless or was more appropriately expressed by the arts, especially by literature and poetry. *Modernism and the Language of Philosophy* addresses the challenge this belief presented to philosophy and argues that the modernist assumption rests upon a host of unacknowledged, repressed, or denied dogmas or tacit images. Drawing in particular upon the work of Michael Dummett and Jacques Derrida, this book explores a new solution to this crisis in philosophical language, and it is these two philosophers who drive the narrative of the book and offer perspectives through which both past and present-day philosophers are examined.

*Objects and Intertexts in Toni Morrison's "Beloved"* Maureen E. Ruprecht Fadem, 2020-11-17 *Objects and Intertexts in Toni Morrison's Beloved: The Case for Reparations* is an inspired contribution to the scholarship on one of the most influential American novels and novelists. The author positions this contemporary classic as a meditation on historical justice and re-comprehends it as both a formal tragedy, a generic

translation of fiction and tragedy or a novel tragedy Kliger and a novel of objects Its many things literary conceptual linguistic are viewed as vessels carrying the hi story and the political concerns From this a third conclusion is drawn Fadem argues for a view of Beloved as a case for reparations That status is founded on two outstanding object lessons the character of Beloved as embodiment of the subject object relations defining the slave state and the grammatical object weather in the sentence The rest is on the novel s final page This intertextual reference places Beloved in a comparative link with Hamlet and Oresteia Fadem s research is meticulous in engaging the full spectrum of tragedy theory much critical theory and a full swathe of scholarship on the novel Few critics take up the matter of reparations still fewer the politics of genre craft and form This scholar posits Morrison s tragedy as constituting a searing critique of modernity as composed through meaningful intertextualities and as crafted by profound thingly objects Brown Altogether Fadem has divined a fascinating singular treatment of Beloved exploring the connections between form and craft together with critical historical and political implications The book argues finally that this novel s first concern is justice and its chief aim to serve as a clarion call for material and not merely symbolic reparations This book is freely available to read at <https://taylorandfrancis.com/socialjustice/c/language/literature/arts/>

**Distributed Language** Stephen J. Cowley, 2011 The volume presents language as fully integrated with human existence On this view language is not essentially symbolic not represented inside minds or brains and most certainly not determined by micro social rules and norms Rather language is part of our ecology It emerges when bodies co ordinate vocal and visible gesture to integrate events with different histories Enacting feeling expression and wordings language permeates the collective individual and affective life of living beings It is a profoundly distributed multi centric activity that binds people together as they go about their lives Distributed Language pursues this perspective both theoretically and in relation to empirical work Empirically it reports studies on the anticipatory dynamics of reading its socio cognitive consequences Shakespearean theatre what images evoke in brain and word and solving insight problems Theoretically the volume challenges linguistic autonomy from overlapping theoretical positions First it is argued that language exploits a species specific form of semiotic cognition Second it is suggested that the central function of language lies in realizing values that derive from our ecosystemic existence Third this is ascribed to how cultural and biological symbols co regulate the dynamics that shape human activity Fourth it is argued that language far from being organism centred gives us an extended ecology in which our co ordination is saturated by values and norms that are derived from our sociocultural environment The contributions to this volume expand on those originally published in *Pragmatics Cognition* 17 3 2009

**Indian Perspectives on Martin Heidegger's Event: A Cross-Cultural Inquiry into Truth and Nescience** Mikael Stamm, 2025-04-20 In a world where books write themselves where speech has no speaker where death illuminates the living where essences communicate indeterminacies where things fold upon themselves and meanings can be unthought where truth consumes everything in purifying fires and machines create worlds for the benefit of the eradicated other if seen the unfathomable event of truth has already taken place and everything must cease to be as it once was This book explores the concept of the event in Heidegger's Contributions to Philosophy alongside the notions of truth and nescience in Sankara's Brahmas trabh ya Through this lens it examines the question of articulation by mapping conceptual domains and investigating what occurs between them This negative field raises fundamental questions about the nature of the self the role of agency and the conspicuous absence of meaning in mantric sayings all of which point to a radical other truth Additional Indian philosophical traditions and practices are incorporated to shed light on significant ways of understanding words and sounds revealing an unexpected vision of reality The book also includes a comprehensive and insightful foreword by the esteemed Prof S Panneerselvam General Secretary of the Indian Philosophical Congress and the Chennai Philosophical Forum and former Professor Head of the Department of Philosophy University of Madras Chennai His foreword addresses key aspects of both Indian and Western philosophical traditions providing valuable context for the reader
