Retaining Alliance Relevancy Nato And The Combined Joint Task Force Concept:

Retaining Alliance Relevancy Paul David Miller, 1994 **NATO's Peace Enforcement Tasks and Policy Communities** Giovanna Bono, 2017-11-30 This book was published in 2003 How has NATO managed to survive and transform itself into a peace enforcement organization Challenging the dominant assumption that NATO intervened in the Balkans because of the threat that conflicts in the region posed to European security this book develops a new set of research questions based on the hypothesis of the existence of policy communities The author demonstrates that there were shifting policy communities in operations that shaped the Alliance's transformation process arguing that NATO would not have succeeded in assuming peace enforcement tasks without other factors ranging from organisational dynamics domestic politics and the impact of ad hoc reactions to external events coming into play Highlighting the role of NATO as an actor in international security this volume is aimed at academics and practitioners in the field of international relations *Partnership in Crisis* Paul Cornish, 1997-01-01 Focuses on the inner workings of NATO during the period 1996-97 After a summary of theoretical reflections on military alliances chapters describe four paths to compromise US British French and German without which the goals and complex formulae devised in 1996 and 1997 could not have been agreed upon and analyze the international adaptation of NATO and its strength of consensus on both sides of the Atlantic Distributed by Books International Annotation copyrighted by Book News Inc Portland OR *The Routledge Handbook of Transatlantic Security* Jussi Hanhimäki, Georges-Henri Soutou, Basil Germond, 2010-07-02 This new Handbook provides readers with the tools to understand the evolution of transatlantic security from the Cold War era to the early 21st century After World War II the US retained a strong presence as the dominant member of NATO throughout the Cold War Former enemies such as Germany became close allies while even countries that often criticized the United States made no serious attempt to break with Washington This pattern of security co-operation continued after the end of the Cold War with NATO expansion eastwards extending US influence Despite the Iraq war prompting a seemingly irreparable transatlantic confrontation the last years of the Bush administration witnessed a warming of US-European relations expected to continue with the Obama administration The contributors address the following key questions arising from the history of transatlantic security relations What lies behind the growing and continuing European dependency on security policy on the United States and what are the political consequences of this Is this dependency likely to continue or will an independent European Common Foreign and Security Policy eventually emerge What has been the impact of out-of-area issues on transatlantic security cooperation The essays in this Handbook cover a broad range of historical and contemporary themes including the founding of NATO the impact of the Korean War the role of nuclear non-proliferation perspectives of individual countries especially France and Germany the impact of culture identity and representation in shaping post-Cold War transatlantic relations institutional issues particularly EU-NATO relations the Middle East and the legacy of the Cold War notably tensions with Russia This Handbook will be of

much interest to students of transatlantic security NATO Cold War Studies foreign policy and IR in general *The Future of NATO's Tactical Air Doctrine* Linda E. Torrens, 1997 This study analyzes the need for changes to the North Atlantic Treaty Organization NATO airpower doctrine to reflect current post cold war realities NATO air doctrine does not yet reflect the actuality of today's operations nor does it anticipate the probable future employment of NATO's airpower Out of area operations and Partnership for Peace participation in NATO operations will have profound effects on combined doctrine training organizational structures exercises and employment of forces NATO's tactical doctrine revision process served the alliance well during the cold war But today the international environment has drastically changed Both the nature of the threat and the use of NATO airpower during conflict have changed The current doctrinal revision process has proved too slow and cumbersome to provide adequate direction for air strategists during ongoing operations There are many new doctrinal areas that must be thoroughly addressed so that NATO can chart a course for the future that in the end provides the best most effective mix of forces NATO Meets the Post-strategic Condition Alexander Siedschlag, 1998 For the most part political and scholarly debates about the future of the North Atlantic Alliance embrace enlargement and military conflict management as crucial factors Yet another set of determinants lies in the political relationships within the Alliance itself and vis a vis other international institutions The Madrid Enlargement Summit of July 1997 and a proclaimed new NATO notwithstanding those issues continue to have a strong impact on NATO's performance and on North Atlantic Alliance politics Enlargement not at all terminates their relevance It sparks a second wave in shaping NATO's future but the first wave remains and it remains critical The subject matter of the present analysis is this first wave of NATO's adaptation between 1990 and mid 1997 an institutionalist approach beyond the narrow scope of the common neorealist neoliberal debate providing the frame of reference One lesson for the new enlarging Alliance is that it should refrain from adopting too diffuse political responsibilities and claiming a too broad spectrum of functions in post strategic security politics From Words to Deeds Willem Frederik Eekelen, 2006 In this new book Willem van Eekelen a diplomat turned politician charts the progression of the European security and defence policy its difficult and even competitive relationship with NATO and the development of a European security strategy American Defense Policy Peter L. Hays, Brenda J. Vallance, Alan R. Van Tassell, 1997 defense policies reviewing excerpts from key defense policy statements and assessing the likely challenges for future policy makers Brent Scowcroft International Affairs **The United States, NATO, and a New Multilateral Relationship** Frank R. Douglas, 2007-11-30 Formed in the aftermath of WWII and in the face of the emerging threat posed by the Soviet Union the transformation that has taken place in recent years within NATO has been neither natural nor easy for the multi national organization or the United States When the Soviet Union ceased to exist it seemed NATO would disappear too The rationale for a large American military deployment in Europe described by President Eisenhower as a temporary move no longer could be supported This work documents the transition of the United States relationship with

NATO from a focus on the defense of Western Europe to an inclusive military and political organization concerned with the security of all of Europe with the real potential for employment of its military power beyond the European continent Despite budgeting and economic concerns raised by key members of the U S Congress President George H W Bush supported the status quo and was caught completely off guard when the Berlin Wall fell He and Defense Secretary Dick Cheney had not fully understood the changed strategic environment in Europe but the U S Congress did and offered many suggestions NATO was saved President Bill Clinton continued to promote the validity of NATO expanded NATO eastwards reduced the U S troop level in Europe to 100 000 and gave NATO a mission beyond warfare with the peacekeeping task in Bosnia A new Atlantic relationship had been forged for the post Cold War period

Stalvant, 2012-12-06 Thorvald Stoltenberg Ambassador Chairman of the Editorial Advisory Board Most of us have been overwhelmed by the speed and extent of the changes that have been taking place in Europe since the late 1980s Over the span of a few years we have witnessed the collapse of the Soviet Union and the unification of Germany This process has had far reaching implications for Northern Europe the Baltic states have attained independence and with the establishment of the Baltic Sea regional co operation and the Barents co operation a new type of East West relations has come into being The process of change continues Its latest manifestation is the agreement between Russia and NATO and NATO and EU enlargement is expected to take place over the next few years With such far reaching transformations we need to reflect on what is happening We need a more coherent picture of the new situation in Northern Europe and of where we are heading This Yearbook is an attempt to fulfil this need I would like to thank the editors for taking this initiative which has been long awaited by those of us who have been actively interested in the improved relations between the former East and the old West that have been made possible by the end of the Cold War and particularly in the new opportunities for cross border co operation and integration in the North European and Baltic space

Collective Conflict Management and Changing World Politics Joseph Lepgold, Thomas G. Weiss, 1998-05-28 For several decades the debate over collective security the idea that alliances are problematic and that all nations should pledge to come to the aid of any nation that is a victim of aggression has been polarized Collective Conflict Management and Changing World Politics probes the international and domestic conditions under which collective security tends to work or not and questions if the end of the Cold War makes success more or less likely than before The contributors conclude that collective conflict management is possible under specific situations as they
