Rethinking Ethics in the Midst of Violence Linda A. Bell, 1993-07-02 Selected by Choice as an Outstanding Academic Book for 1995 Moving beyond the traditional feminist ethics of care Linda A Bell places an existentialist conception of liberation at the heart of ethics and argues that only an ethics of freedom sufficiently allows for feminist critique and opposition to a status quo imbued with violence She offers a critique of Aristotelian utilitarian and Kantian ethics analyzing each approach from feminist perspectives and showing how each fails women and others who resist oppression **The**

Ethics of the Story David Craig, 2006-10-27 The best journalists are masters at their craft With a comma and a colon a vivid verb and a colorful adjective they not only convey important information but also create a sense of place and evoke powerful emotions A compelling story can shape _for good or ill_ the way a reader understands people events and issues The Ethics of the Story examines the ethical implications of narrative techniques commonly used in journalism not just literary journalism but also news and feature writing The book draws on interviews with 60 talented journalists including Pulitzer Prize winners to offer practical advice about ethical choices in writing and editing Much has been written about journalism ethics but the discussion has often focused on spectacularly bad decisions _such as Jayson Blair's and Jack Kelley's use of fraudulent narrative_ rather than the ethical dimension of day to day choices about the building blocks of journalistic storytelling The Ethics of the Story fills a gap in current work on ethics writing and editing It will enlighten any serious wordsmith with a story to tell **A Stakeholder Approach to Corporate Social Responsibility** Philip Kotler, François Maon, 2016-03-16

Corporate social responsibility has grown into a global phenomenon that encompasses businesses consumers governments and civil society and many organizations have adopted its discourse Yet corporate social responsibility remains an uncertain and poorly defined ambition with few absolutes First the issues that organizations must address can easily be interpreted to include virtually everyone and everything Second with their unique often particular characteristics different stakeholder groups tend to focus only on specific issues that they believe are the most appropriate and relevant in organizations corporate social responsibility programs Thus beliefs about what constitutes a socially responsible and sustainable organization depend on the perspective of the stakeholder Third in any organization the beliefs of organizational members about their organization's social responsibilities vary according to their function and department as well as their own managerial fields of knowledge A Stakeholder Approach to Corporate Social Responsibility provides a comprehensive collection of cutting edge theories and research that can lead to a more multifaceted understanding of corporate social

responsibility in its various forms the pressures and conflicts that result from these different understandings and some potential solutions for reconciling them

Gudykunst, 2001-05 This volume offers state of the art communication research representing media interpersonal intercultural and other areas of communication It is an important reference on current research for scholars and students in the social sciences *Popularizing Dementia* Aagje Swinnen, Mark Schweda, 2015-11-15 How are individual and social ideas of late onset dementia shaped and negotiated in film literature the arts and the media And how can the symbolic forms provided by popular culture be adopted and transformed by those affected in order to express their own perspectives This international and interdisciplinary volume summarizes central current research trends and opens new theoretical and empirical perspectives on dementia in popular culture It includes contributions by internationally renowned scholars from the humanities social and cultural gerontology age ing studies cultural studies philosophy and bioethics Contributions by Lucy Burke Marlene Goldman Annette Leibing and others
