Rethinking Green Alternatives To Environmental Bureaucracy:

Re-Thinking Green Robert Higgs, 2005-07-15 Environmental quality has been a major public concern since the first Earth Day in 1970 yet the maze of environmental laws and regulations enacted since then has fostered huge government bureaucracies better known for waste and failure than for innovation and success Can we do better than this failed environmental bureaucracy The noted contributors to this volume answer with a resounding yes Re Thinking Green exposes the myths that have contributed to failed environmental policies and proposes bold alternatives that recognize the power of incentives and the limitations of political and regulatory processes It addresses some of the most hotly debated environmental issues and shows how entrepreneurship and property rights can be utilized to promote environmental quality and economic growth Re Thinking Green will challenge readers with new paradigms for resolving environmental problems stimulate discussion on how best to humanize environmental policy and inspire policymakers to seek effective alternatives to environmental bureaucracy

Property Rights Terry L. Anderson, Laura E. Huggins, 2013-09-01 Drawing on the thoughts of various philosophers political thinkers economists and lawyers Terry Anderson and Laura Huggins present a blueprint for the nonexpert expert on how societies can encourage or discourage freedom and prosperity through their property rights institutions This Hoover Classic edition of Property Rights details step by step what property rights are what they do how they evolve how they can be protected and how they promote freedom and prosperity

The Nature of Environmental Stewardship Johnny Wei-Bing Lin, 2016-02-08 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In this book climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavor He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and

economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues *Rethinking Leadership for a Green World* Andrew Taylor, 2022-03-20 First James Lovelock and recently Prince William and David Attenborough believe that we have reached a tipping point in the process of climate change Whether they are right or not it is certainly true that the impact of humankind upon the ecology of the earth has reached a point where real changes in human behaviour are required If managers are to be enablers of planetary survival then we need to develop a new approach to risk which explicitly includes ecological limits upon economic behaviour This implies a fundamental reorientation of their role in allocating resources to minimise risk and maximise reward This book brings together some of the brightest contemporary thinkers on leadership complexity and sustainability to consider the big ideas that we will need to make the changes required and to outline the major themes that can inform a new approach to constructing a green world It looks at how to ensure that local models of sustainability are able to flourish in the context of global networks and presents specific case studies of markets and organisations that offer insights into the development integrated solutions and the leadership lessons we can learn Combining both theory and practice this book serves to guide business managers and provides deeper insight and critical perspectives on some of the key issues facing leaders moving towards the green economy It also provides useful supplementary reading for students in business and environmental studies Rethinking Our Ecosystems Nixon Ronoh, Charles Rono, 2025-09-30 The International Conference on Climate Change and Ecosystem Restoration ICCER organized by The Restoration Alliance and Moi University addresses and consolidates efforts toward climate change mitigation through landscape restoration With a special emphasis on the Great Rift Valley's unique and biodiverse landscapes this conference aims to create a robust platform for dialogue knowledge exchange and collaboration between academia government agencies civil society organizations and private sector actors ICCER focuses on the cross disciplinary themes of climate change ecosystem conservation adaptation and landscape restoration Major themes of the 2024 meeting highlight the management of restoration projects AI and other emerging technologies practical aspects of biodiversity and conservation initiatives and cross sectoral initiatives that incorporate health agriculture socio economic aspects with climate change adaptation and mitigation and ecosystem restoration

Understanding Democratic Politics Roland Axtmann, 2003-02-17 This textbook is designed for first time students of politics It provides an ideal introduction and survey to the key themes and issues central to the study of democratic politics today The text is structured around three major parts concepts institutions and political behaviour and ideologies and movements Within each section a series of short and accessible chapters serve to both introduce the key ideas institutional forms and ideological conflicts central to the study of democratic politics and provide a platform for further in depth studies Each chapter contains a bullet point summary a guide to further reading and a set of questions for tutorial discussion Designed and written for an undergraduate readership *Understanding Democratic Politics An Introduction* will become an

essential guide and companion to all students of politics throughout their university degree **Rethinking Public**

Governance Jacob Torfing, 2023-06-01 In this innovative book Jacob Torfing a leading scholar of the field critically evaluates emerging ideas practices and institutions that are transforming how public governance is perceived theorised and conducted in practice With a novel focus on the production of innovative public value outcomes it identifies cutting edge developments in public governance and considers how it may transform in the future to present innovative solutions to societal problems

Rethinking Resource Management Richard Howitt, 2002-01-31 This book offers students and practitioners a sophisticated and convincing framework for rethinking the usual approaches to resource management It uses case studies to argue that professional resource managers do not take responsibility for the social and environmental consequences of their decisions on the often vulnerable indigenous communities they affect It also discusses the invisibility of indigenous people values and knowledge within traditional resource management It offers a new approach to social impact assessment methods which are more participatory and empowering The book employs a range of case studies from Australia North America and Norway *Opposing the Crusader State* Robert Higgs, Carl P. Close, 2007 For more than a century U S foreign policy whether conducted by Democrats or Republicans liberals or conservatives has been based on the assumption that American s interests are served best by intervening abroad to secure open markets for U S exports fight potential enemies far from American shores or engage in democratic nation building Before the twentieth century however a foreign policy of nonintervention was widely considered more desirable and Washington s and Jefferson s advice that the republic avoid foreign entanglements was largely heeded *Opposing the Crusader State Alternatives to Global Interventionism* edited by Robert Higgs and Carl Close examines the history of American noninterventionism and its relevance in today s world Arguing that interventionism is not an appropriate default setting for U S foreign policy the book s contributors clarify widespread misunderstanding about noninterventionism question the wisdom of nation building debate the validity of democratic peace theory and make the case for pursuing a peace strategy based on private property rights and free trade Readers will come away from this book with a richer understanding of the noninterventionist movements in U S history write Higgs and Close in the book s introduction Most important perhaps they will have a firmer understanding of why many classical liberals embrace the strengthening of commercial ties between all countries as a means of avoiding war Book jacket *The Oxford Handbook of U.S. Environmental Policy* Sheldon Kamieniecki, Michael Kraft, 2013 Prior to the Nixon administration environmental policy in the United States was rudimentary at best Since then it has evolved into one of the primary concerns of governmental policy from the federal to the local level As scientific expertise on the environment rapidly developed Americans became more aware of the growing environmental crisis that surrounded them Practical solutions for mitigating various aspects of the crisis air pollution water pollution chemical waste dumping strip mining and later global warming became politically popular and the government responded by gradually erecting a vast regulatory apparatus to address the issue Today

politicians regard environmental policy as one of the most pressing issues they face The Obama administration has identified the renewable energy sector as a key driver of economic growth and Congress is in the process of passing a bill to reduce global warming that will be one of the most important environmental policy acts in decades The Oxford Handbook of U S Environmental Policy will be a state of the art work on all aspects of environmental policy in America Over the past half century America has been the world s leading emitter of global warming gases However environmental policy is not simply a national issue It is a global issue and the explosive growth of Asian countries like China and India mean that policy will have to be coordinated at the international level The book will therefore focus not only on the U S but on the increasing importance of global policies and issues on American regulatory efforts This is a topic that will only grow in importance in the coming years and this will serve as an authoritative guide to any scholar interested in the issue

Ideas and Actions in the Green Movement Brian Doherty, 2005-07-05 The Western green movement has grown rapidly in the last three decades green ministers are in government in several European countries Greenpeace has millions of paying supporters and green direct action against roads GM crops the WTO and neo liberalism have become ubiquitous The author argues that greens share a common ideological framework but are divided over strategy Using social movement theory and drawing on research from many countries he shows how the green movement became more differentiated over time as groups had to face the task of deciding what kind of action was appropriate In the breadth of its coverage and its novel focus on the relationship between green ideas and action this book makes an important contribution to the understanding of green politics

Energy Keepers Energy Killers Roy Innis, 2008 Energy Keepers Energy Killers The New Civil Right Battle exposes the wrongs done to the poor and minorities by environmental and political elites trying to eradicate fossil fuel production coal oil and gas supposedly to save the world from global warming Author Roy Innis national chairman of the Congress of Racial Equality shows how their wrongheaded policies price energy out of reach and violate the civil rights of all Americans but hurt the poor and minorities worst Innis demands an end to this energy racism and calls for the opening of all federal lands which belong to the disadvantaged as much as to well funded environmental leaders to more energy production in a sustained campaign to increase supply and lower prices Innis reveals the flaws in global warming hysteria and makes the stunning fact clear in his Energy Reality chart that so called alternative energy from wind and solar power actually provided less than one half of one percent of America s energy needs in 2006

Green Inside Activism for Sustainable Development Erik Hysing, Jan Olsson, 2017-08-21 This book considers how public sector institutions can be transformed to better support sustainable development by exploring the concept of green inside activism and its importance for institutional change The phenomenon of inside activism has been shown to be crucial for green policy change and this book focuses on public officials as green inside activists committed to green values and engaged in social movement acting strategically from inside public administration to change public policy and institutions in line with such value commitment The book theorizes how green

inside activism can contribute to a more sustainable development through institutional change This theorizing builds on and relates to highly relevant theoretical arguments in the existing literature The authors also consider the legitimacy of inside activism and how it can be reconciled with democratic ideals This innovative work will appeal to students and scholars of public policy political science and environmental politics **American Book Publishing Record**, 2003

Reconsidering Localism Simin Davoudi, Ali Madanipour, 2015-01-09 Localism has been deployed in recent debates over planning law as an anodyne grassroots way to shape communities into sustainable human scale neighborhoods But local is a moving category with contradictory nuanced dimensions Reconsidering Localism brings together new scholarship from leading academics in Europe and North America to develop a theoretically grounded critique and definition of the new localism and how it has come to shape urban governance and urban planning Moving beyond the UK this book examines localism and similar shifts in planning policy throughout Europe and features essays on localism and place making sustainability social cohesion and citizen participation in community institutions It explores how debates over localism and citizen control play out at the neighborhood institutional and city level and has come to effect the urban landscape throughout Europe Reconsidering Localism is a current vital addition to planning scholarship *The Green State* Robyn Eckersley, 2004-03-05 What would constitute a definitively green state In this important new book Robyn Eckersley explores what it might take to create a green democratic state as an alternative to the classical liberal democratic state the indiscriminate growth dependent welfare state and the neoliberal market focused state seeking she writes to navigate between undisciplined political imagination and pessimistic resignation to the status quo In recent years most environmental scholars and environmentalists have characterized the sovereign state as ineffectual and have criticized nations for perpetuating ecological destruction Going consciously against the grain of much current thinking this book argues that the state is still the preeminent political institution for addressing environmental problems States remain the gatekeepers of the global order and greening the state is a necessary step Eckersley argues toward greening domestic and international policy and law The Green State seeks to connect the moral and practical concerns of the environmental movement with contemporary theories about the state democracy and justice Eckersley's proposed critical political ecology expands the boundaries of the moral community to include the natural environment in which the human community is embedded This is the first book to make the vision of a good green state explicit to explore the obstacles to its achievement and to suggest practical constitutional and multilateral arrangements that could help transform the liberal democratic state into a postliberal green democratic state Rethinking the state in light of the principles of ecological democracy ultimately casts it in a new role that of an ecological steward and facilitator of transboundary democracy rather than a selfish actor jealously protecting its territory **The New Politics of Inequality in Latin America** Douglas A. Chalmers, Carlos M. Vilas, Katherine Hite, Scott B. Martin, Kerianne Piester, Monique Segarra, 1997-01-30 Against a broader backdrop of globalization and worldwide moves toward political democracy The New

Politics of Inequality in Latin America examines the unfolding relationships among social change equity and the democratic representation of the poor in Latin America Recent Latin American governments have turned away from redistributive policies at the same time popular political and social organizations have been generally weakened inequality has increased and the gap between rich and poor has grown Hanging in the balance is the consolidation and the quality of new or would be democracies this volume suggests that governments must find not just short term programmes to alleviate poverty but long term means to ensure the effective integration of the poor into political life The New Politics of Inequality in Latin America bridges the intellectual chasm between on the one hand studies of grassroots politics and on the other explorations of elite politics and formal institution building It will be of interest to students and scholars of contemporary Latin American politics and society and more generally in the vicissitudes of democracy and citizenship in the late twentieth century global system

Administrative Traditions B. Guy Peters, 2021-02-02 Contemporary public administration reflects its historical roots as well as contemporary ideas about how the public bureaucracy should be organized and function This book argues that there are administrative traditions that have their roots centuries ago but continue to influence administrative behaviour Further within Western Europe North America and the Antipodes there are four distinctive administrative traditions Anglo American Napoleonic Germanic and Scandinavian These are not the only traditions however and the book also explores administrative traditions in Central and Eastern Europe Latin America Asia and the Islamic world In addition the book contains a discussion of how administrative traditions of the colonial powers influenced contemporary administration in Africa and how they continue to interact with traditional forms of governance These discussions of tradition and persistence are also discussed in light of the numerous attempts to reform and change public administration Some administrative traditions have been more capable than others of resisting attempts at reform especially those associated with the New Public Management **The Freeman**, 2007

sustainable process design for manufacturing acrylic acid from - Nov 04 2022

web feb 1 2021 acrylic acid is a high value monomer produced today only from petrochemical resources this paper investigates the conceptual design of an eco efficient process using renewable low cost glycerol the key step is glycerol dehydration to acrolein performed in a fluidized bed reactor employing fast nanosheet zeolite catalyst

[acrylic acid wikipedia](#) - Jul 12 2023

web production acrylic acid is produced by oxidation of propylene which is a byproduct of the production of ethylene and gasoline $2 \text{ CH}_2\text{CHCH}_3 + \text{O}_2 \rightarrow 2 \text{ CH}_2\text{CHCO}_2\text{H} + 2 \text{ H}_2\text{O}$ historical methods because acrylic acid and its esters have long been valued commercially many other methods have been developed

[ihs chemical acrylic acid process summary s p global](#) - Sep 14 2023

web the conventional method to produce acrylic acid is by the two stage catalytic oxidation of propylene most acrylic acid is converted into commodity esters from crude acrylic acid caa generally 97 purity the most commonly used processes are based on nippon shokubai basf bp sohio and mitsubishi catalysts or technologies

pdf process design and simulation of an acrylic acid production - Apr 28 2022

web one of the promising methods is recovery of acrylic acid from wastewater through esterification acrylic acid could be converted to acrylic ester while wastewater could be purified to date study about esterification by using diluted acrylic acid has not been reported in the literature

acrylic acid health and safety guide united nations - Feb 24 2022

web acrylic acid is commercially available in two grades technical grade 94 for esterification and glacial grade 98 99 5 by weight and a maximum of 0 3 water by weight for production of water soluble resins

acrylic acid reactions production and uses chemcess com - May 30 2022

web 3 1 production of acrylic acid by propene oxidation the production of acrylic acid from propene involves heterogeneous catalytic oxidation in the vapor phase using air and steam the resulting product is typically absorbed in water followed by extraction with a suitable solvent and then distilled to obtain technical grade glacial acrylic acid

us20160016876a1 acrylic acid production methods google - Oct 15 2023

web acrylic acid production methods 1 a method for producing acrylic acid the method comprising the steps of forming polypropiolactone at a first

acrylic acid synthesis manufacturing process study com - Aug 01 2022

web acrylic acid is used to produce compounds such as plastics and paints it can be synthesized from ethene and carbon monoxide forming a new carbon carbon bond

design and control of acrylic acid production process - Mar 08 2023

web jan 1 2014 abstract this paper presents the design and control of acrylic acid production process using aspen plus and aspen dynamics propylene reacts with oxygen and produces acrylic acid and water

reducing energy requirements in the production of acrylic acid - Oct 03 2022

web feb 26 2020 acrylic acid is a widely used chemical intermediate in the polymer and textile industry there are numerous technologies available for the production of both ester and glacial acrylic acid however the most popular route is

sustainable production of acrylic acid via 3 hydroxypropionic acid - May 10 2023

web nov 29 2021 the objective of this study was to evaluate the potential for sustainable production of 3 hp from renewable sugar based feedstocks and catalytic upgrading to acrylic acid across a landscape of biorefinery designs

design and optimization of an intensified process to produce acrylic - Feb 07 2023

web aug 1 2022 based on this this work proposes the design of a new process to produce acrylic acid using bio glycerol generated as a by product of the biodiesel manufacturing process through the implementation of an intensified distillation reaction process using two steps production method

october 2015 ihs s p global - Dec 05 2022

web acrylic acid is a major building block in the production of many industrial and consumer products the global market for acrylic acid was approximately 5 million metric tons in 2013 worth 8 billion with growth forecast at 4.2 annually during 2013-18 the conventional method to produce acrylic acid is by the two stage catalytic oxidation

advances in the research and development of acrylic acid production - Apr 09 2023

web aug 1 2006 among these attempts the possibility of producing acrylic acid from biomass has caught the eye of many researchers converting the carbohydrates first to lactic acid by fermentation and then dehydrating lactic acid to acrylic acid is hitherto the most effective way for producing acrylic acid from biomass

production methods of acrylic acid chemicalbook - Aug 13 2023

web mar 8 2022 the production methods of acrylic acid since the industrial production of acrylic acid and ester in the 1930s it has undergone the cyanoethanol method the reppe method the ketene method the acrylonitrile hydrolysis method and the propylene oxidation method the first four processes have been basically eliminated due to
