Rethinking Security In Post Cold War Europe:

Rethinking Security in Post-Cold-War Europe William Park,G.Wyn Rees,2014-06-11 Provides a survey of the principal items on the agenda following the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned

Regional Peacekeeping in the Post-Cold War Era Hilaire McCoubrey,Justin Morris,2021-09-06 *The Kosovo crisis and the evolution of a post-Cold War European security* Martin A Smith,Paul Latawski,2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Analyses the international response to the crisis in Kosovo and its broader implications by examining its diplomatic military and humanitarian features Unravelling these implications can be challenging as it remains an event replete with paradoxes the originality of this book s approach lies in its exploration of these paradoxes The crisis in Kosovo has been a headline grabbing event a serious study of the implications of the conflict on wider European security issues and institutions is urgently required

Uncertain Europe Martin Smith,Graham Timmins,2002-04-12 This timely book considers the topical issue of the enlargement processes of the European Union and NATO This book is an essential resource for those academics interested in the development of the European Union

A New Euro-Mediterranean Cultural Identity Stefania Panebianco,2004-08-02 The Euro Mediterranean Partnership was formed in 1995 in Barcelona In this volume concepts of democracy civil society human rights and dialogue among civilizations in the Mediterranean region are addressed in the context of the new Euro Mediterranean Partnership

Building a Bigger Europe Martin A. Smith,Graham Timmins,2018-10-24 This title was first published in 2000 A fresh and original study of EU and NATO enlargement which sets both in a comparative context and considers them against a backdrop of the evolution of a pan European security community The book is divided into two parts In part one the authors examine and discuss the EU and NATO enlargement processes and the incremental linkage which has developed between them The major issues and challenges facing the two institutions as they ponder the next steps in enlargement are also assessed Part two includes separate chapters on the post Cold War evolution of the EU and NATO overall These discussions focus on their strengths and limitations in contributing to the broader and more co operative kind of European security which the end of the Cold War makes possible The final chapters examine a number of possible scenarios under which the EU and NATO either succeed or fail in contributing significantly to the development of a new European security order

International Bibliography of

Old Europe, New Europe and the US Tom Lansford, 2017-07-05 Iraq can be considered the perfect storm which brought out the stark differences between the US and Europe The disagreement over the role of the United Nations continues and the bitterness in the United States against its betrayal by allies like France is not diminishing Meanwhile the standing of the United States among the European public has plummeted Within Europe political tensions between what US Secretary of Defense Donald Rumsfeld euphemistically called the Old Europe and the New Europe continue to divide To fully comprehend these rifts this volume takes a specific look at the core security priorities of each European state and whether these interests are best served through closer security collaboration with the US or with emerging European structures such as the European Rapid Reaction Force It analyzes the contribution each state would make to transatlantic security the role they envisage for existing security structures such as NATO and the role the US would play in transatlantic security **NATO:**

Does it Still Fulfil an Important Function? Saghir Iqbal, 2018-08-10 When NATO was founded in 1949 it had a clearly defined role The demise of the Cold War the disintegration of the Soviet Union and the collapse of communism in the period from 1989 to 1991 called into question NATO's future role and its continued existence The primary role was called into question over its future relevance in the post Cold War world The reason for NATO was essentially a military alliance to deter Soviet and Warsaw Pact aggression however once the threat had finished its role had been challenged by many academics and governments Many analysts felt that NATO was nothing more than an out of date alliance from the Cold War with no real future Others would say however that an organisation such as NATO was still crucial in the modern world to ensure that countries do not act unilaterally but co operate with allies In view of the situations NATO has managed to address new issues and adapt its roles on different levels **Contemporary Europe** Richard Sakwa, Anne Stevens, 2012-03-28 This fully revised third edition provides a wide ranging introduction to political economic and social life across the whole continent Ideal for students new to the subject this popular text stimulates fresh thinking on issues and debates **Ethnic Diversity in**

Europe David Turton, Julia González, 2000-01-01 Ethnic diversity is on increase in Europe at the same time there is evidence of growing anti immigrant feeling in some countries such as Spain especially in the Southern provinces In order to build a politically united and democratic Europe the accommodation of ethnic diversity and the integration of ethnic minorities are both key challenges This book tries to explain ethnic problems in Europe **The Enlargement of Europe** Stuart

Croft, 1999 What will happen to the EU in the wake of enlargement What are the institutional and policy making changes in light of enlargement This book newly available in paperback deals with the theoretical conceptual and historical processes that led to European Union enlargement It discusses the effects of enlargement on selected European Union policies agriculture single market foreign security and defence policy immigration and looks at the effect of the institutional reforms

that were made at Amsterdam and Nice as well as considering the significance of the debates on the Constitution It contains chapters by leading European scholars from both sides of the Atlantic The chapters report current research and employ a variety of methodological and theoretical perspectives This book is unique in looking at the issues that the EU faces in the aftermath of Eastern enlargement *Torn between East and West* Iulian Chifu, Simona Tutuianu, 2016-08-05 This book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the West and Russia The Ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the Soviet Union namely the security dynamics of the border states of Eastern Europe and the Black Sea Twenty five years after the collapse of the Soviet Union a strong Russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta That conflict which hotted up over the Ukraine was soon being played out over and in the air space over Syria and Turkey while the border states themselves are likely to be drawn into the European refugee crisis and have the potential after the 2015 Paris atrocities to be breeding grounds for international terrorists This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East West divide

European Union Foreign Policy Hazel Smith, 2002-03-20 As the European Union is not a nation state it is not generally perceived to have a foreign policy However this book argues that quite the reverse is true that an overemphasis on procedure and structures has disguised the fact that the EU has a clear foreign policy that can be analysed in much the same way as that of the sovereign state Conventional assessments of the EU focus on the mechanisms institutions and treaties through which policies are implemented Smith shows how this can lead to a massive underestimation of the capacities of the EU Rather than concentrating on how the policy of the EU is made Smith investigates the action that it has engaged in abroad and the nature of its diverse global interventions in relation to the United States and the industrialised North the various regions of the South and most recently its huge involvement in east and central Europe and the entire European continent Developing a pathbreaking analysis of the nature of EU foreign policy this comprehensive account shows how the EU can be very effective indeed in promoting its own domestic interests abroad **Securitization Revisited** Michael J.

Butler, 2019-07-23 This book seeks to interrogate how contemporary policy issues become securitized and furthermore what the implications of this process are A generation after the introduction of the concept of securitization to the security studies field this book engages with how securitization and desecuritization works within and across a wide range of security domains including terrorism and counter terrorism climate change sexual and gender based violence inter state and intra state conflict identity and memory in various geographic and social contexts Blending theory and application the contributors to this volume drawn from different disciplinary ontological and geographic spaces orient their investigations around three common analytical objectives revealing deficiencies in and through application s of securitization considering securitization

through speech acts and discourse as well as other mechanisms and exposing latent orthodoxies embedded in securitization research. The volume demonstrates the dynamic and elastic quality of securitization and desecuritization as concepts that bear explanatory fruit when applied across a wide range of security issues, actors and audiences. It also reveals the deficiencies in restricting securitization research to an overly narrow set of issues, actors and mechanisms. This volume will be of great interest to scholars of critical security studies, international security and International Relations. Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

Theory and Reform in the European Union

Dimitris N. Chrysoschoou, 1999-06-12. Completely updated and newly available in paperback, this book examines the relationship between theory and reform in the European Union in the light of the Amsterdam Treaty.

European Union Policy towards the Arab-Israeli Peace Process C. Musu, 2010-02-12. What are the achievements, the limits and the failures of the EU's involvement in the Arab-Israeli conflict? This book sets out to answer this question by analysing the development of European policy towards the conflict over the last forty years.

Peace Without Politics? David Chandler, 2006. This edited collection brings together policy specialists and academics from the UK, Europe, the US and Canada to assess and analyse lessons from ten years of nation building in Bosnia.

Security Policy Reorientation in Peripheral Europe

Kjell Engelbrekt, 2019-09-18. This title was first published in 2002. This rich comparative analysis looks at security policy reorientation in four European states located at the periphery of the European continent. During the post-Cold War period, Greece, Bulgaria, Sweden and Finland conducted a security policy that was heavily influenced by their close proximity to the iron curtain. Probing this transition during a decisive phase of the post-Cold War reconstitution of the wider European security order, the author analyzes national security policy making from the standpoints of three international relations traditions: realism, institutionalism and political anthropology. This engaging work is invaluable for students, scholars and policy analysts working in the field of international relations and European politics.

EU Conflict Prevention and Crisis Management Eva Gross, Ana Juncos, 2010-12-22. This book offers a comprehensive analysis of long and short-term EU conflict prevention and crisis management policies undertaken in various theatres and policy domains, featuring case studies on West Africa, Afghanistan and the Caucasus.
