# Rethinking The Developmental State

**Luc Sindjoun**

## **Rethinking The Developmental State:**

**Rethinking the Developmental State** Vibha Pingle,Vibha Pingle,1999 Existing arguments about the developmental state primarily examine how a developmental state acts not why it acts the way it does Vibha Pingle presents an argument about the kind of business government relations that make a state willing and able to act in a manner beneficial to development and what effect the differences in relations between bureaucrats and entrepreneurs have on emerging industries BOOK JACKET

**Developmental State Building** Yusuke Takagi,Veerayooth Kanchoochat,Tetsushi Sonobe,2019-01-18 This open access book modifies and revitalizes the concept of the developmental state to understand the politics of emerging economy through nuanced analysis on the roles of human agency in the context of structural transformation In other words there is a revived interest in the developmental state concept The nature of the emerging state is characterized by its attitude toward economic development and industrialization Emerging states have engaged in the promotion of agriculture trade and industry and played a transformative role to pursue a certain path of economic development Their success has cast doubt about the principle of laissez faire among the people in the developing world This doubt together with the progress of democratization has prompted policymakers to discover when and how economic policies should deviate from laissez faire what prevents political leaders and state institutions from being captured by vested interests and what induce them to drive economic development This book offers both historical and contemporary case studies from Japan South Korea Taiwan Singapore Indonesia Malaysia Myanmar Ethiopia Kenya and Rwanda They illustrate how institutions are designed to be developmental how political coalitions are formed to be growth oriented and how technocratic agencies are embedded in a network of business organizations as a part of their efforts for state building

*Asia after the Developmental State* Toby Carroll,Darryl S. L. Jarvis,2017-10-12 Asia after the Developmental State presents cutting edge analyses of state society transformation in Asia under globalisation The volume incorporates a variety of political economy and public policy oriented positions and collectively explores the uneven evolution of new public management and neoliberal agendas aimed at reordering state and society around market rationality Taken together the contributions explore the emergence of marketisation across Asia including China Japan South Korea Indonesia Malaysia and Vietnam what is now often described as the world s most economically dynamic region and the degree to which marketisation has taken root in what forms and how this is impacting state society and market relationships

*Beyond the Developmental State* Ben Fine,Jyoti Saraswati,Daniela Tavasci,2013-05-10 Moving beyond abstract economic models and superficial descriptions of the market Beyond the Developmental State analyses the economic political and ideological interests which underpin current socio economic processes Through this approach the contributors show the close interrelation between states and markets in both national and international contexts Drawing on a wide range of case studies and themes the book exposes the theoretical and empirical limitations of the developmental state paradigm offering

alternatives as well as discussing the policy implications and challenges they raise For scholars students and practitioners of development Beyond the Developmental State presents a decisive break with the old dogmas of both neoliberal orthodoxy and theories of market imperfection and outlines theoretically and empirically grounded alternatives *Law and the New Developmental State* David M. Trubek, Helena Alviar Garcia, Diogo R. Coutinho, Alvaro Santos, 2013-05-31 This book explores the emergence of a new developmental state in Latin America and its significance for law and development theory In Brazil since 2000 emerging forms of state activism including a new industrial policy and a robust social policy differ from both classic developmental state and neoliberal approaches They favor a strong state and a strong market employ public private partnerships seek to reduce inequality and embrace the global economy Case studies of state activism and law in Brazil show new roles emerging for legal institutions They describe how the national development bank uses law in innovation promotion trade law strengthens new developmental policies in export promotion and public health and social law frames innovative poverty relief programs that reduce inequality and stimulate demand Contrasting Brazilian experience with Colombia and Mexico the book underscores the unique features of Brazil's trajectory and the importance of this experience for understanding the role of law in development today

**The Asian Developmental State** Yin-wah Chu, 2016-04-08 This volume re-examines the concept of the developmental state by providing further theoretical specifications undertaking critical appraisal and theoretical re-interpretation assessing its value for the emerging economies of China and India and considering its applicability to South Korea and Taiwan **Vietnam's Development Strategies** Pietro Masina, 2006-09-27 This book presents a critical review of the Vietnamese reform process and analyses the most crucial issues in the post Asian crisis debate arguing that a wider debate is needed in order for national policy makers to make well informed decisions

**Development and Diffusionism** J. Dibia, 2015-12-04 This book deconstructs the neopatrimonial paradigm that has dominated analysis of Nigerian and African development It shows that by denying agency to Nigerian societies and devaluing indigenous culture and local realities Eurocentric diffusionism played a significant role in the failure of development planning

**Transformational Infrastructure for Development of a Wellbeing Economy in Africa** Desta Mebratu, Mark Swilling, 2019-11-20 African countries face unprecedented challenges of defining a future development pathway in a resource and carbon constrained world This book addresses this challenge with special reference to the set of infrastructure that most African countries require to meet the sustainable development goals and fulfil the aspirations of Agenda 2063 Infrastructure is a key factor that determines how resource and energy flow and transform through socio economic systems Decisions made today by African countries on their infrastructural configuration will determine the inclusivity resource intensity and climate resilience of their development pathways for decades to come This book is a product of a two year research conducted by a group of African scholars who have an extensive academic and practical experience on the development of key infrastructure sectors in Africa **Higher Education Pathways** Ashwin, Paul, Case, Jennifer M., 2018-12-14 In what ways does access to

undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues

Developmental States Linda Low, 2004 As the Asian crisis triggered or precipitated the meltdown a second objective is to explore the reasons and factors for the breakdown or redundancy of developmental states distinguishing between domestic transformative capacity and external global factors as identified A third objective is to cull experiences and lessons beyond East Asia With many transition economies in Central and Eastern Europe beside China and Indochinese states the theory and practice of developmental states may be a useful bridge These are by no means exhaustive and comprehensive aims questions and issues For individual developmental states covered in this volume country specific lessons may also be drawn for them to be reconfigured to stay relevant The most important consideration for this volume is to value add to the literature both the theory and principles of the Asian developmental state as well as empirical observations observed elsewhere This volume comprises 13 chapters in two parts

**Global Finance and Development** David Hudson, 2014-11-27 The question of money how to provide it and how to acquire it where needed is axiomatic to development The realities of global poverty and the inequalities between the haves and the have nots are clear and well documented and the gaps between world's richest and the world's poorest are ever increasing But even though funding development is assumed to be key the relationship between finance and development is contested and complex This book explores the variety of relationships between finance and development offering a broad and critical understanding of these connections and perspectives It breaks finance down into its various aspects with separate chapters on aid debt equity microfinance and remittances Throughout the text finance is presented as a double edged sword while it is a vital tool towards poverty reduction helping to fund development more critical approaches remind us of the ways in which finance can hinder development It contains a range of case studies throughout to illustrate finance in practice including UK aid to India debt in Zambia Apple's investment in China microfinance in Mexico government bond issues in Chile and financial crisis in East Asia The text develops and explores a number of themes throughout such as the relationship between public and private sources of finance and debates about direct funding versus the allocation of credit through commercial financial markets The book also explores finance and development interactions at various levels from the global

structure of finance through to local and everyday practices Global Finance and Development offers a critical understanding of the nature of finance and development This book encourages the reader to see financial processes as embedded within the broader structure of social relationships Finance is defined and demonstrated to be money and credit but also crucially the social relationships and institutions that enable the creation and distribution of credit and the consequences thereof This valuable text is essential reading for all those concerned with poverty inequality and development *The South Korean Development Experience* E. Kim, 2014-06-25 This volume explores South Korea's successful transition from an underdeveloped authoritarian country to a modern industrialized democracy South Korea's experience of foreign aid gives a unique perspective on how to use foreign aid for economic development as well as how to build a strong partnership between developed and developing countries *The Coming African Hour* Luc Sindjoun, 2010 The Coming African hour is not a slogan nor wishful thinking It is a conclusion that derives from an insightful analysis of the current situation pertaining on the continent Several African scholars coming from different regions and academic backgrounds are elaborating ideas and arguments in order to explain the constraints and to illustrate the opportunities The result of that scientific gathering is a book that synthesizes and renews the reflections on development What is at stake is not to be pessimistic or optimistic about Africa The epistemological challenge is to understand what is going on By focusing on converging and diverging African realities on the issues of state civil society gender and development strategies the authors of the book show under which conditions the African hour is coming At that level the commitment for political science meets the commitment for Africa The main success of this book is to overcome the preconceived ideas and self fulfilling prophecies about Africa Here the analysis avoids the trap of indulgence then hope is based on truth Consequently the coming African hour is not inescapable it is as analyzed a possibility that its achievement depends on institutional human political social and economic factors **In and against Development: From New to Newest Development Economics** Ben Fine, 2025-02-27 The Economics of Everything or Economics Imperialism now has a dominant presence in development economics and an agenda setting role in development studies with the World Bank taking a leading if contested role This volume examines how this happened charting the evolution from the old or classic development economics through the new newer and newest development economics Drawing critically upon the Kuhnian notions of paradigm shifts corresponding changes are contextualised materially intellectually and policy wise Covering key issues such as famine the developmental state and trade and industrial policy detailed attention is paid to the potential for alternatives for economics and economic policies **Capitalism, Democracy, Socialism: Critical Debates** Albena Azmanova, James Chamberlain, 2022-09-07 This book critically analyzes the current historical conjuncture of neoliberal capitalism with an eye to its emergent alternatives Can democracy and capitalism thrive together Is socialism a viable and a desirable alternative What are the forms of emancipatory action and critical thought that can effectively chart a way forward Focusing on nine critical debates it provides a uniquely

comprehensive overview of the tensions contradictions and latent emancipatory potential of contemporary global capitalism The specific debates are as follows capitalism s relationship with democracy privatization and governance of the commons the financialization of capitalism technology and the future of work varieties of neoliberal capitalism cosmopolitanism international development and human rights feminist theory and social solidarity sustainability and climate change and theories of capitalist crisis

Paths to Development in Asia Tuong Vu,2010-03-22 Why have some states in the developing world been more successful at facilitating industrialization than others Challenging theories that privilege industrial policy and colonial legacies this book focuses on state structure and the politics of state formation arguing that a cohesive state structure is as important to developmental success as effective industrial policy Based on a comparison of six Asian cases including both capitalist and socialist states with varying structural cohesion Tuong Vu proves that it is state formation politics rather than colonial legacies that have had decisive and lasting impacts on the structures of emerging states His cross national comparison of South Korea Vietnam Republican and Maoist China and Sukarno s and Suharto s Indonesia which is augmented by in depth analyses of state formation processes in Vietnam and Indonesia is an important contribution to understanding the dynamics of state formation and economic development in Asia

Politics of Modern South Asia Subrata Kumar Mitra,2009 Provides a cross referenced and easily accessible collection of the best scholarly articles in the field South Asian politics While each of the four volumes is designed to be self contained and cohesive the volumes are linked through the general introduction cross referencing index and a bibliography of further annotated readings

*Business, Politics, and the State in Africa* Doctor Tim Kelsall,2013-01-10 In recent years Africa appears to have turned a corner economically It is posting increased growth rates and is no longer the world s slowest growing region Commentators are beginning to ask whether emerging from Africa is a new generation of lion economies to challenge the East Asian tigers This book goes behind the headlines to examine the conditions necessary not just for growth in Africa but for a wider business and economic transformation Contrary to neoliberal economics it argues that governments can play an important role in this through selective interventions to correct market failures and controversially that neo patrimonial governance need not be an obstacle to improved business and economic conditions Drawing on a variety of timely case studies including Rwanda Ethiopia Tanzania and Ghana this provocative book provides a radical new theory of the political and institutional conditions required for pro poor growth in Africa

**The Evolving Structure of South Africa's Economy** Seeraj Mohamed,Amuzweni Ngoma,2024-01-23 South Africa still faces low economic growth and high unemployment coupled with the persistent challenges of poverty and inequality These exert pressure on South Africa to foster structural transformation that will facilitate a more inclusive and resilient economy Authors apply multiple theoretical and empirical perspectives to take stock of the historical and contemporary structure of the South African economy its evolving nature and possible future pathways The explore how South Africa s structural transformation agenda is affected by the global context and discuss

debates on the extreme social impacts of globalised and financialised economic structures Contributors offer technical and analytical discussions of the overlapping structural faultlines that produce uneven economic performance They explain the changes and continuities of South Africa s economic structure bound by an analytical thread that centres power relations and political settlements Varied chapters explain how poor governance and corruption have slowed down structural reform This has been further exacerbated by the inconsistent availability of energy and the deterioration of logistics The book details the structural reforms and policy regimes necessary for increasing productive capacity in South Africa s agriculture manufacturing agro processing retail and services energy and mining industries It also reflects on the role that micro and informal enterprises can play if afforded the necessary support The technical details and analyses in the book highlight the need for a radical review of macroeconomic policy to reduce the country s chronic vulnerability to poverty and inequality
