Europe(s) Matthew D'Auria, Fernanda Gallo, 2022-09-26 This book investigates how ideas of and discourses about Europe have been affected by images of the Mediterranean Sea and its many worlds from the nineteenth century onwards

Surprisingly modern scholars have often neglected such an influence and in fact in most histories of the idea of Europe the Mediterranean is conspicuously absent This might partly be explained by the fact that historians have often identified Europe with modernity and the Atlantic world and therefore in opposition to the classical world centred around the Mediterranean

This book will challenge such views showing that a plethora of thinkers from the early nineteenth century to the present have refused to relegate the Mediterranean to the past Importance is given to the idea of a distinct meridian thought a notion first set forth by Albert Camus and now reworked by French and Italian thinkers

As most chapters argue this might represent an important tool for rethinking the Mediterranean and in turn it might help us challenge received notions about European identity and rethink Europe as the locus of modernity

Mediterranean Europe s Rethinking Europe from its Southern Shores will appeal to researchers and students alike interested in European studies and Mediterranean history **The Hellenistic**

West Jonathan R. W. Prag, Josephine Crawley Quinn, 2013-10-24 Pathbreaking essays challenging the traditional focus on the eastern Mediterranean in the Hellenistic period and on Rome in the West *American Mediterraneans* Susan

Gillman, 2022-05-20 The story of the American Mediterranean both an idea and a shorthand popularized by geographers historians novelists and travel writers from the early nineteenth century to the 1970s

The naturalist Alexander von Humboldt visiting the Gulf Caribbean in the early nineteenth century called it America s Mediterranean Almost a century later Southern California was hailed as Our Mediterranean Our Italy

Although American Mediterranean is not a household phrase in the United States today it once circulated widely in French Spanish and English as a term of art and folk idiom In this book Susan Gillman asks what cultural work is done by this kind of unsystematic open ended comparative thinking

American Mediterraneans tracks two centuries of this geohistorical concept from Humboldt in the early 1800s to writers of the 1890s reflecting on the Pacific world of the California coast to writers of the 1930s and 40s speculating on the political past and future of the Caribbean

Following the term through its travels across disciplines and borders American Mediterraneans reveals a little known racialized history one that paradoxically appealed to a range of race neutral ideas and ideals **The**

Byzantines Averil Cameron, 2009-11-09 Winner of the 2006 John D Criticos Prize This book introduces the reader to the

complex history ethnicity and identity of the Byzantines This volume brings Byzantium often misconstrued as a vanished successor to the classical world to the forefront of European history Deconstructs stereotypes surrounding Byzantium Beautifully illustrated with photographs and maps

French Mediterraneans Patricia M. E. Lorcin, Todd Shepard, 2016-05-01 Collection of essays that explore the French presence in the 19th and 20th century making of the Mediterranean Provided by publisher *Britain's Levantine Empire, 1914-1923* Daniel-Joseph MacArthur-Seal, 2021 Britain's Levantine Empire 1914-1923 tells a unique history of the impact of British soldiers and government policy on the Eastern Mediterranean during the First World War and its aftermath

European Regions and Boundaries Diana Mishkova, Balázs Trencsényi, 2017-07-01 It is difficult to speak about Europe today without reference to its constitutive regions supra national geographical designations such as Scandinavia Eastern Europe and the Balkans Such formulations are so ubiquitous that they are frequently treated as empirical realities rather than a series of shifting overlapping and historically constructed concepts This volume is the first to provide a synthetic account of these concepts and the historical and intellectual contexts in which they emerged Bringing together prominent international scholars from across multiple disciplines it systematically and comprehensively explores how such meso regions have been conceptualized throughout modern European history

New Global Realism Gabriele Lazzari, 2024-08-22 A comparative study of contemporary realist novels that employ totality as a method and a formal principle to represent the social and economic inequalities of the present this book examines writing in English Italian Kannada and Spanish by authors from Zimbabwe Ghana Italy India and Mexico By theorizing four modalities of totalization employed by contemporary realist writers this book explores the current resurgence of realism and challenges critical approaches that consider it naive or formally unsophisticated Instead it argues that realist novels offer a self conscious and serious representation of the world we inhabit while actively envisioning new social designs and political configurations Through comparative studies of novels by Fernanda Melchor NoViolet Bulawayo Vivek Shanbhag Nicola Lagioia Igiaba Scego Yaa Gyasi and Roberto Bola o this book further explains why realism can be a powerful antidote to the skepticism about the possibility of making truth claims in humanist research

Comparative Regional Integration Finn Laursen, 2018-02-06 This title was first published in 2003 After briefly reviewing the basic theoretical stances animating the rest of the proceedings Laursen international politics U of Southern Denmark presents 11 contributions that comparatively review processes of regional integration around the world

The Ancient Sea Hamish Williams, Ross Clare, 2022-11-17 In the ancient Mediterranean world the sea was an essential domain for trade cultural exchange communication exploration and colonisation In tandem with the lived reality of this maritime space a parallel experience of the sea emerged in narrative representations from ancient Greece and Rome of the sea as a cultural imaginary This imaginary seems often to oscillate between two extremes the utopian and the catastrophic

such representations can be found in narratives from ancient history philosophy society and literature as well as in their post classical receptions Utopia can be found in some imaginary island paradise far away and across the distant sea the sea can hold an unknown mysterious divine wealth below its surface and the sea itself as a powerful watery body can hold a liberating potential The utopian quality of the sea and seafaring can become a powerful metaphor for articulating political notions of the ideal state or for expressing an individual s sense of hope and subjectivity Yet the catastrophic sea balances any perfective imaginings the sea threatens coastal inhabitants with floods tsunamis and earthquakes and sailors with storms and the accompanying monsters From symbolic perspectives the catastrophic sea represents violence instability the savage and even cosmological chaos The twelve papers in this volume explore the themes of utopia and catastrophe in the liminal environment of the sea through the lens of history philosophy literature and classical reception Contributors Manuel lvarez Mart Aguilar Vilijus Bartninkas Aaron L Beek Ross Clare Gabriele Cornelli Isaia Crosson Ryan Denson Rhiannon Easterbrook Emilia Mataix Ferr ndiz Georgia L Irby Simona Martorana Guy Middleton Hamish Williams *Transactions of the Royal Historical Society: Volume 21* Ian W.
