SENATE
S. No. 862

RECEIVED BY: 

Introduced by Senator Ralph G. Recto

AN ACT
MANDATING THE ANNUAL PUBLIC DISCLOSURE OF ALL CONTINGENT
LIABILITIES INCURRED BY ALL NATIONAL GOVERNMENT AGENCIES, LOCAL
GOVERNMENT UNITS, GOVERNMENT-OWNED OR -CONTROLLED
CORPORATIONS, GOVERNMENT FINANCIAL INSTITUTIONS, AND OTHER
GOVERNMENT INSTRUMENTALITIES

Explanatory Note

The Philippine Government is mandated by no less than the 1987 Constitution to recognize the role of the private sector in providing adequate social services, promoting full employment, raising the standard of living, and improving the quality of life for all Filipinos.

Encouraging the private sector to participate in the delivery of public services, however, is hampered by the country's market realities marked by stringent regulations, uncertain socio-economic and political environment, and market distortions caused by price control and subsidies.

To tap private sector capital and skills, the government was compelled to make public sector investments more profitable by providing incentives and assuming investment risks. As such, the conferment of government guarantees on public sector investment and borrowings became one of the prominent features of Republic Act No. 6957 as amended, otherwise known as the Build-Operate-Transfer (BOT) Law.

The benefits of government guarantees, however, come at a price. Studies conducted by the University of the Philippines School of Economics¹ showed that government risk management practices severely understate the level of exposure and risk arising from unfettered provision of guarantees. The Philippine Institute for Development Studies (PIOS)² and the Development Budget Coordinating Committee (DBCC)³ raised their concerns over the unexpected public sector obligations that could be brought about by government guarantees, especially on the delivery of public goods and services.

The Senate Economic Planning Office (SEPO)⁴ underscored the importance of effective identification, management, and reporting of contingent liabilities and off-budget risks of government-owned and -controlled corporations (GOCCs), since past fiscal crises in the Philippines were triggered by extra-budgetary activities. Considering the potential of government

Misra,2012-12-06 The world has witnessed several revolutions since the dawn of industrial revolution some two centuries ago During the current century itself three revolutions in the area of communication information processing and quality have taken place and each time the standard of living of man improved beyond predictions But during the same period the world population has also phenomenally increased dwarfing the gains achieved from the development Increased level of industrial activity to meet the of humanity has caused irreversible damage to the pristine environment that the demand Earth once had Economic disparity between the haves and havenots has widened aggravating the situation further more Ozone layer depletion warming up of Earth s atmosphere and the pollution created by uncontrolled industrial activity to gain economic strength are now assuming the proportion of a catastrophe that may eventually threaten the survival of life on Earth Developed countries blame the Third World countries for the uncontrolled emissions through burning of fossil fuels and for wasting precious resources of energy by using inefficient and uneconomical technologies while the developed countries are equally responsible for avoidable over consumption and for the wastage of resources and energy and for not sharing the improved and efficient technologies with the developing countries Thus the wastage by both these set of countries continues unabated After all resources of the world are finite and are meant to be shared by all its inhabitants Contemporary Environmental Accounting Stefan Schaltegger,Roger Burritt,2017-09-08 Contemporary Environmental Accounting Issues Concepts and Practice has been written by two of the world s leading experts in the field in order to provide the most comprehensive and state of the art textbook on environmental accounting yet attempted The book is suitable for both undergraduate and graduate students and their teachers professional accountants and corporate and organisational managers Although no prior knowledge of environmental accounting is necessary to understand the critical issues at stake academic accountants will also find that the book provides a useful introduction to the topic The goals of the book are to discuss and illustrate contemporary conceptual approaches to environmental accounting to make readers aware of crucial controversial topics and to offer practical examples of how the

concepts have been applied throughout Europe North America and Australia In order to increase the usefulness of the book for relevant courses each chapter concludes with a set of questions for review This book is essential reading for all those who are interested in how environmental issues influence accounting A solutions manual is available on request with the purchase of this book *Corporate Governance and Sustainability* Suzanne Benn,Dexter Dunphy,2013-01-11 In recent years as corporations and governments have increasingly been confronted with managing the expectations of a society newly alerted to the social and environmental risks of economic development recognition is dawning that achieving a sustainable world is dependent upon the democratic management and equitable distribution of these risks for now and for the future This book the first to explore the themes of corporate governance and sustainability argues that a better system of governance on a number of levels holds the key Contributed to and edited by a distinguished international team this book recognizes the complex and contested nature of both sustainability and governance and that these key concepts have been redefined considerably over time As sustainability poses new and major challenges for the theory and practice of corporate governance this book ideal for postgraduate students of business and management identifies and addresses these challenges

Alternatives for Managing the Nation's Complex Contaminated Groundwater Sites National Research Council,Division on Earth and Life Studies,Water Science and Technology Board,Committee on Future Options for Management in the Nation's Subsurface Remediation Effort,2013-03-27 Across the United States thousands of hazardous waste sites are contaminated with chemicals that prevent the underlying groundwater from meeting drinking water standards These include Superfund sites and other facilities that handle and dispose of hazardous waste active and inactive dry cleaners and leaking underground storage tanks many are at federal facilities such as military installations While many sites have been closed over the past 30 years through cleanup programs run by the U S Department of Defense the U S EPA and other state and federal agencies the remaining caseload is much more difficult to address because the nature of the contamination and subsurface conditions make it difficult to achieve drinking water standards in the affected groundwater Alternatives for Managing the Nation s Complex Contaminated Groundwater Sites estimates that at least 126 000 sites across the U S still have contaminated groundwater and their closure is expected to cost at least 110 billion to 127 billion About 10 percent of these sites are considered complex meaning restoration is unlikely to be achieved in the next 50 to 100 years due to technological limitations At sites where contaminant concentrations have plateaued at levels above cleanup goals despite active efforts the report recommends evaluating whether the sites should transition to long term management where risks would be monitored and harmful exposures prevented but at reduced costs **Research in Accounting Regulation** Gary Previts,2008-04-09 **Research in Accounting Regulation Research Handbook on Human Rights and Business** Surya Deva,David Birchall,2020-07-31 This authoritative Research Handbook brings together leading international scholars and practitioners to provide in depth analysis of some of the most hotly debated topics and issues concerning the
