

**The Making of
Chinese Foreign
and Security Policy
in the Era of Reform**

EDITED BY DAVID M. LAMPTON

Security Strategy And The Logic Of Chinese Foreign Policy

Paul H. B. Godwin

Security Strategy And The Logic Of Chinese Foreign Policy:

Security, Strategy, and the Logic of Chinese Foreign Policy Jonathan D. Pollack, 1981 *The Spirit of Chinese Foreign Policy* Chih-yu Shih, 1990-06-18 This psychological interpretation of Chinese diplomatic history considers both the universal psychocultural processes and the uniqueness of China as a nation It also attempts to establish some interaction between social science and Sinology and examines behaviour by Chinese statesmen **Chinese National Security**

Decisionmaking Under Stress Andrew Scobell, 2005 If there is one constant in expert analyses of the history of modern China it is the characterization of a country perpetually in the throes of crises While China at the mid point of the Twenty first Century s first decade is arguably the most secure and stable it has been in more than a century crises continue to emerge with apparent frequency Consequently the study of China s behavior in conditions of tension and stress is of considerable importance to policy makers and analysts around the world *The Sino-Vietnamese Approach to Managing Boundary Disputes* Ramses Amer, 2002

The Making of Chinese Foreign and Security Policy in the Era of Reform David M. Lampton, 2001 This is the most comprehensive in depth account of how Chinese foreign and security policy is made and implemented during the reform era It includes the contributions of more than a dozen scholars who undertook field research in the People s Republic of China South Korea and Taiwan **The Chinese Defense Establishment** Paul H. B. Godwin, 2019-06-18 Complex issues of national security and defense modernization continue to be a major preoccupation of the PRC leadership In the 1970s especially during the second half of that crucial decade critical decisions were made that led to Beijing s alignment with the West against the USSR and a revitalization of its armed forces This book looks at Chi

Beautiful Imperialist David Shambaugh, 2021-03-09 From President Nixon s historic visit to China in 1972 to the aftermath of the Tiananmen tragedy this book examines the changing perceptions of the United States articulated by China s America Watchers whose occupation is to interpret the beautiful imperialist for China s elite and public While other studies have looked at the behavioral history of U S China relations this is the first to probe the perceptual dimension **China's**

Just World Zhiyu Shi, 1993 Looking at China s foreign policy this book focuses on the Confucian based need of Chinese leaders to present themselves as the supreme moral rectifiers of the world order *New Directions in Strategic Thinking*

Robert O'Neill, D.M. Horner, 2021-01-26 This book first published in 1981 examines the broader aspects of international strategic relations and analyses Cold War developments within particular nations fields of warfare and areas of political military interaction The role of force in international society changed as the nuclear deadlock between the superpowers continued with military forces being deployed for political purposes in situations only just short of war The balance between NATO and Warsaw Pact forces also changed as American technology increased and short range nuclear missiles were deployed in Europe This book also examines the development of strategic thinking in China Japan and India as well as insurgency in the Third World so often the site for proxy superpower conflict *Shaping China's Future In World Affairs*

Robert G Sutter, 2019-06-26 This book considers Chinese foreign policy and China's future role in world affairs in the context of the country's recent past Robert Sutter shows that although it appears to be in U.S. interests for post Mao leaders to continue moving toward international norms a post Deng leadership backed by growing economic and military power and reflecting profound changes in China's economy and society could move in markedly different directions Most foreign powers appear willing to accommodate China avoiding actions that could prompt a sharp shift in Chinese foreign policy but Sutter argues that current U.S. policy intrudes on so many issues that are particularly sensitive for Beijing and for China's future that it represents perhaps the most critical variable determining how China will position itself in world affairs Concluding that there is no guarantee the United States will use this influence wisely Sutter examines the uncertainty and unpredictability of U.S. foreign policy in the post Cold War environment that work against the creation of an effective U.S. policy toward China

Problems of Communism, 1981 *The Spirit of Chinese Foreign Policy* Zhiyu Shi, 1990 This psychological interpretation of Chinese diplomatic history considers both the universal psychocultural processes and the uniqueness of China as a nation It also attempts to establish some interaction between social science and Sinology and examines behaviour by Chinese statesmen

The Fate of Nations Michael Mandelbaum, 1988-09-30 New interpretations of historic episodes in international relations result from a fresh analysis of national security policies and the demands and constraints imposed upon their development by the international system

Cooperative Security in Northeast Asia R. Mark Bean, 1990 Relations among China Japan and South Korea as well as Soviet and American interests in Northeast Asia provide the basic material for this study Traces the historical relations through to the present Points out cultural links between Chinese Japanese and Koreans A reasoned balanced examination of relationships in a region whose future is increasingly important to America's own security Bibliography and index

China's Maritime Security Strategy Edward Sing Yue Chan, 2021-09-09 This book examines the evolution of China's maritime security strategy and questions what has made China shift from a constrained to a more assertive strategy Historically China has not been an active player in maritime security but in recent years Beijing has begun to pursue policies and measures to safeguard its maritime rights and interests in the Indo Pacific region This growing influence in the region has become a concern for other countries about what kind of sea power China is developing This book seeks to address this concern by providing an overview of the development of China's maritime security strategy from the era of Deng Xiaoping to Xi Jinping It suggests that while the involvement of maritime actors and the development of naval capability have provided the depth to the strategy the national strategic guidelines from each generation of Chinese leadership have determined the overall direction of the maritime security strategy After 40 years of development China has established a set of priorities for its maritime agenda territorial integrity is at the top followed by development and then regional and international maritime cooperation These findings help us to understand China's multidimensional maritime power as being both assertive and cooperative This book will be of much interest to students of

naval strategy maritime security Chinese politics and International Relations *Mao's Military Romanticism* Shu Guang Zhang,1995 Zhang argues that war in Korea offered Mao yet another opportunity to expand and consolidate his political power at home while at the same time uniting the Chinese proletariat against Yankee imperialism and proving to the international community that China had arrived as a major world power **American and Chinese Energy Security** Ryan Opsal,2019-02-11 This book explores the complex relationship between grand strategy and energy security by conducting a focused comparative study on the United States and China By including energy security as a component of grand strategy the author is able to present an analysis of the complex multifaceted approaches large consuming states take to secure their critical energy supplies Inclusion of energy as part of the core strategic agenda increases explanatory power and provides insights as to how states may elect to pursue supply security under times of greater scarcity or increased conflict A ranking system is also developed allowing a more systematic approach to inform this qualitative study **Power And Policy In The Prc** Yu-ming Shaw,1985-08-05 *Chinese and Indian Strategic Behavior* George J. Gilboy,Eric Heginbotham,2012-03-12 Politics Government *China and International Security* Donovan C. Chau,Thomas M. Kane,2014-04-17 The first work of its kind this strategic assessment of China s national security reveals the nation s intentions capabilities and threats and their implications for the United States and the world As China continues to develop the strategic means to advance its national interests in Asia and around the world assessing its role in international security is the greatest strategic challenge now faced by the United States and its allies China and International Security facilitates this critically important understanding analyzing topics that range from strategic geography and orientation to gender ratios Using detailed case studies and sharing expert insights the work provides historical internal and contemporary analyses that reveal the nature and character of China s national security This three volume set is written for scholars students and policymakers The volumes offer in depth articles penned by intelligence professionals and journalists as well as entries by scholars in fields as diverse as international politics history and strategic studies While other works may attempt to predict the future of China s rise or the nature of China s future bilateral relationships none so thoroughly examines the totality of China s domestic regional and international security and their implications
