Unsafe Home Limor Ezioni,2020-09-30 In *Unsafe Home* Child Harming within the Family Limor Ezioni focuses on the three major types of child harming within the family abuse incest and filicide and provides an in depth exploration of each type historically legally and comparatively In the first part focusing on abuse executed on children Ezioni addresses both physical and emotional abuse discussing what constitutes child abuse how it should be punished and whether any damage caused to a child is prosecutable by law In the second part of the book Ezioni examines childhood incest focusing on adult survivors and the multitude of legal problems they face while attempting to pursue justice through the legal system and questioning whether the current legal and criminal provisions provide sufficient protection for survivors In the final section of the book Ezioni examines the filicide phenomenon and how the judicial system in western countries deals with the painful reality that reflects the society in which it occurs

filicide is often carried out by parents who are unable to function as a parent in circumstances dictated by the place and time in which they live Scholars of legal studies family studies criminology and sociology will find this book particularly useful

What Do Gay Men Want? David Halperin, 2010-04-20 Compelling timely and provocative The writing is sleek and exhilarating It doesn't waste time telling us what it will do or what it has just done it just does it Don Kulick Professor of Anthropology New York University How we can talk about sex and risk in the age of barebacking or condomless sex without invoking the usual bogus and punitive clichés about gay men's alleged low self esteem lack of self control and other psychological deficits Are there queer alternatives to psychology for thinking about the inner life of homosexuality What Do Gay Men Want explores some of the possibilities Unlike most writers on the topic of gay men and risky sex David Halperin liberates gay male subjectivity from psychology demonstrating the insidious ways in which psychology's defining opposition between the normal and the pathological subjects homosexuality to medical reasoning and revives a whole set of unexamined moral assumptions about good sex and bad sex In particular Halperin champions neglected traditions of queer thought including both literary and popular discourses by drawing on the work of well known figures like Jean Genet and neglected ones like Marcel Jouhandeau He shows how the long history of gay men's uses of abjection can offer an alternative nonmoralistic model for thinking about gay male subjectivity something which is urgently needed in the age of barebacking Anyone searching for nondisciplinary ways to slow the spread of HIV AIDS among gay men or interested in new modes of thinking about gay male subjectivity should read this book David M Halperin is W H Auden Collegiate Professor of the History and Theory of Sexuality Professor of English Professor of Women's Studies Professor of Comparative Literature and Adjunct Professor of Classical Studies at the University of Michigan Seeing from an Unprotected Perspective Steve

Emma, 1991 **Psychosocial Perspectives on Aids** Lydia Temoshok, Andrew S. Baum, 2013-05-13 AIDS and the virus that causes it have challenged the world's scientists health care systems and public health policies as much or more than any medical problem in recorded history Perhaps this is so because this particular infirmity constitutes more than a merely medical problem it is enmeshed in psychological social cultural political and economic contexts This book examines the need for pragmatic and research based suggestions on how to address some important problems related to these contexts Although much basic research in virology and immunology can be accomplished within the biomedical domain biobehavioral disciplines such as behavioral medicine offer more opportunities for the comprehensive approach necessary to confront the AIDS HIV problem The editors of this groundbreaking volume suggest that the very nature of this constantly evolving problem encourages an approach to research and intervention prevention efforts that emphasizes flexibility of response to changing knowledge patterns of the pandemic new treatments and shifts in public opinion and behavior A major triumph in dealing with this phenomenon would include a bridging of the gap between research and applied efforts which has been the largest obstacle for progress to date In this book such previously uncharted territory is explored opening a host of new
