Seismic Expression of Structural Styles Albert W. Bally, 1983 **Seismic Expression of Structural Styles** A. W. Bally, 1983 Due to issues with confidentiality and reproducibility illustrations based on reflection seismic profiles are virtually absent in textbooks of structural geology The AAPG leadership have corrected that situation with this picture and work atlas which provides a teaching tool with reflection profiles from the real world Dynamical Geology of Salt and Related Structures I. Lerche, 2017-09-29 Dynamical Geology of Salt and Related Structures deals with many aspects of the dynamical evolution of salt bodies in sedimentary basins This book consists of four major sections Section A deals with salt dynamics and the motion of salt The impact of a mobile salt mass on the structural development of the overlying formations is considered in Section B while the development of caprock which is commonly found overlying salt diapirs is emphasized in Section C The last section deliberates the interrelationships between fluid flow salt dissolution and heat flow in the vicinity of a salt diapir including the connections with maturation of source rocks migration and trapping of hydrocarbons in salt related structures This publication is valuable to professional geoscientists interested in processes involved in salt dynamics
