Simple Justice, Volume 2 Richard Kluger, 1975 *Simple Justice, Volume 1* Richard Kluger, 1975 A Simple Justice Melanie Beals Goan, 2020-11-12 When the Declaration of Independence was signed by a group of wealthy white men in 1776 poor white men African Americans and women quickly discovered that the unalienable rights it promised were not truly for all The Nineteenth Amendment eventually gave women the right to vote in 1920 but the change was not welcomed by people of all genders in politically and religiously conservative Kentucky As a result the suffrage movement in the Commonwealth involved a tangled web of stakeholders entrenched interest groups unyielding constitutional barriers and activists with competing strategies In *A Simple Justice* Melanie Beals Goan offers a new and deeper understanding of the women's suffrage movement in Kentucky by following the people who labored long and hard to see the battle won Women's suffrage was not simply a question of whether women could and should vote it carried more serious implications for white supremacy and for the balance of federal and state powers especially in a border state Shocking racial hostility surfaced even as activists attempted to make America more equitable Goan looks beyond iconic women such as Susan B Anthony and Elizabeth Cady Stanton to reveal figures whose names have been lost to history Laura Clay and Madeline McDowell Breckinridge led the Kentucky movement but they did not do it alone This timely study introduces readers to individuals across the Bluegrass State who did their part to move the nation closer to achieving its founding ideals Simple Justice Richard Kluger, 2011-08-24 *Simple Justice* is the definitive history of the landmark case *Brown v Board of Education* and the epic struggle for racial equality in this country Combining intensive research with original interviews with surviving participants Richard Kluger provides the fullest possible view of the human and legal drama in the years before 1954 the cumulative assaults on the white power structure that defended segregation and the step by step establishment of a team of inspired black lawyers that could successfully challenge the law Now on the fiftieth anniversary of the unanimous Supreme Court decision that ended legal segregation Kluger has updated his work with a new final chapter covering events and issues that have arisen since the book was first published including developments in civil rights and recent cases involving affirmative action which rose directly out of *Brown v Board of Education* A Simple Justice William Ayers, Michael Klonsky, Gabrielle H. Lyon, 2000-05 Written by major players in the small schools movement this collection of essays points to the ways school restructuring strategies connect to the ongoing pursuit of social justice The editors bring together writers who are both educators and advocates for youth and who think changing schools can help change the world Building bridges to their fellow educators these essayists make powerful arguments in favour of smaller school size as an achievable reform goal *Crime and Justice, Volume 42: Crime and Justice in America* Michael Tonry, 2013-10-06 For the American criminal justice system 1975 was a watershed year Offender rehabilitation and individualized sentencing fell from favor The partisan politics of law and order took over Among the results four decades later are the world's harshest punishments and highest imprisonment

rate Policymakers interest in what science could tell them plummeted just when scientific work on crime recidivism and the justice system began to blossom Some policy areas sentencing gun violence drugs youth violence became evidence free zones In others developmental crime prevention policing recidivism studies evidence mattered Crime and Justice in America 1975 2025 tells how policy and knowledge did and did not interact over time and charts prospects for the future What accounts for the timing of particular issues and research advances What did science learn or reveal about crime and justice and how did that knowledge influence policy Where are we now and perhaps even more important where are we going The contributors to this volume the leading scholars in their fields bring unsurpassed breadth and depth of knowledge to bear in answering these questions They include Philip J Cook Francis T Cullen Jeffrey Fagan David Farrington Daniel S Nagin Peter Reuter Lawrence W Sherman and Franklin E Zimring For thirty five years the Crime and Justice series has provided a platform for the work of sociologists psychologists criminal lawyers justice scholars and political scientists as it explores the full range of issues concerning crime its causes and its remedies
