Simple Things To Make And Do:

Things to Make and Do in the Fourth Dimension Matt Parker, 2014-12-02 A book from the stand up mathematician that makes math fun again Math is boring says the mathematician and comedian Matt Parker Part of the problem may be the way the subject is taught but it s also true that we all to a greater or lesser extent find math difficult and counterintuitive This counterintuitiveness is actually part of the point argues Parker the extraordinary thing about math is that it allows us to access logic and ideas beyond what our brains can instinctively do through its logical tools we are able to reach beyond our innate abilities and grasp more and more abstract concepts In the absorbing and exhilarating *Things to Make and Do in the Fourth Dimension* Parker sets out to convince his readers to revisit the very math that put them off the subject as fourteen year olds Starting with the foundations of math familiar from school numbers geometry and algebra he reveals how it is possible to climb all the way up to the topology and to four dimensional shapes and from there to infinity and slightly beyond Both playful and sophisticated *Things to Make and Do in the Fourth Dimension* is filled with captivating games and puzzles a buffet of optional hands on activities that entices us to take pleasure in math that is normally only available to those studying at a university level *Things to Make and Do in the Fourth Dimension* invites us to re learn much of what we missed in school and this time to be utterly enthralled by it
