A Better World is Possible Georgina Ferry, 2017-09-07 On 17 March 1967 the 26 year old David Sainsbury wrote out a cheque for 5 and established the trust which would become the Gatsby Charitable Foundation Gatsby's purpose was ambitious to make the world a better place by taking on some of the social economic and scientific challenges that face humanity In recent years Gatsby has spent around 50m annually on charitable activities and by its 50th anniversary in 2017 it will have spent over 1bn on programmes that range from reducing poverty in Africa to raising the standard of technical education investigating how plants fight disease and finding out how the brain works But despite Gatsby's wide reach and the level of its donations it has always functioned discreetly and out of the public eye Georgina Ferry's in depth account reveals its achievements and invites us to question how the super rich and even the moderately affluent might spend their money more wisely and for the common good

Neoliberal Scotland Neil Davidson, Patricia McCafferty, 2009-12-14 Neoliberal Scotland argues that far from passing Scotland by as is so often claimed neoliberalism has in fact become institutionalised there As the mainstream political parties converge on market friendly policies and business interests are equated with the public good the Scottish population has become more and more distanced from the democratic process to the extent that an increasing number now fail to vote in elections This book details for the first time these negative effects of neoliberal policies on Scottish society and takes to task those academics and others who either defend the neoliberal order or refuse to recognise that it exists Neoliberal Scotland represents both an intervention in contemporary debates about the condition of Scotland and a case study of more general interest of how neoliberalism has affected one of the stateless nations of the advanced West Chapter One takes an overview of the origin and rise of neoliberalism in the developed world arguing that it repudiates rather than continues the thought of Adam Smith and the Scottish Enlightenment Part One addresses the fundamental issue of social class in Scotland over three chapters Chapter Two attempts to locate the ruling class both internally and externally Chapter Three explores the changing nature of working class membership and its collective experience Chapter Four follows the working class into the workplace where heightened tensions in the state sector have provoked an increasingly militant response from trade unionists Part Two engages with the broader impact of neoliberalism on Scottish society through a diverse series of studies Chapter Five assesses claims by successive Scottish

governments that they have been pursuing environmental justice Chapter Six examines how Glasgow has been reconfigured as a classic example of the neoliberal city Chapter Seven looks at another aspect of Glasgow in this case as the main destination of Eastern European migrants who have arrived in Scotland through the international impact of neoliberal globalisation Chapter Eight investigates the economic intrusion of private capital into the custodial network and the ideological emphasis on punishment as the main objective in sentencing Chapter Nine is concerned with the Scottish manifestations of the happiness industry showing how market fundamentalist notions of individual responsibility now structure even the most seemingly innocuous attempts to resolve supposed attitudinal problems Finally Chapter Ten demonstrates that the limited extent to which devolved Scottish governments particularly the present SNP administration have been able to go beyond the boundaries of neoliberal orthodoxy has been a function of the peculiarities of party competition in Holyrood rather than representing a fundamental disavowal of the existing order **Integrated Buildings**
