Lost In Space Blast Off Into Space:

The Spacesuit Film Gary Westfahl, 2014-01-10 Filmmakers employ various images to suggest the strangeness of outer space but protective spacesuits most powerfully communicate its dangers and the frailty of humans beyond the cradle of Earth. Many films set in space however forgo spacesuits altogether reluctant to hide famous faces behind bulky helmets and ill fitting jumpsuits. This critical history comprehensively examines science fiction films that portray space travel realistically and sometimes not quite so by having characters wear spacesuits. Beginning A with the pioneering *Himmelskibet* 1918 and *Woman on the Moon* 1929 it discusses B other classics in this tradition including *Destination Moon* 1950 *Riders to the Stars* 1954 and *2001 A Space Odyssey* 1968 C films that gesture toward realism but betray that goal with melodramatic villains low comedy or improbable monsters D the distinctive spacesuit films of Western Europe Russia and Japan and E America s spectacular real life spacesuit film the televised Apollo 11 moon landing 1969 *Blast Off with Gabby and Maddox* Steve Altier, 2024-03-03 Join Gabby and Maddox on a wild out of this world adventure. While visiting their grandparents in Florida Gabby and Maddox join the Children s Astronaut Program. Shortly after liftoff on what should have been a routine trip to the Space Station Gabby and Maddox find themselves adrift on a ship with no power. Thankfully the siblings are rescued by a purple alien named Spark from a planet called Ubatuba. He recruits them to solve a baffling mystery and in exchange he promises to take them back home. They quickly learn not everything is as it appears. Meanwhile Cody and Bindi embark on a rescue mission to save their friends but will they make it in time **Irwin Allen Television Productions, 1964-1970** Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno* Irwin Allen created four of television s most exciting and enduring science fiction series *Voyage to the Bottom of the Sea* *Lost in Space* *The Time Tunnel* and *Land of the Giants*. These 1960s series were full of Allen s favorite tricks techniques and characteristic touches and influenced other productions from the original *Star Trek* forward. Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality. This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen s television episodes were good they were great and when they were bad they were still terrific fun **Ray Harryhausen - Master of the Majicks Vol. 2** Mike Hankin, 2008-09-14 A 3 volume definitive career biography of stop motion animator visual effects creator Ray Harryhausen written over a period of 10 years with Harryhausen s cooperation.
