Precepts, Ordinations, and Practice in Medieval Japanese Tendai Paul Groner, 2022-07-31 Modern Japanese Buddhist monks of all denominations differ from those in other Asian countries because they frequently marry drink alcohol and eat meat This has caused Buddhist scholars and practitioners generally to assume that early Japanese monastics had little interest in precepts and ordinations Some medieval Japanese exegetes however were obsessively concerned with these topics as they strove to understand what it meant to be a Buddhist This landmark collection of essays by Paul Groner one of the leading authorities on Tendai Buddhism examines the medieval Tendai School which dominated Japanese Buddhism at that time to uncover the differences in understanding and interpreting monastic precepts and ordinations Rather than provide an unbroken narrative account made virtually impossible due to the number of undated apocryphal texts and those lost in the numerous fires and warfare that beset Tendai temples as well as the difficulties of tracing how texts were used Groner employs a multifaceted approach focusing on individual monks texts ceremonies exegetical problems and institutional issues Early chapters look at a major source of Tendai precepts the apocryphal Brahma's Net Sutra the Tendai scholar Annen's b 841 interpretations of the universal bodhisattva precept ordination and the historical background of his commentary on the subject Tendai perfect sudden precepts and the Vinaya and the role of confession in the bodhisattva ordination Groner goes on to discuss the Lotus Sutra another key text for Tendai precepts and the monk Ken 1262 1317 and his role in developing the consecrated ordination which is still performed today Later essays introduce Jitsudō Ninkō's 1307 1388 system of training by doctrinal debate and his commentary on ordinations doctrinal discussions of killing and Tendai discussions among several lineages on whether the precepts can be lost or violated Many of the issues discussed in the volume particularly how to distinguish various types of Buddhist practitioners and how to conduct ordinations continue to preoccupy Tendai monks centuries later The book concludes with an examination of the effects of early Tendai precepts on modern practice

**Doctrine and Practice in Medieval Korean Buddhism**, 2016-11-30 ich n 1055 1101 is recognized as a Buddhist master of great stature in the East Asian tradition Born a prince in the medieval Korean state of Kory ū 960 1279 he traveled to Song China 960 1279 to study Buddhism and later compiled and published the first collection of East Asian exegetical texts According to the received scholarly tradition after returning to Korea ich n left the Hwa m Huayan school to found a new Ch nt ae Tiantai school when he realized that the synthesis between doctrinal learning and meditative practice in the latter would help bring together the discordant sects of Kory Buddhism In the late twentieth century however scholars began to question the assertion that ich n forsook one school for another arguing that his writings assembled in The Collected Works of State Preceptor Taegak Taegak kuksa munjip do not portray a committed sectarian but a monk dedicated to developing a sophisticated and rigorous system of monastic education that encompassed all Buddhist intellectual traditions In this first comprehensive study of ich n s life and work in English Richard McBride presents translations of select lectures letters essays and poetry from The Collected Works to provide a more balanced view of ich n s philosophy of life and understanding of key Buddhist teachings The translations center on the monk s activities in the pan East Asian Buddhist world and his compilation of scholarly texts writings related to his interactions with royalty and correspondence with his Chinese mentor Jinshui Jingyuan 1011 1088 By incorporating ich n s work associated with doctrinal Buddhism and his poetry McBride clearly shows that even in his most personal work ich n did not abandon Hwa m teachings for those of the Ch nt ae but rather he encouraged monks to blend the best learning from all doctrinal traditions with meditative practice

Approximately four million Americans claim to be Buddhist. Moreover, hundreds of thousands of Americans of various faiths read about Buddhism, are interested in its philosophical tenets, or fashionably view themselves as Buddhists. They're part of what's been described as the fastest growing religious movement in America: a large group of people dissatisfied with traditional religious offerings and thirsty for an approach to spirituality grounded in logic and consistent with scientific knowledge. *The Star Spangled Buddhist* is a provocative look at these American Buddhists through their three largest movements in the United States: the Soka Gakkai International, Tibetan Vajrayana Buddhism, and Zen Buddhism. The practice of each of these American schools, unlike most traditional Asian Buddhist sects, is grounded in the notion that all people are capable of attaining enlightenment in this lifetime. But the differences are also profound: the spectrum of philosophical expression among these American Buddhist schools is as varied as that observed between Reformed Orthodox and Hasidic Judaism. *The Star Spangled Buddhist* isn't written from the perspective of a monk or academic but rather from the view of author Jeff Ourvan, a lifelong practicing lay Buddhist. As Ourvan explores the American Buddhist movement through its most popular schools, he arrives at a clearer understanding for himself and the reader about what it means to be and how one might choose to be a Buddhist in America.

*The Buddha's Footprint* Johan Elverskog, 2020-01-24

A corrective to the contemporary idea that Buddhism has always been an environmentally friendly religion. In the current popular imagination, Buddhism is often understood to be a religion intrinsically concerned with the environment. The Dharma, the name given to Buddhist teachings by Buddhists, states that all things are interconnected. Therefore, Buddhists are perceived as extending compassion beyond people and animals to include plants and the earth itself out of a concern for the total living environment. In *The Buddha's Footprint*, Johan Elverskog contends that only by jettisoning this contemporary image of Buddhism as a purely ascetic and apolitical tradition of contemplation can we see the true nature of the Dharma. According to Elverskog, Buddhism is in fact an expansive religious and political system premised on generating wealth through the exploitation of natural resources. Elverskog surveys the expansion of Buddhism across Asia in the period between 500 BCE and 1500 CE, when Buddhist institutions were built from Iran and Azerbaijan in the west to Kazakhstan and Siberia in the north, Japan in the east, and Sri Lanka and Indonesia in the south. He examines the prosperity theology at the heart of the Dharma that declared riches to be a sign of good karma and the means by which spiritual status could be elevated through donations bequeathed to Buddhist institutions. He demonstrates how this scriptural tradition propelled Buddhists to seek wealth and power across Asia and to exploit both the people and the environment. Elverskog shows the ways in which Buddhist expansion not only entailed the displacement of local gods and myths with those of the Dharma, as was the case with Christianity and Islam, but also involved fundamentally transforming earlier social and political structures and networks of economic exchange. *The Buddha's Footprint* argues that the institutionalization of the Dharma was intimately connected to

agricultural expansion resource extraction deforestation urbanization and the monumentalization of Buddhism itself     **A Global History of Architecture** Francis D. K. Ching, Mark M. **Asian Religious Responses to Darwinism** C. Mackenzie Brown, 2020-12-17 This volume brings together diverse Asian religious perspectives to address critical issues in the encounter between tradition and modern western evolutionary thought Such thought encompasses the biological theories of Charles Darwin Jean Baptiste Lamarck Earnest Haeckel Thomas Huxley and later neo Darwinians as well as the more sociological evolutionary theories of thinkers such as Herbert Spencer Pyotr Kropotkin and Henri Bergson The essays in this volume cover responses from Hindu Jain Buddhist Chinese Japanese and Indo Tibetan Confucian Daoist and Muslim traditions These responses come from the decades immediately after publication of The Origin of Species up to the present with attention being paid to earlier perspectives and teachings within a tradition that have affected responses to Darwinism and western evolutionary thought in general The book focuses on three critical issues the struggle for survival and the moral implications read into it genetic variation and its seeming randomness as related to the problems of meaning and purpose and the nature of humankind and human exceptionalism Each essay deals

with one or more of the three issues within the context of a specific tradition      **Mindful America** Jeff Wilson, 2014-07-01

Thirty years ago mindfulness was a Buddhist principle mostly obscure to the west Today it is a popular cure all for Americans daily problems A massive and lucrative industry promotes mindfulness in every aspect of life however mundane or unlikely Americans of various faiths or none at all practice mindful eating mindful sex mindful parenting mindfulness in the office mindful sports mindfulness based stress relief and addiction recovery and hire mindful divorce lawyers Mindfulness is touted by members of Congress CEOs and Silicon Valley tech gurus and is even being taught in public schools hospitals and the military Focusing on such processes as the marketing medicalization and professionalization of meditation Jeff Wilson reveals how Buddhism shed its countercultural image and was assimilated into mainstream American culture The rise of mindfulness in America Wilson argues is a perfect example of how Buddhism enters new cultures and is domesticated in each case the new cultures take from Buddhism what they believe will relieve their specific distresses and concerns and in the process create new forms of Buddhism adapted to their needs Wilson also tackles the economics of the mindfulness movement examining commercial programs therapeutic services and products such as books films CDs and even smartphone applications Mindful America is the first in depth study of this phenomenon invaluable for understanding how mindfulness came to be applied to such a vast array of non religious concerns and how it can be reconciled with traditional Buddhism in America
