homosexuality by engagement with Hinduism Copley reveals how these writers came to terms with their inner conflicts and were led in the direction of Hinduism by friendship or the influence of gurus Tackling the themes of the guru disciple relationship their quarrel with Christianity relationships with their mothers and the problematic feminine the tensions between sexuality and society and the attraction of Hindu mysticism this fascinating work seeks to reveal whether Hinduism offered the answers and fulfillment these writers ultimately sought Also included is a diary narrating Copley's quest to track down Carpenter's and Isherwood's Vedantism and Forster's Krishna cult on a journey to India *Victorian Women Travellers in Meiji Japan* Lorraine Sterry, 2009-01-29 This volume complements other published works about travel by nineteenth century women writers by locating and creating space for Japan which is missing within recent critical discourses on travel writing It examines the narratives of women writers who travelled to Japan from the mid 1850s onwards when Japan was first opened to the West and became a highly desirable travel destination for decades thereafter Many women travelled in this period and although most left no record of their journeys enough did to form a discrete body of literature spanning more than fifty years from the end of the feudal Tokugawa era to the rise of Meiji Japan as a world power Their narratives about Japan occupy a culturally significant place not only in the genre of Victorian female travel writing but in Victorian travel writing per se The writers who are the subject of this book are divided into two groups those who were travellers by intent namely Anna D A Alice Frere Annie Brassey Isabella Bird and Marie Stopes and those who travelled by default as the wives of diplomats namely Mrs Pemberton Hodgson Mrs Hugh Fraser and Baroness Albert d Anethan

*Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1961 **The Making of the Modern World** A. Macfarlane, 2001-12-17 At the start of the third Christian millennium we are aware of massive political economic and ideological changes which condition the chances of liberty wealth and equality Yet it is surprisingly difficult for us to understand these forces for we cannot see what surrounds us so closely This book analyses our condition by looking at the work of two great thinkers one of whom provides a deep historical perspective the other a wide comparative analysis F W Maitland 1850 1906 was more than the greatest professional historian of modern times he was a philosopher who provides a brilliant sketch of how our strange world has come about particularly in his work on associations and trusts Yukichi Fukuzawa 1835 1901 more than any other created the institutions of modern Japan As an outsider he provides a brilliant insight into the heart of the new capitalist and industrial civilization which had emerged in the west *Thank You Mr Crombie* Mihir Bose, 2024-05-02 Mihir Bose born in Kolkata shortly before Indian independence in 1947 still feels an enormous debt of gratitude to Mr Crombie the UK Home Office official who fulfilled his dreams of settling in Britain Having studied there in the 1960s before heading back to India under parental pressure he later returned to London Shiva Naipaul doubting that Bose could become a writer mocked him for reembracing the colonial lash but Bose would prove him wrong This absorbing memoir shows how Britain has changed dramatically for the better since the 60s Then Indian food was

shunned not adored landladies wouldn't rent Bose a room white women would not have relationships because they wanted white babies and he suffered several assaults fearing for his life In those early days Bose could not imagine that the British would take such enormous strides towards multi racial harmony While this extraordinary transformation has reinforced his faith in the nation's capacity for change Britain's complex at times deeply shameful imperial legacy must still be addressed India has been proving its doubters wrong and striving to come to terms with its tortured past Can twenty first century Britain too grow once again and earn the gratitude of future generations

**The Kāpālikas and Kālāmukhas** David N. Lorenzen, 1968 This study attempts to give as complete as possible a description of two extinct Saivite sects the Kapalikas and the Kalamukhas Since the connotations of the word sect are rather different in the contexts of Hinduism and post Reformation Christianity some preliminary analysis of it is needed A sect in a Christian context embodies three essential features a specific doctrine including a prescribed mode of worship a priesthood and a well defined and exclusive laity The structure of Hindu sects is in general much more amorphous than that of Christian ones In most cases more emphasis is placed on doctrine and mode of worship than on organization The Sanskrit words most often used for the Kapalika Kalamukha and Pasupata sects the groups discussed in this study are darśana samaya and the basic meaning of these words is doctrine Each of the three sects also had its own priesthood That of the Kalamukhas appears to have been the best organized Several major Kalamukha monasteries mathas each under a single head matha pati controlled temples in the regions surrounding them It is doubtful however whether any of the three sects had its own exclusive laity An ordinary farmer or merchant might have called himself a Buddhist Jain Vaiṣṇava or Saivite but probably not a Kapalika Kalamukha or Pasupata Often in fact persons supported priesthoods of different and even hostile sects without feeling unduly disloyal For this reason it might seem more appropriate to speak of Kalamukha Pasupata and Kapalika monastic orders rather than sects Since however the term monastic order does not usually imply a separate doctrinal or philosophical position we will remain content with the word sect

**Japan Encyclopedia** Louis-Frédéric, 2002 Knowing Japan and the Japanese better Louis Frédéric states in the introduction to this encyclopedia is one of the necessities of modern life The Japanese have a profound knowledge of every aspect and detail of Western societies Unfortunately we in the West cannot say the same about our knowledge of Japan We tend to see Japan through a veil of exoticism as a land of ancient customs and exquisite arts or we view it as a powerful contributor to the global economy the source of cutting edge electronics and innovative management techniques To go beyond these clichés we must begin to see how apparently contradictory aspects of modern Japanese culture spring from the country's evolution through more than two millennia of history This richly detailed yet concise encyclopedia is a guide to the full range of Japanese history and civilization from the dawn of its prehistory to today providing clear and accessible information on society and institutions commerce and industry sciences sports and politics with particular emphasis on religion material culture and the arts The volume is enhanced by maps and illustrations along with a

detailed chronology of more than 2 000 years of Japanese history and a comprehensive bibliography Cross references and an index help the reader trace themes from one article to the next Japan Encyclopedia will be an indispensable one volume reference for students scholars travelers journalists and anyone who wishes to learn more about the past and present of this great world civilization     Auction Catalogs, Hodgson's Rooms Sotheby Parke Bernet & Co,1979     *Catalogues of Sales* Sotheby's (Firm),1994-03-10     *Catalog of Copyright Entries* Library of Congress. Albert Rorabacher,2016-09-13 The world has become obsessed with the Western notions of progress development and globalization the latter a form of human and economic homogenization These processes through the aegis of the United Nations are comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India's problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates     Zen Skin, Zen Marrow Steven Heine,2008 Since Zen Buddhism first captivated the attention of Western seekers the dominant discourse about this sect has been romantic idealistic and utopian Some scholars have begun to examine Zen through the lenses of historical and cultural criticism producing a sharp challenge to the traditional view This text investigates
