Lesbian History Robert Aldrich,Garry Wotherspoon,2020-10-07 Who's Who in Gay and Lesbian History From Antiquity to the Mid Twentieth Century is a comprehensive and fascinating survey of the key figures in gay and lesbian history from classical times to the mid twentieth century Among those included are Classical heroes Achilles Aeneas Ganymede Literary giants Sappho Christopher Marlowe Arthur Rimbaud Oscar Wilde Royalty and politicians Edward II King James I Horace Walpole Michel de Montaigne Over the course of some 500 entries expert contributors provide a complete and vivid picture of gay and lesbian life in the Western world throughout the ages The Critical Reception of Hemingway's The Sun Also

Rises Peter L. Hays,2011 This History of the criticism of The Sun Also Rises shows not only how Hemingway's first major novel was received over the decades but also how different critical modes have dominated different decades and what besides tenure critics of different eras looked for in it As such it shows what has interested critics how they have reinterpreted the novel and how they have seen the characters playing different roles Thus the novel becomes a mirror reflecting not only Paris and Spain in 1925 but us *America Embattled* Richard Crockatt,2012-10-12 What causes Anti Americanism and where are its historical roots What is the impact of 9 11 on America's sense of itself and its role in the world Is America paradoxically a victim of its own political and economic power This book seeks to understand the terrible attacks of September 11th within a broader historical political and ideological context Rather than drawing on simple clash of civilisation oppositions the author argues that it is important to have an awareness of the complex historical processes which influence America's sense of itself and its changing view of the world How the world especially the Muslim world views America The changing nature of international politics and the global system since the end of the cold war Drawing on a wide range of contemporary and historical sources Richard Crockatt has written a balanced subtle and highly readable book which provides genuine insight into American foreign policy anti Americanism and Islamic fundamentalism It will be important reading for all those seeking to understand the background to the war on terror **Odisea nº 11: Revista de estudios**

Clark, 2004-04 There is some connexion I like the way the English spell it They're so clever about some things Probably smarter generally than we are Although there is supposed to be something We have that they don't don't ask me What it is John Ashbery Tenth Symphony Something We Have That They Don't presents a variety of essays on the relationship between British and American poetry since 1925 The essays collected here all explore some aspect of the rich and complex history of Anglo American poetic relations of the last seventy years Since the dawn of Modernism poets either side of the Atlantic have frequently inspired each other's developments from Frost's galvanizing advice to Edward Thomas to rearrange his prose as verse to Eliot's and Auden's enormous influence on the poetry of their adopted nations whichever Auden is Eliot once replied when asked if he were a British or an American poet I suppose I must be the other from the impact of Charles Olson and other Black Mountain poets on J H Prynne and the Cambridge School to the widespread influence of Frank O'Hara and Robert Lowell on a diverse range of contemporary

British poets Clark and Ford's study aims to chart some of the currents of these ever shifting relations. Poets discussed in these essays include John Ashbery, W. H. Auden, Elizabeth Bishop, T. S. Eliot, Mark Ford, Robert Graves, Thom Gunn, Lee Harwood, Geoffrey Hill, Michael Hofmann, Susan Howe, Robert Lowell, and W. B. Yeats. Poetry and sovereignty, Philip Larkin remarked in an interview of 1982, are very primitive things; these essays consider the ways in which even seemingly very unprimitive poetries can be seen as reflecting and engaging with issues of national sovereignty and self interest, and in the process they pose a series of fascinating questions about the national narratives that currently dominate definitions of the British and American poetic traditions. This innovative and exciting new collection will be of great interest to students and scholars of British and American poetry and comparative literature.

Handbook Of Research On The International Relations Of Latin America And The Caribbean G. Pope Atkins, 2018-02-12 The study of Latin American and Caribbean international relations has a long evolution both within the development of international relations as a general academic undertaking and in terms of the particular characteristics that distinguish the approaches taken by scholars in the field. This handbook provides a thorough multidisciplinary reference guide to the literature on the various elements of the international relations of Latin America and the Caribbean. Citing over 1600 sources that date from the nineteenth century to the present, with emphasis on recent decades, the volume's analytic essays trace the evolution of research in terms of concepts, issues, and themes. The Handbook is a companion volume to Atkins' *Latin America and the Caribbean in the International System* Fourth Edition, but also serves as an invaluable stand alone reference volume for students, scholars, researchers, journalists, and practitioners, both official and private.

The Past Is a Foreign Country - Revisited David Lowenthal, 2015-10-01 The past remains essential and inescapable. A quarter century after the publication of his classic account of man's attitudes to his past, David Lowenthal revisits how we celebrate, expunge, contest, and domesticate the past to serve present needs. He shows how nostalgia and heritage now pervade every facet of public and popular culture. History embraces nature and the cosmos as well as humanity. The past is seen and touched and tasted and smelt as well as heard and read about. Empathy, re-enactment, memory, and commemoration overwhelm traditional history. A unified past, once certified by experts and reliant on written texts, has become a fragmented, contested history forged by us all. New insights into history and memory, bias and objectivity, artefacts and monuments, identity and authenticity, and remorse and contrition make this book once again the essential guide to the past that we inherit, reshape, and bequeath to the future.
