## Love Hate In China:

Love and Hate in China Hans Koning, 1966      *China Looks at the West* Christopher A. Ford, 2015-07-28 Chinese leaders have long been fascinated by the US but have often chosen to demonise America for perceived cultural and military imperialism Especially under Communist rule Chinese leaders have crafted and re crafted portrayals of the US according to the needs of their own agenda and the regime s self image Christopher A Ford investigates what these depictions reveal about internal Chinese politics and Beijing s ambitions in the world today      **Image, Perception, and the Making of U.S.-China Relations** Hongshan Li, Zhaohui Hong, 1998 *Image Perception and the Making of U S China Relations* examines major events in the history of the relationship between the U S and China to show the development and effects of national images and perceptions These essays expose the effects of ideology as represented through foreign policy and the actions of leaders as well as the role of the media and governments in shaping public opinion and attitudes They show the evolution of the influential forces from the nineteenth century through the twentieth century In each country a small group of people has always controlled these forces by manipulating the power of the media and governments The nature of this situation changed national perceptions as power often moved from one small group to another As a result of manipulating the images and perceptions of each country these biased and untrue views have inevitably led to conflict between the two countries

experience about similar transformations elsewhere in the world Through detailed ethnographic portraits Mathews reveals a world of globalization based on informality reputation and trust rather than on formal contracts How he asks can such informal relationships emerge between two groups Chinese and sub Saharan Africans that don t share a common language culture or religion And what happens when Africans move beyond their status as temporary residents and begin to put down roots and establish families Full of unforgettable characters The World in Guangzhou presents a compelling account of globalization at ground level and offers a look into the future of urban life as transnational connections continue to remake cities around the world

**Superpower?** Raghav Bahl, 2010-10-28 Is India ready for superpower status or too far behind China to ever catch up In his career as one of India's leading journalists and entrepreneurs Raghav Bahl has often faced this question and many others from bewildered visitors Why are Indian regulations so weak and confusing Why is your foreign investment policy so restrictive How come your hotels are world class but the roads leading to them are so potholed Why don't you lower your voice when you make fun of your politicians Why do you control the price of oil and cable TV Clearly there's a huge difference in how India and its arch rival China work on the ground China is spectacularly effective in building infrastructure and is now reinvesting almost half its GDP Meanwhile India is still a promising economy more than half its GDP is consumed by its billion plus people yet India has some unique advantages Half its population is under twenty five giving it a strong demographic edge 350 million Indians understand English making it the largest English speaking country in the world and it's the world's largest democracy In the race to superpower status who is more likely to win China's hare or India's tortoise Bahl argues that the winner might not be determined by who is investing more and growing faster today but by something more intangible who has superior innovative skills and more entrepreneurial savvy He notes that China and India were both quick to recover from the financial crisis but China's rebound was accompanied by huge debt and deflation with weak demand India's turnaround was sturdier with lower debt and modest inflation So India's GDP grew twice as fast as China's for a few quarters the first time that had happened in nearly three decades And in contrast to China's Yuan which is pummeled for being artificially undervalued India's rupee largely floats against world currencies In the end it might come down to one deciding factor can India fix its governance before China repairs its politics With insights into the two countries' histories politics economies and cultures this is a well written fully documented comprehensive account of the race to become the next global superpower For anyone looking to understand China India and the future of the world economy this is the book to read

***Desire and Fictional Narrative in Late Imperial China*** Martin W. Huang, 2020-03-23 In this new study of desire in Late Imperial China Martin Huang argues that the development of traditional Chinese fiction as a

narrative genre was closely related to changes in conceptions of the fundamental nature of desire. He further suggests that the rise of vernacular fiction during the late Ming dynasty should be studied in the context of contemporary debates on desire along with the new and complex views that emerged from those debates. *Desire and Fictional Narrative in Late Imperial China* shows that the obsession of authors with individual desire is an essential quality that defines traditional Chinese fiction as a narrative genre. Thus the maturation of the genre can best be appreciated in terms of its increasingly sophisticated exploration of the phenomenon of desire.
