Person, 2007-04-02 This groundbreaking study has been widely hailed for its focus on a human emotion generally considered impervious to rational analysis romantic passionate love Ethel Person views romantic love as a powerful agent of change arguing that it is as central to human culture as it is to human existence This new edition of *Dreams of Love and Fateful Encounters* emphasizes the relevance of passion not only to lovers but also to mental health professionals whose patients often enter treatment because of love related issues from the inability to love or make a commitment to the perils of extramarital love to love sickness or loss of love She forthrightly addresses not only the power of love to unlock the soul but also its inherent paradoxes and conflicts Employing a philosophical perspective in order to understand the existential dilemmas posed by love and a cultural perspective in order to understand its cultural variability Dr Person breaks with contemporary intellectual and philosophical dismissive assumptions about romantic love She acknowledges love's vital importance and power proposing that passion serves an important function not only for the individual but also for the culture while charging psychoanalysis with a reductionist emphasis on sexuality and psychopathology that has narrowed the focus of inquiry into love Among the issues she discusses are romantic love's sources in our early lives its relationship to imagination and creativity and its capacity to enable the lover to transcend the self how romantic love often demands a reordering of values and promotes personal growth by exposing the self to new risks and possibilities the transformational potential of transference love in the therapy process

flaws in the common misperception that women are more influenced by romantic love than men considerations of homosexual love love across generations and love triangles focusing on the individual growth that can result from such relationships Citing accounts of love drawn from literature film and real life Person focuses on the lover s internal soliloquy and external dialogue with the beloved that can develop over an individual s life An uplifting resource for people experiencing failing or unorthodox romances Dreams of Love and Fateful Encounters boldly takes on issues pertinent to lovers to professionals who encounter patients for whom key conflicts revolve around romantic love and to anyone who has struggled to understand the importance of romantic love in his or her own life Free Fall Laura Anne Gilman,2017-03-01 Return to the magical world of the Retrievers in book 5 of this popular series by Laura Anne Gilman The Cosa Nostradamus is in disarray the Truce holding violence in check has been broken Magical Manhattan is at war and Wren Valere is left without her partner Sergei whose past loyalties keep him from her side just when she needs him the most Hoping to keep herself occupied Wren takes a job but what should have been an ordinary Retrieval instead forces her to realize that it is time to do more It is time for the Cosa to take the battle to the enemy But she ll do it her way The Retrievers way Sneaky smart and with maximum damage possible What was lost will be found what was stolen will be Retrieved And this war will be ended once and for all Wren Valere always finishes the job Always For the Love of Physics Walter Lewin,2011-05-03 YOU HAVE CHANGED MY LIFE is a common refrain in the emails Walter Lewin receives daily from fans who have been enthralled by his world famous video lectures about the wonders of physics I walk with a new spring in my step and I look at life through physics colored eyes wrote one such fan When Lewin s lectures were made available online he became an instant YouTube celebrity and The New York Times declared Walter Lewin delivers his lectures with the panache of Julia Child bringing French cooking to amateurs and the zany theatricality of YouTube s greatest hits For more than thirty years as a beloved professor at the Massachusetts Institute of Technology Lewin honed his singular craft of making physics not only accessible but truly fun whether putting his head in the path of a wrecking ball supercharging himself with three hundred thousand volts of electricity or demonstrating why the sky is blue and why clouds are white Now as Carl Sagan did for astronomy and Brian Green did for cosmology Lewin takes readers on a marvelous journey in For the Love of Physics opening our eyes as never before to the amazing beauty and power with which physics can reveal the hidden workings of the world all around us I introduce people to their own world writes Lewin the world they live in and are familiar with but don t approach like a physicist yet Could it be true that we are shorter standing up than lying down Why can we snorkel no deeper than about one foot below the surface Why are the colors of a rainbow always in the same order and would it be possible to put our hand out and touch one Whether introducing why the air smells so fresh after a lightning storm why we briefly lose and gain weight when we ride in an elevator or what the big bang would have sounded like had anyone existed to hear it Lewin never ceases to surprise and delight with the extraordinary ability of physics to answer even the most elusive questions Recounting his

own exciting discoveries as a pioneer in the field of X ray astronomy arriving at MIT right at the start of an astonishing revolution in astronomy he also brings to life the power of physics to reach into the vastness of space and unveil exotic uncharted territories from the marvels of a supernova explosion in the Large Magellanic Cloud to the unseeable depths of black holes For me Lewin writes physics is a way of seeing the spectacular and the mundane the immense and the minute as a beautiful thrillingly interwoven whole His wonderfully inventive and vivid ways of introducing us to the revelations of physics impart to us a new appreciation of the remarkable beauty and intricate harmonies of the forces that govern our lives

Love in the Dark Diane Enns, 2016-09-06 Intimate love opens us up to suffering sacrifice and loss Is it always worth the risk Consulting philosophers writers and poets who draw insights from material life Diane Enns shines a light on the limits of erotic love exploring its paradoxes through personal and philosophical reflections Situating experience at the center of her inquiry Enns conducts philosophy by another name elaborating the ambiguities and risks of love with visceral clarity Love in the Dark claims that intimacy must accept risk as long as love does not destroy the self Erotic love inspires an inexplicable affirmation of another but can erode autonomy and vulnerability There is a limit to love and appreciating it requires a rethinking of love's liberal paradigms which Enns traces back to the hostility toward the body and eros in Christianity and the Western philosophical tradition Against a legacy of an abstract and sanitized love Enns recasts erotic attachment as an event linked to conditional circumstances The value of love lies in its intensity and depth and its end does not negate love's truth or significance Writing in a lyrical genre defying style Enns delineates the paradoxes of love in its relations to lust abuse suffering and grief to reach an account faithful to human experience **Falling in Love once Again** Vibha Munjal,
