H. Auden* Wystan Hugh Auden, 1996 Volume 5 This fifth volume of W H Auden s prose displays a great writer s mind in its full maturity of wisdom learning and emotional and moral intelligence It contains his most personally revealing essays the ones in which he wrote for the first time about the full history of his family life his sexuality and the development of his moral and religious beliefs Among these works are the lightly disguised autobiographies that appear in long essays on the Protestant mystics and on Shakespeare s sonnets The book also features the full text of his T S Eliot Memorial Lectures Secondary Worlds and many unpublished or unavailable lectures and speeches Edward Mendelson s introduction and comprehensive notes provide biographical and historical explanations of obscure references The text includes corrections and revisions that Auden marked in personal copies of his work and that are published here for the first time **The Arnoldian**, 1986 **An Imperishable Heritage: British Choral Music from Parry to Dyson** Stephen Town, 2016-04-15 The rehabilitation of British music began with Hubert Parry and Charles Villiers Stanford Ralph Vaughan Williams assisted in its emancipation from continental models while Gerald Finzi Edmund Rubbra and George Dyson flourished in its independence Stephen Town s survey of Choral Music of the English Musical Renaissance is rooted in close examination of selected works from these composers Town collates the substantial secondary literature on these composers and brings to bear his own study of the autograph manuscripts The latter form an unparalleled record of compositional process and shed new light on the compositions as they have come down to us in their published and recorded form This close study of the sources allows Town to identify for the first time instances of similarity and imitation continuities and connections between the works **A Genealogy of Modernism** Michael Harry Levenson, 1986-06-27 A Genealogy of Modernism is a study of literary transition in the first two decades of the twentieth century a period of extraordinary ferment and great accomplishment during which the avant garde gradually consolidated a secure place within English culture Michael Levenson analyses that complex process by following the successive phases of a literary movement Impressionist Imagist Vorticist Classicist as it attempted to formulate the principles on which a new aesthetic might be founded The emphasis here falls on the ideology of modernism but throughout the book the ideological question is tied on the one hand to specific literary works and on the other to general movements in philosophy and the fine arts The major figures under discussion Joseph Conrad Ford Madox Ford Ezra Pound Wyndham Lewis and T S Eliot are placed in relation to thinkers who have been largely neglected in the history of modernism

Max Stirner Wilhelm Worringer Pierre Lasserre Allen Upward and Hilaire Belloc Levenson thus situates the emergence of a modernist aesthetic within the context of literary theory literary practice and cultural history *Taking the Fight to the Enemy* Adam L.
