M Lipman

Matthew Arnold Between Two Worlds:

Matthew Arnold Robert Giddings, 1986 Between Two Worlds Nicholas Sagovsky, 1983-09-08 Tyrrell and Arnold take their place in a peculiarly English theological tradition Appreciation of this tradition is of the first importance in understanding the background to contemporary Anglicanism and contemporary Catholicism More than that it offers a way of bridging the gulf between the world that to Tyrrell and Arnold was dead or dying and the world of the late twentieth century with all the questions that they began to perceive two prophetic individuals unable to live with the Church of their day and unable to find the Church of the future Between Two Worlds Lynton Keith Caldwell, 1992-01-23 The focus of this book is on changes in the human situation wrought by unprecedented changes in science based technology and expanding populations Increasing scientific information concerning these changes and their consequences is beginning to alter people's perceptions thus providing a rational basis for a worldwide environmental movement This movement complex and differentiated works through political and educational means to establish new social priorities consistent with scientific findings and the sustainability of life on Earth The success of this effort would signify a new phase of social development The thesis of this book is that human made changes in the condition of the Earth accompanied by the changing attitudes and values implicit in the environmental movement constitute an historical discontinuity The present era represents a transition between the assumptions and conditions that have hitherto characterized the modern world and those of the post modern world that is emerging Science and technology so vividly symbolized in the view from outer space are fundamentally changing our traditional beliefs about human opportunities and limitations and these changes are slowly being reflected in international policies and laws If humanity today succeeds in establishing a sustainable relationship to Earth a higher level of civilisation will have been achieved This thought provoking view will interest students and professionals in the science and politics of the environment Between Two Worlds , 2001 *Between Two Worlds* Richard Hoggart, 2020-03-09 Throughout his life Richard Hoggart has been involved with four main areas broadcasting arts policy education and social work all of which he finds have characteristics in common This collection of essays represents less than a quarter of his essays published over the last two decades The subjects to which he turned again and again and which recur in public debate are still current and contemporary His views on culture and society on literature and censorship and on higher education are both unique and timely The volume is divided into six parts Part 1 Society and Culture Home and Away discusses the question Are museums political the use of the battered word culture in relation to UNESCO and the end of the public service idea Part 2 A Very English Voice looks at the rural English culture and country of D H Lawrence and examines the controversy and censorship involved with three of Lawrence's works The Rainbow Women in Love and Lady Chatterley's Lover Part 3 Politics and Literature reveals the author's penchant for timely debates on such subjects as The State versus Literature and Freedom to Publish Even Hateful Stuff and his thoughts on reviewers and reviewing Part 4 Levels of

Education touches upon the subjects of politics in universities the use of public funds for various purposes presumed to be socially valuable academics in the marketplace and the need for government to foster critical and cultivated literacy Part 5 Figures from a Distant Past contains reminiscences on and portraits of Hoggart's close relationships and family Part 6 Summing Up and Signing Off is an interview with Nicolas Tredell in which Hoggart discusses his life's work and concerns Written in Hoggart's characteristically graceful but direct style these essays touch on issues of contemporary importance in his unique manner This volume will be of interest to scholars and general readers interested in culture studies communications and education

Between Two Worlds Upton Sinclair, 2016-01-19 The second novel in the Pulitzer Prize winning historical fiction series takes Lanny Budd through the 1920s from the rise of fascism to the crash on Wall Street Sinclair's historical acumen and his calculations about powerful institutions government press corporations oil cartels and lobbyists remain remarkably shrewd and often prescient The New York Times The First World War brought an abrupt end to Lanny Budd's idyllic youth Now in the wake of the Treaty of Versailles he barely recognizes the beloved Europe of his boyhood At the start of his career as an international art dealer Lanny travels to Italy and witnesses the brutal charisma of Fascist leader Benito Mussolini Meanwhile in Germany the failed Beer Hall Putsch led by Adolf Hitler's Nazi Party strikes an ominous note foreshadowing the devastation to come After two star crossed love affairs Lanny marries a wealthy heiress and chooses the United States with its booming economy as their home But neither he nor those he loves can predict the financial disaster that will bring a decade of prosperity to an abrupt close Between Two Worlds brings one of the most fascinating and tumultuous decades of the twentieth century to thrilling life A spellbinding mix of history adventure and romance the Lanny Budd Novels are a testament to the breathtaking scope of Upton Sinclair's vision and his singular talents as a storyteller Praise for the Lanny Budd Novels Few works of fiction are more fun to read fewer still make history half as clear or as human Time When people ask me what has happened in my long lifetime I do not refer them to the newspaper files and to the authorities but to Upton Sinclair's novels George Bernard Shaw A great and well balanced design I think it the completest and most faithful portrait of that period that has been done or will likely be done H G Wells **Between Two Worlds** Bruce McPherson, 1983 *Education Between Two Worlds* Alexander Meiklejohn, 2017-09-29 Written in the midst of World War II this book makes a strong argument for the crucial importance of education as the solution to the dilemmas with which our Anglo Saxon culture was nurtured with particular emphasis on the work of John Dewey and Jean Jacques Rousseau The schools with which this argument is concerned are those of the Anglo Saxon democracies of the last three centuries In the life of England and America as we now know them three hundred years of cultural change have moved on to a culminating and desperate crisis That culture in its religious and moral aspects we have called Protestantism On the economic and political side it has appeared as Capitalism And these two together have established and maintained a way of life which we describe as Democratic This book is devoted to an attempt to understand the education which is given by Anglo Saxon

democracies to study the learning and teaching which have been done by a Protestant capitalist civilization from the Preface As the original foreword by Reginald Archambault indicates Fundamentally this is a book about education written by an educator who was anything but conservative and never merely theoretical He is interested not only in educational theory but also in educational policy and indeed in pedagogy The volume is invaluable then for the student of education for it sheds critical light on the classic conceptions of education for the poor and provides a heuristic statement of direction for the future Stringfellow Barr writing for the New Republic indicates that this is A wise and courageous book I do not know how anybody concerned with education can ignore it Mark van Doren in the Nation said As many readers as are interested in human happiness should go through this book for it is concerned with as important a theme as any I can imagine **T. S. Eliot**

Between Two Worlds David Ward, 2015-12-22 The basis of this critical examination of Eliot's work first published in 1973 is the investigation of his transmutation of this and other philosophical mythological and religious motives into the textures of his verse This book focuses on Eliot's peculiar eclectic approach to what he described as the Tradition It also recognises the fact that Eliot for all his attempts at universality was a product of time and place and gives an account of the way in which his education and experience shaped his most important interests This title will be of interest to students of literature

Migrating Words and Worlds E. Anthony Hurley, Renée Brenda Larrier, Joseph McLaren, 1999 The essays presented here demonstrating concepts of Pan Africanism which historically were concerned with colonialism racial identity and African unity extend the discussion of an Africa that exists beyond the continent and includes the Caribbean the Americas and Europe

Wandering Between Two Worlds Anita Mathias, 2022-06-03 In lyrical essays *Wandering between Two Worlds* explores Anita Mathias's naughty Catholic childhood in India her large eccentric extended family in the Catholic sea coast town of Mangalore her rebellion and atheism as a teenager in St Mary's Convent Nainital her Himalayan boarding school run by German missionary nuns and her abrupt religious conversion whereupon she entered Mother Teresa's convent as a novice Later essays explore the dualities of her life as a writer mother and Christian in America Domesticity and Art Writing and Prayer and the experience of being an alien and stranger as an immigrant in America sensing the need for roots

Between Two Worlds: a Congressman's Choice John Bayard Anderson, 1970 **Creativity in Later Life** David Amigoni, Gordon McMullan, 2018-12-07 This collection begins with two premises that our understanding of the nature and forms of creativity in later life remains limited and that dialogue between specialists in gerontology the arts and humanities can produce the crucial new insights that are so obviously needed Representing the outcome of ongoing dialogue across the disciplinary divide the contributions of this volume reflect anew on what we share and how we differ creating new narratives so as to build an understanding of late life creativity that goes far beyond the narrow confines of the pervasively received idea of late style Creativity in Later Life encompasses a range of personal reflections and discussions of the boundaries of creativity including Canonical artistic achievements to community art projects Narratives of carers for those living with

dementia Analyses of creative theory Through these insightful chapters the authors consequently offer an understanding of creativity in later life as varied socialised and above all located in the cultural and economic circumstances of the here and now This title will appeal to academics practitioners and students in the various gerontological arts and humanities fields and to anyone with an interest in the nature of creativity in later life and the forms it takes American and British Poetry Harriet Semmes Alexander,1984 **The Arnoldian** ,1988 **Nineteenth Century Prose** ,1988 *Annual Bibliography of English Language and Literature* John Horden,1973 Shakespeare Between the World Wars Robert Sawyer,2019-02-06 Shakespeare Between the World Wars draws parallels between Shakespearean scholarship criticism and production from 1920 to 1940 and the chaotic years of the Interwar era The book begins with the scene in Hamlet where the Prince confronts his mother Gertrude Just as the closet scene can be read as a productive period bounded by devastation and determination on both sides Robert Sawyer shows that the years between the World Wars were equally positioned Examining performance and offering detailed textual analyses Sawyer considers the re evaluation of Shakespeare in the Anglo American sphere after the First World War Instead of the dried barren earth depicted by T S Eliot and others in the 1920s and 1930s this book argues that the literary landscape resembled a paradoxically fertile wasteland for just below the arid plain of the time lay the seeds for artistic renewal and rejuvenation which would finally flourish in the later twentieth century **The Cambridge History of the Gothic: Volume 3, Gothic in the Twentieth and Twenty-First Centuries** Catherine Spooner,Dale Townshend,2021-08-19 The third volume of The Cambridge History of the Gothic is the first book to provide an in depth history of Gothic literature film television and culture in the twentieth and twenty first centuries c 1896 present Identifying key historical shifts from the birth of film to the threat of apocalypse leading international scholars offer comprehensive coverage of the ideas events movements and contexts that shaped the Gothic as it entered a dynamic period of diversification across all forms of media Twenty three chapters plus an extended introduction provide in depth accounts of topics including Modernism war postcolonialism psychoanalysis counterculture feminism AIDS neo liberalism globalisation multiculturalism the war on terror and environmental crisis Provocative and cutting edge this will be an essential reference volume for anyone studying modern and contemporary Gothic culture **Wilsonian Idealism in America** David Steigerwald,1994 As he traces the fate of universal ideals through American political thought Steigerwald describes how the Wilsonians remained committed to the free market in the face of war and depression and continued to oppose interest groups in spite of the emergence of mass politics In addition to demonstrating the capacity of Wilsonianism for regeneration and sustained influence Steigerwald reveals the ironies that have attended its persistence across the century
