The Physiology of Taste: Or Meditations on Transcendental Gastronomy with Recipes (Vintage Classics)

Description :

A delightful and hilarious classic about the joys of the table, *The Physiology of Taste* is the most famous book about food ever written. First published in France in 1825 and continuously in print ever since, Jean Anthelme Brillat-Savarin's masterpiece is a historical, philosophical, and epicurean collection of recipes, reflections, and anecdotes on everything and anything gastronomical. Brillat-Savarin's famously stated "Tell me what you eat and I shall tell you what you are" shrewdly expounds upon culinary matters that still resonate today, from the rise of the destination restaurant to matters of diet and weight, and in M. F. K. Fisher, whose commentary is both brilliant and amusing, he has an editor with a sensitivity and wit to match his own.

The Hyperlocal in Eighteenth- and Nineteenth-Century Literary Space Nicholas Birns,2019-08-26 This book examines literary representations of hyperlocal spaces that subvert the idea of grounded and organic spatial identities Figures such as the pond the scientific particle and Wedgwood creamware often go unnoticed but they exemplify important shifts in culture and aesthetics in the eighteenth and nineteenth centuries The Hyperlocal in Eighteenth and Nineteenth Century Literary Space argues that these objects as well as locations such as alcoves in remote shires city inns and mountain retreats were portrayed by writers in the late eighteenth and early to mid nineteenth centuries as gambits that challenged cultural hegemonies It shows that the hyperlocal space or object though particular reaches beyond itself affording an elasticity that can allow those things that seem beneath notice to reveal broader cultural significance
