Picabo Sculpteur:

The Works of Antonio Canova; in Sculpture and Modelling, Engraved in Outline by Henry Moses; with Descriptions Volume 3 Isabella Teotochi Albrizzi, 2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1849 edition. Excerpt: SUPPLEMENTARY NOTICE TO THE BIOGRAPHICAL MEMOIR OF ANTONIO CANOVA. Since the publication of the life of Canova by Count Cicognara, a translation of which is prefixed to the first volume of this work, several publications on the same subject have been produced to the world; these, although coming from very respectable sources and containing much interesting detail, do not, however, lay us under the necessity of being otherwise than very brief. In our additional notice of this great sculptor, they in fact add little that is new and important; to much less do they invalidate the brief but correct and comprehensive memoir of Cicognara. Few persons who have been much the object of contemporary panegyric will sustain so well as Canova the deductions and qualifications which allayed enthusiasm and a soberer criticism require; and it is sufficient proof of the solidity and originality of his merit that he has undergone this process without any essential diminution of his fame as an artist or as a man. The united testimonies of biographers and critics still fully accord to him the high merit of being the first who practically restored sculpture to the long forsaken paths of nature and a due regard to the models of antiquity; and as this priority in the application of just principles of art is the solid basis of his fame, we shall avail ourselves of an extract in support of it from the ably written work of his English biographer. During the last twenty-five years of the eighteenth century, a general movement of intellect, like the incipient heavings of a long becalmed ocean, was to be observed; but time elapsed before any motion animated the deep stagnation in which the fine arts languished; advances were rapidly made in

Teodelapio. Alexander Calder. Ediz. italiana e inglese Giovanni Carandente, Alexander Calder, 1996 This fascinating book traces the construction and installation of Alexander Calder's monumental Teodelapio from his first ideas for large-scale sculptures in the 1930s up to the difficulties attending the construction of the final sculpture.
