Thompson, 2012-12-06 This is the inaugural volume of the new series Critical Issues in Psychiatry An Educational Series for Residents and Clinicians It is an appropriate beginning for this book represents a milestone in the evolution of psychiatric education For the first time there will now be a single place where one can find a comprehensive collection of educational goals and objectives to define the broad spectrum of knowledge and skills essential for general and child psychiatry This collection does not represent the bias of a single educator or program Rather it consists of a consensually validated ranking of relative importance for each educational goal and objective as determined by a large and international sampling of experienced psychiatric educators as well as an editorial board with some of the most distinguished names in psychiatric education It is even possible to tell at a glance whether the ranked level of importance is the same or different within several national groups for example Canadians vs Americans This book is intended for all students of psychiatry It is particularly valuable to residents in training but equally so for experienced clinicians preparing for Board examination or simply attending to the process of continuing education and intellectual renewal While it might well be used by an institution to delineate the dimensions of a training program in psychiatry it is intended primarily for the self evaluation and self monitoring of one's growth as a psychiatrist *Cumulative Subject Index to Psychological Abstracts* ,1969 *Children's Writer's and Illustrator's Market 2000* Alice Pope, 2000 Children's Writer's & Illustrator's Market is the only market guide available for creators of children's literature The country's largest organization for writers is the Society of Children's Book Writers and Illustrators a sure sign that writing for children is the hottest thing going Alice Pope editor **Psychiatric Annals** ,1978 *Catalog of Copyright Entries.
