The Code of Alabama: Political Alabama, 1907 **A Cross-Border-Only Regulation for Consumer Transactions in the EU** Christian Twigg-Flesner, 2011-11-16 For almost three decades the European Union EU has adopted measures to

regulate consumer transactions within the internal market created by the EU Treaties Existing legislation is largely based on directives harmonizing aspects of national consumer laws This Brief argues that a more appropriate approach for EU consumer law would be legislation in the form of a regulation which is applicable to cross border transactions only The author considers the constitutional constraints of the EU Treaties before examining the case for a cross border only measure He argues that the cross border approach is preferable because it would provide clearer benefits for consumers seeking to buy goods and services across borders while not upsetting domestic law unnecessarily in particular in the context of e commerce with implications for industry policymaking and regional development The Brief concludes by suggesting that a successful EU measure on cross border consumer transactions could create a template for global initiatives for transnational consumer law *Digest of the United States Supreme Court Reports* ,1918
