Contextual Authority and Aesthetic Truth James S. Hans, 1992-07-01 This book explores the relationship between authority and context and attempts to establish the ways in which authority is a function of a particular agent or set of agents and the degree to which it is a product of a context rather than an agent The work is not a sociological or psychological study but rather a literary philosophical speculation into the roots of our conceptions of authority It declares all authority to be aesthetic in nature and is based on an analysis of several key texts from various different cultural backgrounds Foucault Weber Nietzsche Confucius and Homer *Truth and Authority in Vico's Universal Law* Mirella Vaglio, 1999 This is the first full length study of Vico's *Diritto Universale* to be written in English This study places the work within the wider traditions of Roman legal scholarship and natural law which Vico was confronting Truth and Authority in Vico's *Universal Law* breaks new ground in the treatment of Aristotelian influences on Vico It examines Vico's idea that a theory founded on the subjective

right of the single individual cannot be the foundation of social relationships This entails the investigation of Vico's refusal to endorse rationality as the basis of authority and political agreement conceived as contract It traces a continuity between the *Diritto Universale* and Vico's major work the *Scienza Nuova* **Authority and Autonomy** Susanne Ekman, 2012-09-18 Offers a detailed and entertaining analysis of the daily interactions between managers and employees in creative knowledge intensive organizations Based on vivid examples the book shows how both managers and employees entertain contradictory understandings of their mutual commitment Reason, Authority, and the Healing of Desire in the Writings of Augustine Mark J. Boone, 2020-01-14 In *Reason Authority and the Healing of Desire in the Writings of Augustine* Mark Boone explains Augustine's theology of desire in a cross section of his writings He shows that Augustine's writings consistently teach a Platonically informed yet distinctively Christian theology of desire *Policy Legitimacy, Science and Political Authority* Michael Heazle, John Kane, 2015-10-05 Voters expect their elected representatives to pursue good policy and presume this will be securely founded on the best available knowledge Yet when representatives emphasize their reliance on expert knowledge they seem to defer to people whose authority derives not politically from the sovereign people but from the presumed objective status of their disciplinary bases This book examines the tensions between political authority and expert authority in the formation of public policy in liberal democracies It aims to illustrate and better understand the nature of these tensions rather than to argue specific ways of resolving them The various chapters explore the complexity of interaction between the two forms of authority in different policy domains in order to identify both common elements and differences The policy domains covered include climate geoengineering discourses environmental health biotechnology nuclear power whaling economic management and the use of force This volume will appeal to researchers and to convenors of post graduate courses in the fields of policy studies foreign policy decision making political science environmental studies democratic system studies and science policy studies
