## **Researching Connection:**

**Researching Widening Access to Lifelong Learning** Beth Crossan, Jim Gallacher, Michael Osborne, 2004-07-15 This authoritative volume is a truly international contribution to the worldwide debate on how best to widen access to lifelong learning. The first section of the book comprises research studies from around the world reflecting the diversity of contexts in which widening access is researched and considers issues central to the access debate including different understandings of the concept of access, organisational and structural change, curriculum development, entry policies, performance and retention, and labour market outcomes. The second section illustrates diverse and innovative methodological approaches that have been employed by researchers in the field and considers the range of approaches available. Given the growing concern around the world on the need to combat social exclusion and to improve economic circumstances through access to lifelong learning, this book acts as a unique reference point informing the ongoing debate, exploring the relationships between research policy and practice.

**Earth's Galactic History and Its Extraterrestrial Connection** Constance Victoria Briggs, 2023-11-01 Constance Victoria Briggs who brought us *The Moon's Galactic History: A Look at the Moon's Extraterrestrial Past and Its Connection to Earth* continues her exploration into our cosmic connections with her companion book *Earth's Galactic History and Its Extraterrestrial Connection*. In this exciting new work, Briggs examines current research theories and evidence linking Earth and extraterrestrials past and present. Some of the topics that Briggs covers include whether the Earth was terraformed by advanced extraterrestrials, the theory that the Earth was seeded with life by otherworldly beings, possible extraterrestrial involvement in the creation of humans, and more. She looks at evidence of humans being visited by beings from other worlds and explores the idea that there was once a battle for Earth. She brings us signs, signals, messages, and clues showing evidence that extraterrestrials are trying to communicate with humans and takes us on a journey beneath the oceans where there is believed to be an extraterrestrial presence. Briggs also investigates the possibility that otherworldly beings may be residing inside inner Earth. She delves into how extraterrestrials may be visiting Earth via stargates and portals using what she refers to as the cosmic freeway. Briggs also examines the possibility that there are extraterrestrials living among us who they are and what their goals may be when it comes to Earth. Extraordinary events believed to be related to extraterrestrials are also revealed. Briggs takes a look at current research into the UFO, UAP, USO phenomena, detailing descriptions of these enigmatic objects and witness reports. She talks about the possibility of there being an authoritative hierarchy within our galaxy that may include otherworldly federations and groups that are responsible for a galactic community. In the end, Briggs ponders humankind's spacefaring future, looking at the latest information and trends on space travel and what we have to look forward to by way of our expansive universe.
