Resistance To The Shah Landowners And The Ulama In Iran

Andrew Scott Cooper

Resistance To The Shah Landowners And The Ulama In Iran:

Resistance to the Shah Mohammad Gholi Majd, 2000 Mohammad Gholi Majd examines land policy in Iran under the two Pahlavi shahs from 1925 to 1979 the social and economic consequences of the policies and their impact on the popular uprisings of 1962-63 which many scholars regard as the beginning of the Islamic revolution Contrary to widely held views much of Iran's agricultural land up to 1960 was owned by 1-3 million small landowners Majd points out that traditional Islamic practices of matrimony and inheritance resulted in a continuous redistribution of landownership and these customs included a system of sharecropping that fulfilled a vital social and economic function Tenants enjoyed secure rights to the land and the water could not be easily evicted and were thus practically owners themselves In short conditions in Iran were entirely different from those assumed in most Western theories of land policy and reform Pressured by the United States in the 1950s to inaugurate land reform the shah in his initial attempts met with stiff resistance from parliament and the Islamic leadership The result Majd argues was an effective alliance between landowners and the fundamentalist Islamic ulama in particular Ayatollah Khomeini who emerged as the principal leader of the religious opposition In addition to photos of the secular and religious opposition leaders the book contains many rare photos of rural Iran during the periods 1890-1911 and 1930-60 For students of Iran and the Middle East as well as those interested in agrarian change and reform this work offers a provocative and revisionist perspective on important events in Iran's recent history **Soldiers, Shahs and Subalterns in Iran** S. Cronin, 2010-10-27 Against conventional views of the unchallenged hegemony of a modernizing monarchy this book argues that power was continuously contested in Riza Shah's Iran Cronin excavates the successive challenges to Riza Shah's regime posed by a range of subaltern social groups and seeks to restore to these groups a sense of their historical agency

The Shah Abbas Milani, 2011-01-04 The definitive biography of the last Shah of Iran tracing his dramatic rise and fall and his role in the creation of the contemporary Islamic Republic Though his monarchy was toppled in 1979 and he died in 1980 the life of Mohammad Reza Shah Pahlavi the last Shah of Iran continues to resonate today Here internationally respected author Abbas Milani gives us the definitive biography more than ten years in the making of the monarch who shaped Iran's modern age and with it the contemporary politics of the Middle East The Shah's was a life filled with contradiction as a social reformer he built schools increased equality for women and greatly reduced the power of the Shia clergy He made Iran a global power courting Western leaders from Churchill to Carter and nationalized his country's many natural resources But he was deeply conflicted and insecure in his powerful role Intolerant of political dissent he was eventually overthrown by the very people whose loyalty he so desperately sought This comprehensive and gripping account shows us how Iran went from politically moderate monarchy to totalitarian Islamic republic Milani reveals the complex and sweeping road that would bring the U.S. and Iran to where they are today The Carter Administration and the Fall of Iran's Pahlavi Dynasty Javier Gil Guerrero, 2016-04-08 This book is a tale of loss the loss of Iran as America's main ally and agent in the Middle East and the

downfall of the short lived Pahlavi monarchy and America's inability and unwillingness to prevent its demise Khomeini's triumph altered America's perception of Islam and fundamentally changed its relationship with Iran

Land Law in Middle Eastern Countries Oleg Igorevich Krassov, 2022 The monograph focuses on the basic features of the legal systems of the Middle Eastern countries land law in force in these countries Islamic land and water law Bedouin tribal land ownership customary water rights The monograph contains a description of the regime of property and land in Jewish law The author analyzes the current state of land law in the Middle Eastern countries including title to land title to other natural resources types of rights to land correlation of formal law and conventional land tenure systems For students graduate students and teachers of law schools employees of legislative executive and judicial authorities as well as for all those interested in issues of land civil law and comparative jurisprudence

State, Religion, and Revolution in Iran, 1796 to the Present B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi'ism is an integral part of Iran's religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves

The Conceptualization of Guardianship in Iranian Intellectual History (1800-1989) Leila Chamankhah, 2019-09-03 This book is a study of the concept of wilaya and its developments among Shi' scholars from the eighteenth to twentieth century Leila Chamankhah addresses a number of issues by delving into the conceptualizations of wilaya through the examination and interpretation of key texts She focuses on the influence of Ibn Arabi's mysticism with regard to the conception of wilaya on his Shi'a successors and expositors in later centuries She also discusses the development and transformation of the conception of wilaya over two hundred years from the esoteric school of Shaykhism to the politicization of wilaya in the theory of wilayat al faqih

Tribal Politics in Iran Stephanie Cronin, 2007-01-24 Placing Iran's tribal problem in its historical context this innovative and important work provides an overall assessment of tribal politics in the Riza Shah period challenging conventional political and scholarly approaches to tribal politics

Nomadism in Iran Daniel T. Potts, 2014 Potts examines the development of nomadism in Iran over the course of three millennia Evidence of nomadism in prehistory is examined and found insufficient to justify claims of its great antiquity The background of the earliest nomadic groups identified as Persian tribes by Herodotus is examined within the context of the migration of Iranian speakers onto the Iranian plateau in the late second or early first millennium B.C. Thereafter evidence of nomadic groups in Late Antiquity and early Islamic times is reviewed

[A Companion to the History of the Middle East](#) Youssef M. Choueiri, 2008-04-15 A Companion to the History of the Middle East offers a fresh account of the multifaceted and multi-layered history of this region A fresh account of the

multifaceted and multi layered history of the Middle East Comprises 26 newly commissioned essays by leading international scholars Primarily focused on the modern and contemporary periods Covers religious social cultural economic political and military history Treats the region as four differentiated political units Iran Turkey Israel and the Arab world Includes a section on current issues such as oil urban growth the role of women and democratic human rights **Seeds of Stability** Ethan B. Kapstein,2017-05-18 An original analysis of American interventions in the developing world asking what can be done to reduce their economic and human cost Kapstein shows the conditions under which American policies are most likely to produce political stability and when they are most likely to fail **Persian Literature and Modernity** Hamid Rezaei Yazdi,Arshavez Mozafari,2018-12-07 Persian Literature and Modernity recasts the history of modern literature in Iran by elucidating the bonds between the classical tradition and modernity and exploring textual generic and discursive formations through heterodoxical investigations This is first done through the rehabilitation of concepts embedded in tradition including the mun zirah debate Ahr man the demonic tajarrud radical aloneness and n riz yat discontent Following this are broader structural and processual treatments including the emergence of the genre of the social novel the international dimension of Persian and Persianate canon formation and the development of salvage ethnography and anthropological discourse in Iran Covering literary experiments from the twelfth to the twentieth centuries the chapters in this volume make a case for stepping outside the bounds of orthodox literary scholarship in Iranian studies with its associated political and orientalist determinants in order to provide a more nuanced conception of literary modernity in Iran Offering an alternative reading of modernity in Persian literature this book is an invaluable resource for scholars and students interested in the history of modern Iran and Persian Literature **Iran's Reconstruction Jihad** Eric Lob,2020-02-27 The first full length study to examine the significance of the critical but neglected Iranian organization and ministry Reconstruction Jihad

Homogenization, Gender and Everyday Life in Pre- and Trans-modern Iran Leila Papoli-Yazdi,Maryam Dezhakhooy,2021 Homogenization Gender and Everyday Life in Pre and Trans modern Iran An Archaeological Reading is actually an effort to investigate the interaction of power structure and gender in the context of everyday life in Iran in the 19th and early 20th centuries The book pursues two main goals situating gender in Iranian archaeology and calling for more consideration to daily life in archaeological gender researches Drawing on a wide range of material culture textual evidence statistics and oral accounts all chapters render the destruction of the everyday life of ordinary people Events like parties and ceremonies marriage and kinship sexual practices dress codes and even eating and drinking were gently regulated by the surveillance state Accordingly the term homogenization in the book s title refers to the policies of the Pahlavi government the first Iranian modern centralized state In this way the book seeks to understand the process of gender and sexual transformation of Iranian society the process which resulted in the production of deviants and negative gender and sexual lives Being the first archaeological research on gender by native archaeologists the authors state the fact that this book

investigates the politics of gender while many other aspects of gender remain still uninvestigated Leila Papoli Yazdi

Revolutionary Bodies K. S. Batmanghelichi, 2020-12-10 Gender and sexuality in modern Iran is frequently examined through the prism of nationalist symbols and religious discourse from the late nineteenth and early twentieth centuries In this book Kristin Soraya Batmanghelichi takes a different approach by interrogating how normative ideas of women s bodies in state religious and public health discourses have resulted in the female body being deemed as immodest and taboo Through a diverse blend of sources a popular cultural women s journal a red light district cases studies of temporary marriages iconic public statues and an HIV AIDS advocacy organization in Tehran this work argues that conceptions of gender and sexuality have been mediated in public discourse and experienced and modified by women themselves over the past thirty years of the Islamic Republic Expanding upon existing philosophical theory technological research and scholarship on gender and sexuality in Iran this book focuses much needed attention on under studied marginalized communities such as widows living with HIV This work interrogates how bodily technologies are constructed discursively and socially in Iran and the values and perspectives which are incorporated in them **A History of Social Justice and Political Power in the**

Middle East Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government s justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people s political culture and expectations of government The book demonstrates the

Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism. A must read for students, policymakers and ordinary citizens, this book will be an important contribution to the areas of political history, political theory, Middle East studies and Orientalism.

Subalterns and Social Protest Stephanie Cronin, 2012-09-10. The articles in this collection provide an alternative view of Middle Eastern history by focusing on the oppressed and the excluded, offering a challenge to the usual elite narratives. The collection is unique in its historical depth, ranging from the medieval period to the present, and its geographical reach, including Iran, the Ottoman Empire, Turkey, the Balkans, the Arab Middle East and North Africa. The first to focus on the oppressed and the excluded and their differing strategies of survival, of negotiation and of protest and resistance, the book covers both major social classes and sectors: the working class, the peasantry, the urban poor, women, marginal groups such as gypsies and slaves. Based on perspectives drawn from the work of the great European social historians and particularly inspired by Antonio Gramsci, the collection seeks to restore a sense of historical agency to subaltern classes in the region and to uncover the politics of the people.

The Fall of Heaven Andrew Scott Cooper, 2016-08-02. About the rise and fall of Iran's glamorous Pahlavi dynasty. Traces the Shah's life from childhood through his ascension to the throne in 1941. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba and an exclusive look at life inside the palace during the Iranian Revolution.

The Power Triangle Hazem Kandil, 2016-08-12. Revolution, reform and resilience comprise the respective fortunes of modern Iran, Turkey and Egypt. Although the countries all experienced coups with remarkably similar ambitions, each followed a very different trajectory. Iran became an absolutist monarchy that was overthrown from below; Turkey evolved into a limited democracy; and Egypt turned into a police state. In *The Power Triangle*, Hazem Kandil attributes the different outcomes to the power struggle between the political, military and security institutions. Coups establish a division of labor with one group of officers running government, another overseeing the military, and a third handling security. But their interests begin to vary as each group identifies with its own institution. Politicians wish to rule indefinitely; military officers prefer to return to barracks after implementing the needed reforms; and security men scramble to maintain the privileges they acquired in the post-coup emergency. Driven by conflicting agendas, these partners in domination struggle over regime control. Using comparative historical sociology, Kandil demonstrates how regimes are constantly shaped and reshaped through the recurrent clashes and shifting alliances between the team of rivals in this power triangle. *The Power Triangle's* realist approach to regime change shows that a clear explanation of pivotal events in Iran, Turkey and Egypt is impossible without a firm grasp of the power relations within each country's ruling bloc.
