Authenticity and Legitimacy in Minority Theatre Patrice Brasseur, Madelena Gonzalez, 2010-04-16 Contemporary

theatre is one of the best ways for ethno cultural minorities to express themselves whether they be of indigenous origin or immigrants It is often used to denounce social injustice and discrimination and more generally it helps to air questions debated in the wider community It may also express itself thanks to the staging of collective memory for it constitutes a privileged space for the exploration of the trauma of the past colonial for example as well as providing a means of effecting the reconfiguration of a new identity or of articulating an uneasiness about that identity Should minority theatre increase its visibility in relation to the mainstream or on the contrary remain on the margins and assert its specificity This question is at the centre of French Canadian experience for example but also applies to other postcolonial societies in Europe and elsewhere In order to maintain its cultural authenticity should this type of theatre distinguish itself from a multiculturalism that runs the risk of political and social recuperation If it is unable to resist the model proposed by globalization and widespread cultural dissemination will it lose its legitimacy Can and should there be a form of popular art at the service of the community The term minority raises questions that will be examined by the articles collected in this volume What is the definition of a minority Does this term refer to experimental and avant garde art forms as well as to ethno cultural drama Contemporary theatre is characterized by an aesthetics of hybridity in what measure is this the case for theatre outside the mainstream The exploration of this kind of theatre necessitates an examination of the very concept of theatre per se Since the development of the electronic media as the privileged vector of culture has not the theatrical genre itself become a minority art form These are some of the pressing questions that this volume will try to address thanks to a cross cultural multidisciplinary approach that aims to reveal the rich diversity of the field under study

Seeing Politics Otherwise Patricia I. Vieira, 2011-01-01 When confronting twentieth century political oppression and violence writers and artists in Portugal and South America have often emphasized the complex relationship between freedom and tyranny In *Seeing Politics Otherwise* Patricia Vieira uses an interdisciplinary approach to explore the interrelation of politics and representations of vision and blindness in Latin American and Iberian literature film and art Vieira's discussion focuses on three literary works Graciliano Ramos's *Memoirs of Prison* Ariel Dorfman's *Death and the Maiden* and José Saramago's *Blindness* with supplemental analyses of sculpture and film by Ana Maria Pacheco Bruno Barreto and Marco Bechis These artists use metaphors of blindness to denounce the totalizing gaze of dictatorial regimes Rather than equating blindness with deprivation Vieira argues that shadows blindfolds and blindness are necessary elements for reimagining the political world and re-acquiring a political voice *Seeing Politics Otherwise* offers a compelling analysis of vision and its forcible deprivation in the context of art and political protest **Espérame en el cielo, corazón** Soledad Figueroa Rodríguez, Javiera Larraín, 2017 Cómo han sido los tránsitos y aspectos del melodrama en Chile Solo lo podemos encontrar en
