Green Accounting Peter Bartelmus, E.K. Seifert, 2018-01-12 This title was first published in 2003 Our cherished economic indicators of income product consumption and capital fail in taking a long term view of social progress They do not account for environmental deterioration which impairs the quality of life of present and future generations and hence the sustainability of development Greening the conventional national and corporate accounts introduces environmental impacts and costs into these accounts and balances The result is a new compass for steering the economy towards sustainability which may change not only our main measures of economic performance but also the basic tenets of environmental and resource policies This book presents methodological advances and case studies of environmental accounting and discusses their use in environmental management and policies In their introduction the editors provide a critical perspective of historical developments and current debates **Tissue Culture in Forestry** J. M. Bonga, D. J. Durzan, 1982 Subject Catalog Library of Congress, 1980-04 **Energy Abstracts for Policy Analysis** ,1980-07 **ICSU newsletter** ,1980
