National Perspectives on Housing Rights Scott Leckie, 2021-10-18 More than one billion people around the world do not have adequate housing How far does human rights law help to remedy this problem What measures must governments take to protect people against housing rights violations What are the strengths and weaknesses of human rights law in the housing area Is the current law enough or are new laws necessary These and many other questions are addressed in the various chapters contained in National Perspectives on Housing Rights While most coverage of economic social and cultural rights has tended to focus on international standards and principles this book examines the more challenging question of how housing rights are implemented at the national and local level Chapters from recognised housing rights practitioners from Brazil Canada India Kenya Mexico Nigeria Philippines South Africa the US and elsewhere provide some of the first national level legal analyses of the implementation of housing rights standards recognised under international law A foreword by Nelson Mandela and a preface by international legal scholar Professor Philip Alston provide interesting perspectives on the fundamental role of housing rights within the broader human rights field

All Rise Robert W. Fuller, 2010 By the author of the bestselling *Some bodies and Nobodies* Overcoming the Abuse of Rank Argues that rankism abuse of the power that comes with superior rank does serious damage to our private relationships and public institutions Details how to design social institutions that overcome rankism and protect human dignity Learn more at www.BreakingRanks.net In his groundbreaking book *Some bodies and Nobodies* Robert Fuller identified a form of domination that everyone has experienced but few dare to protest rankism abuse of the power inherent in rank to exploit and humiliate someone of lower rank It plays a role in just about every form of social oppression n racism sexism homophobia and religious intolerance all have a significant element of rankism in them Most everyone has felt the sting of rankism at the hands of a dictatorial boss a condescending teacher an arrogant doctor or an imperious bureaucrat But equally most everyone has inflicted it on someone of lower rank That we are all of us both victims and perpetrators of rankism mandates a novel multifaceted strategy for confronting it Fuller isn't proposing that we do away with rank without it organizations become dysfunctional He's not advocating an egalitarian society where all are equal in rank but rather a dignitarian one where all are equal in dignity a society in which rank holders are held accountable rankism is shunned and dignity is broadly protected In *All Rise* Fuller lays the groundwork for a dignitarian society by delineating the scope and impact of rankism and then shows how a dignitarian movement can defeat it by addressing issues such as What would workplaces schools health care organizations politics religion and international relations look like if they were to embody dignitarian values What policies

could we develop to defend dignity in our various social institutions How can we embody these principles in our lives and create a culture of universal dignity All Rise offers hope and practical solutions for fashioning a world where human relationships are governed by respect and every person's right to dignity is affirmed A Right to Housing Rachel G. Bratt, Michael E. Stone, Chester W. Hartman, 2006 An examination of America's housing crisis by the leading progressive housing activists in the country

countries with diverse understandings of human rights from developed and developing democracies question the link between human rights and its exclusive Western philosophies Continuing inhumane actions around the globe reflect the failure of human rights law and human rights education in schools higher education and society at large The book shows that human rights education is no longer a blueprint for understanding human rights and its universal or contextual values presented for multicomplex societies The final chapters argue for new ontologies and epistemologies of human rights human rights education and human rights literacies to open up difficult conversations and to give space to dissonant and disruptive discourses The many opportunities for human rights education and literacies lies in these conversations
